**Historical Dictionary of the Jacksonian Era and Manifest Destiny** Mark R. Cheatham, Terry Corps, 2016-12-13

The Jacksonian period under review in this dictionary served as a transition period for the United States The growing pains of

the republic's infancy during which time Americans learned that their nation would survive transitions of political power gave way to the uncertainty of adolescence. While the United States did not win its second war, the War of 1812, with its mother country, it reaffirmed its independence and experienced significant maturation in many areas following the conflict's end in 1815. As the second generation of leaders took charge in the 1820s, the United States experienced the challenges of adulthood. The height of those adult years from 1829 to 1849 is the focus of the *Historical Dictionary of the Jacksonian Era and Manifest Destiny*. This second edition of *Historical Dictionary of the Jacksonian Era and Manifest Destiny* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 200 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about this era in American history.

**The Southern Colonial Backcountry** David Colin Crass, 1998. This book brings a variety of fresh perspectives to bear on the diverse people and settlements of the eighteenth and early nineteenth century southern backcountry. Reflecting the growth of interdisciplinary studies in addressing the backcountry, the volume specifically points to the use of history, archaeology, geography, and material culture studies in examining communities on the southern frontier. Through a series of case studies and overviews, the contributors use cross-disciplinary analysis to look at community formation and maintenance in the backcountry areas of Virginia, North Carolina, South Carolina, and Tennessee. These essays demonstrate how various combinations of research strategies, conceptual frameworks, and data can afford a new look at a geographical area and its settlement. The contributors offer views on the evolution of backcountry communities by addressing such topics as migration, kinship, public institutions, transportation, and communications networks, land markets, and real estate claims, and the role of agricultural development in the emergence of a regional economy. In their discussions of individuals in the backcountry, they also explore the multiracial and multiethnic character of southern frontier society. Yielding new insights unlikely to emerge under a single disciplinary analysis, *The Southern Colonial Backcountry* is a unique volume that highlights the need for interdisciplinary approaches to the backcountry while identifying common research problems in the field. The Editors: David Colin Crass is the archaeological services unit manager at the Historic Preservation Division, Georgia Department of Natural Resources. Steven D. Smith is the head of the Cultural Resources Consulting Division of the South Carolina Institute of Archaeology and Anthropology. Martha A. Zierden is curator of historical archaeology at The Charleston Museum. Richard D. Brooks is the administrative manager of the Savannah River Archeological Research Program, South Carolina Institute of Archaeology and Anthropology. The Contributors: Monica L.
