**A Land Apart** Flannery Burke, 2017-05-02 Winner Spur Award for Best Contemporary Nonfiction Western Writers of America A Land Apart is not just a cultural history of the modern Southwest it is a complete rethinking and recentering of the key players and primary events marking the Southwest in the twentieth century Historian Flannery Burke emphasizes how indigenous Hispanic and other non white people negotiated their rightful place in the Southwest Readers visit the region s top tourist attractions and find out how they got there listen to the debates of Native people as they sought to establish independence for themselves in the modern United States and ponder the significance of the U S Mexico border in a place that used to be Mexico Burke emphasizes policy over politicians communities over individuals and stories over simple narratives Burke argues that the Southwest s reputation as a region on the margins of the nation has caused many of its problems in the twentieth century She proposes that as they consider the future Americans should view New Mexico and Arizona as close neighbors rather than distant siblings pay attention to the region s history as Mexican and indigenous space bear witness to the area s inequalities and listen to the Southwest s stories Burke explains that two core parts of southwestern history are the development of the nuclear bomb and subsequent uranium mining and she maintains that these are not merely a critical facet in the history of World War II and the militarization of the American West but central to an understanding of the region s energy future its environmental health and southwesterners conception of home Burke masterfully crafts an engaging and accessible history that will interest historians and lay readers alike It is for anyone interested in using the past to understand the present and the future of not only the region but the nation as a whole

**Forest and Garden** Melanie Louise Simo, 2003 How wild and managed or artificially arranged environments coexist has long been a matter of intense debate among foresters and landscape professionals

The Desert by John Van Dyke John Charles Van Dyke, 2011-01-01 This series celebrates the tradition of literary naturalists writers who embrace the natural world as the setting for some of our most euphoric and serious experiences These books map the intimate connections between the human and the natural world Literary naturalists transcend political boundaries social concerns and historical milieus they speak for what Henry Beston called the other nations of the planet Their message acquires more weight and urgency as wild places become increasingly scarce

Landscapes of Memory and Experience Jan Birksted, 2012-12-06 It has been argued that the history of landscape and of gardens has been marginalized from the mainstream of art history and visual studies because of a lack of engagement with the theories methods and concepts of these disciplines This book explores possible ways out of this impasse in such a way that landscape studies would become pivotal through its theoretical advances since landscape studies would challenge the underlying assumptions of traditional phenomenological theory Thus the history and theory of twentieth century landscape

might not only once again share concepts and methods with contemporary art and design history but might in turn influence them A complementary sequel to *Relating Architecture to Landscape* this volume of essays explores further areas of interest and discussion in the landscape architecture debate and offers contributions from a team of well known researchers teachers and writers The choice of topics is wide ranging and features case studies of modern and contemporary schemes from the USA Far East and Australasia

**The Southwest in American Literature and Art** David Warfield Teague, 1997-10 By analyzing ways in which indigenous cultures described the American Southwest David Teague persuasively argues against the destructive approach that Americans currently take to the region Included are Native American legends and Spanish and Hispanic literature As he traces ideas about the desert Teague shows how literature and art represent the Southwest as a place to be sustained rather than transformed 14 illustrations
