*John Gunther's Inside Australia* John Gunther, 1976 **Gunther's Inside Australia** John Gunther, 1972 *Area Handbook for Australia* Donald P. Whitaker, 1974 **The Publishers Weekly**, 1953 **Public Health in Papua New Guinea** Donald Denoon, Kathleen Dugan, Leslie Marshall, 2002-06-20 A study of institutional medicine medical practice and health care in colonial Papua New Guinea *Australia's Asia* David Robert Walker, Agnieszka Sobocinska, 2012 To think that Australia is confronting Asia for the first time in the 21st century is to deny Australia's history and the self awareness that comes from understanding that the country has been here before Asia appears throughout modern Australian history as a source of anxiety or hope It has been a presence both within and outside Australia shaping who Australians are as well as the country's engagement with the wider world This book assembles an impressive group of scholars across a range of disciplines to present a broadly conceived cultural history that places Asia at or near the center of Australia's national story Australia's Asia From Yellow Peril to Asian Century captures the essence of the pendulum swings that have characterized Australian approaches to Asia over the past century and a half The editors have done a first class job in assembling high quality chapters that make an important contribution to the existing literature on Australia and Asia Moreover this book tells an important story about the role and impact of individuals not just elites but in many cases ordinary citizens in building Australia's relations with Asia It is a valuable remedy to the ahistorical approach of so many of the debates within Australia over regional engagement and is a useful text for those outside Australia interested in acquiring insights into what motivates the country's approach to its region Pacific Affairs Vol 87 No 4 December 2014 **The Bulletin**, 1972-08 **Radio Speakers** Jim Cox, 2024-10-17 In the days before television radio was the constant voice in American life When radio spoke America listened especially to the men and women who spoke directly to their unseen audience Sometimes formal sometimes as familiar as the friend next door their presence filled the airwaves announcers newscasters sportscasters showbiz reporters advice consultants emcees and breakfast chatterboxes These radio personalities became as popular and familiar as the most public faces of the time Here among profiles of more than 1100 radio speakers are famous names like George Ansbro Red Barber H V Kaltenborn Dorothy Kilgallen Edward R Murrow Louella Parsons Walter Winchell and more Also amply represented are hundreds of lesser known individuals who left indelible auditory impressions Whether their fame was forever or fleeting all were a part of the American voice during the grand epoch of network radio **Catalog of Copyright Entries. weakened already inadequate colonial infrastructures and people experience the hospital as a space of institutional medical and ontological instability In the hospital s clinics biomedical practitioners struggle amid severe resource shortages to make the diseased body visible and knowable to the clinical gaze That struggle is entangled with attempts by doctors nurses and patients to make themselves visible to external others to kin clinical experts global scientists politicians and international development workers as socially recognizable and valuable persons Here hospital infrastructures emerge as relational technologies that are fundamentally fragile but also offer crucial opportunities for making people visible and knowable in new unpredictable and powerful ways     Parameters ,1976     The I-Like-My-Beer Diet Martin R. **The Relationality of Race in Education Research** Greg Vass,Jacinta Maxwell,Sophie Rudolph,Kalervo N. Gulson,2017-11-01 This edited collection examines the ways in which the local and global are key to understanding race and racism in the intersectional context of contemporary education Analysing a broad range of examples it highlights how race and racism is a relational phenomenon that interconnects local national and global contexts and ideas The current educational climate is subject to global influences and the effects of conservative hyper nationalist politics and neoliberal economic rationalising in local settings that are creating new formations of race and racism While focused predominantly on Australia and southern world or settler colonial contexts the book aims to constructively contribute to broader emerging research and debates about race and education Through the adoption of a relational framing it draws the Australian context into the global conversation about race and racism in education in ways that challenge and test current understandings of the operation of race and racism in contemporary social and educational spaces Importantly it also pushes debates about race and racism in education and research to the foreground in Australia where such debates are typically dismissed or cursorily engaged The book will guide readers as they navigate issues of race in education research and practice and its chapters will serve as provocations designed to assist in critically understanding this challenging field It reaches beyond education scholarship as concerns to do with race remain intertwined with wider social justice issues such as access to housing health social economic mobility and political representation *Scholars of Tort Law* James Goudkamp,Donal Nolan,2019-10-03 The publication of Scholars of Tort Law marks the beginning of a long overdue rebalancing of private law scholarship Instead of concentrating on judicial decisions and academic commentary only for what that commentary says

about judicial decisions the book explores the contributions of scholars of tort law in their own right The work of a selection of leading scholars of tort law from across the common law world ranging from Thomas Cooley 1824 1898 to Patrick Atiyah 1931 2018 is addressed by eminent current scholars in the field The focus of the contributions is on the nature of the work produced by each of the scholars in question important influences on their work and the influence which that work in turn had on thinking about tort law The process of subjecting tort law scholarship to sustained analysis provides new insights into the intellectual development of tort law and reveals the important role played by scholars in that development By focusing on the work of influential tort scholars the book serves to emphasise the importance of legal scholarship to the development of the common law more generally

**The Turtle and the Caduceus** Professor David Brewster AM, 2010-01-11 The Turtle and the Caduceus are metaphors for the impact of Western medicine the Caduceus upon a traditional Pacific island culture the Turtle through the history of a school which started training native medical practitioners 125 years ago David Brewster the former Dean of Fiji School of Medicine tells the fascinating tale of how a devastating measles epidemic and pro indigenous benign colonialism led the foundation of this unique school Then Rockefeller philanthropy helped to transform it into a regional institution with an excellent reputation However its evolution into a modern university medical school was hampered by local politics and internal dissensions related to ethnic strife between the indigenous and Indian populations of Fiji which also resulted in four military coups with economic stagnation and migration of medical graduates This cautionary tale has important lessons for the relatively neglected disciplines of Pacific island history and medicine
