Select Proceedings of the European Society of International Law, Volume 3, 2010 James Crawford,Sarah

Nouwen,2012-01-09 This book continues the series *Select Proceedings of the European Society of International Law* containing the proceedings of the Fourth Biennial Conference organised by ESIL and the University of Cambridge in 2010 The title of the conference was International Law 1989 2010 A Performance Appraisal The highlights selected for publication in this volume cover a wide spectrum of topics in international law *The Law and Policy of Biofuels* Yves Le

Bouthillier,Annette Cowie,Paul Martin,Heather McLeod-Kilmurray,2016-05-27 In the last twenty years the biofuels industry has developed rapidly in many regions of the world This timely book provides an in depth and critical study of the law and policies in many of the key biofuels producing countries such as Brazil China and the US as well as the EU and a number of other countries where this industry is quickly developing Drawing on a range of disciplines the contributors examine the roles of the public and private sectors in the governance of biofuels They discuss topics such as sustainability and biofuels and provide a critical review of regulatory regimes for biofuels They conclude by proposing recommendations for more effective and efficient biofuel policies Academics working in the area of renewable energy and students in environmental law will find this book to be of interest It will also be of use to policy makers around the world looking to learn from various existing regimes Contributors G Berndes M Brand o A Cowie A Cowie K S Dahmann J De Beer O Englund L B Fowler A Genest L Guo M H Labrie Y Le Bouthillier E Le Gal O J Lim Tung W E Mabee F Maes L D Malo M Mansoor P Martin H Mcleod Kilmurray M J F Montefrio B E Olsen R O Owino P Pereira De Andrade M Powers A R nne P M Smith T Smith S Soimakallio I Stupak V M Tafur A R Taylor **The Handbook of Globalisation, Third Edition** Jonathan Michie,2019 The

past 30 years are often depicted as an era of globalisation and even more so with the recent rise of global giants such as Google and Amazon This updated and revised edition of *The Handbook of Globalisation* offers novel insights into the rapid changes our world is facing and how best we can handle them **Global Food Security Governance** Jessica

Duncan,2015-03-24 In 2007 8 world food prices spiked and global economic crisis set in leaving hundreds of millions of people unable to access adequate food The international reaction was swift In a bid for leadership the 123 member countries of the United Nations Committee on World Food Security CFS adopted a series of reforms with the aim of becoming the foremost international inclusive and intergovernmental platform for food security Central to the reform was the inclusion of participants including civil society and the private sector across all activities of the Committee Drawing on data collected from policy documents interviews and participant observation this book examines the re organization and functioning of a UN Committee that is coming to be known as a best practice in global governance Framed by key challenges that plague global governance the impact and implication of increased civil society engagement are examined by tracing policy

negotiations within the CFS in particular policy roundtables on smallholder sensitive investment and food price volatility and negotiations on the Voluntary Guidelines on the Responsible Governance of Tenure of Land Fisheries and Forests in the Context of National Food Security and the Global Strategic Framework for Food Security and Nutrition The author shows that through their participation in the Committee civil society actors are influencing policy outcomes Yet analysis also reveals that the CFS is being undermined by other actors seeking to gain and maintain influence at the global level By way of this analysis this book provides empirically informed insights into increased participation in global governance processes

Climate Change and the Law Erkki J. Hollo, Kati Kulovesi, Michael Mehling, 2012-12-04 Climate Change and the Law is the first scholarly effort to systematically address doctrinal issues related to climate law as an emergent legal discipline It assembles some of the most recognized experts in the field to identify relevant trends and common themes from a variety of geographic and professional perspectives In a remarkably short time span climate change has become deeply embedded in important areas of the law As a global challenge calling for collective action climate change has elicited substantial rulemaking at the international plane percolating through the broader legal system to the regional national and local levels More than other areas of law the normative and practical framework dedicated to climate change has embraced new instruments and softened traditional boundaries between formal and informal public and private substantive and procedural so ubiquitous is the reach of relevant rules nowadays that scholars routinely devote attention to the intersection of climate change and more established fields of legal study such as international trade law Climate Change and the Law explores the rich diversity of international regional national sub national and transnational legal responses to climate change Is climate law emerging as a new legal discipline If so what shared objectives and concepts define it How does climate law relate to other areas of law Such questions lie at the heart of this new book whose thirty chapters cover doctrinal questions as well as a range of thematic and regional case studies As Christiana Figueres Executive Secretary of the United Nations Framework Convention on Climate Change UNFCCC states in her preface these chapters collectively provide a review of the emergence of a new discipline its core principles and legal techniques and its relationship and potential interaction with other disciplines

Local Engagement with International Economic Law and Human Rights Ljiljana Biukovic, Pitman B. Potter, 2017-05-26 Providing an analysis of global regulation and the impact of international organizations on domestic laws this collection grew out of a central objective to explore methods of domestic engagement with international trade and human rights norms and the inherent difficulties in establishing balanced links between these two international law regimes The common thread of the papers in this collection is a focus on the application of socio legal normative paradigms in building knowledge and policy support for coordinating local performance with international trade and human rights

standards in ways that are mutually sustaining **International Forest Policies in Indonesia: International Influences, Power Changes and Domestic Responses in REDD+, One Map and Forest Certification Politics** Agung Wibowo, 2016-01-07 The political contention that considers forests to be mere economic assets to achieve state welfare has slowly changed into a more conservative view since the Ninth World Forestry Congress in Mexico in 1985 rightly acknowledged that there has been severe tropical forest destruction and environmental deterioration around the globe

pt. 1. I. Colonialism ; II. Constitutional government ; III. The rise of democracy ; IV. The rise of nationality ; pt. 2. V. The anti-slavery struggle Alexander Johnston, James Albert Woodburn, 1927 **An Emergent European Executive Order** Jarle Trondal, 2010-02-25 This book poses two pertinent questions First if a European executive order is emerging how can we empirically see it Second if a European executive order is emerging how can we explain everyday decision making processes within it The goal of this book is two fold First it identifies key institutional components of an emergent European executive order The nucleus of this order is the European Commission The Commission however is increasingly supplemented by a mushrooming parallel administration of EU level agencies and EU committees This book provides fresh empirical survey and interview data on the everyday decision making behaviour role perceptions and identities among European civil servants who participate within these institutions Secondly this book claims and empirically substantiates that an emergent European executive order is a compound executive order balancing a limited set of key decision making dynamics One message of this book is that an emergent European executive order consists of a compound set of supranational departmental epistemic and intergovernmental decision making dynamics Arguably a compound European executive order transforms the inherent Westphalian order to the extent that intergovernmentalism is transcended and supplemented by a multidimensional mix of supranational departmental and or epistemic dynamics This book also theoretically explores conditions under which these decision making dynamics gain prevalence It is argued that the decision making dynamics emerging within an emergent European executive order are conditioned by the formal organisation of its composite parts and by the patterns of social interaction that emerge among its civil servants Political processes and political systems can neither be adequately understood nor explained without including the organisational dimension of executive orders **Japan's Environmental**

Politics and Governance Yasuo Takao, 2016-11-03 Environmental issues stretch across scales of geographic space and require action at multiple levels of jurisdiction including the individual level community level national level and global level Much of the scholarly work surrounding new approaches to environmental governance tends to overlook the role of sub national governments but this study examines the potential of sub national participation to make policy choices which are congruent with global strategies and national mandates This book investigates the emerging actors and new channels of Japan s environmental governance which has been taking shape within an increasingly globalized international system By analysing this important new phenomenon it sheds light on the changing nature of Japan s environmental policy and politics

and shows how the links between global strategies national mandates and local action serve as an influential factor in Japan's changing structures of environmental governance Further it demonstrates that decision making competencies are shared between actors operating at different levels and in new spheres of authority resulting from collaboration between state and non state actors It highlights a number of the problems challenges and critiques of the actors in environmental governance as well as raising new empirical and theoretical puzzles for the future study of governance over environmental and global issues Finally it concludes that changes in the tiers and new spheres of authority are leading the nation towards an environmentally stable future positioned within socio economic and political constraints Demonstrating that bridging policy gaps between local action national policy and global strategies is potentially a way of reinventing environmental policy this book will be of interest to students and scholars of Environmental Studies Environmental Politics and Japanese Politics

The Making of the International Solar Alliance Vyoma Jha, 2023-11-07 This book is the first empirical account on the making of the International Solar Alliance ISA Announced jointly by India and France on the first day of the Paris climate talks in 2015 the ISA was conceived as a coalition of solar rich countries located between the Tropic of Cancer and the Tropic of Capricorn for optimal absorption of the sun's rays Crucially these solar rich countries are developing countries that witness almost three hundred sunny days in a year but face major gaps in the deployment of solar energy In less than two years the ISA led by India and backed primarily by developing countries became a legal entity With no perceivable competitive advantage in solar manufacturing or technologies what explains India's relative success in bringing together countries to form a new international organization focused on solar energy Why did India insist on a treaty structure for the ISA What are the transaction costs of bringing the solar rich countries vis vis the solar poor countries on board What was the role of France in the treaty making process Responding to these questions the book draws on the political economy approach to analyse the motivations for India to steer a new treaty based international organization It presents the empirical evidence and arguments using three frames process politics and players Ultimately the book illustrates a new kind of Indian economic diplomacy making the ISA the first deliberate instrument of India's foreign policy on climate change and energy

Global Environmental Constitutionalism in the Anthropocene Louis J Kotzé, 2016-09-22 There is persuasive evidence suggesting we are on the brink of human induced ecological disaster that could change life on Earth as we know it There is also a general consensus among scientists about the pace and extent of global ecological decay including a realisation that humans are central to causing the global socio ecological crisis This new epoch has been called the Anthropocene Considering the many benefits that constitutional environmental protection holds out in domestic legal orders it is likely that a constitutionalised form of global environmental law and governance would be better able to counter the myriad exigencies of the Anthropocene This book seeks to answer this central question from the perspective of the Anthropocene what is environmental constitutionalism and how could it be extrapolated to formulate a global framework In answering this question

this book offers the first systematic conceptual framework for global environmental constitutionalism in the epoch of the Anthropocene

OECD Regulatory Policy Outlook 2021 OECD,2021-10-06 The COVID 19 pandemic has highlighted the crucial role regulation plays in the economy and society but has also exposed gaps in domestic and international rule making that have cost lives and money The 2021 Regulatory Policy Outlook the third in the series maps country efforts to improve regulatory quality in line with the 2012 OECD Recommendation on Regulatory Policy and Governance and shares good regulatory practices that can help close the gaps

Global South to the Rescue Paul Amar,2014-02-25 This book provides the first comprehensive analysis of an epochal shift in global order the fact that global south countries have taken up leadership roles in peacekeeping missions humanitarian interventions and transnational military industries Brazil has taken charge of the UN military mission in Haiti Nigeria has deployed peacekeeping troops throughout West Africa Indonesians have assumed crucial roles in UN Afghanistan operations Fijians South Africans and Chileans have become essential actors in global mercenary firms Venezuela and its Bolivarian allies have established a framework for revolutionary humanitarian interventions and Turkey India Kenya and Egypt are asserting themselves in bold new ways on the global stage In this context this collection sheds critical light on intersections between imperialism and humanitarianism between neoliberal globalization and rescue industry transnationalism and between patterns of geopolitical hegemony and trajectories of peacekeeping internationalism These case studies are grouped into three clusters I Globalizing Peacekeeper Identities II Assertive Regional Internationalisms and III Emergent Alternative Paradigms Together these articulate a new research agenda and offer significant contributions to fields of global studies transnational gender and race studies critical security studies and peace studies comparative politics police and military sociology Third World diplomatic history and international relations This book was published as a special issue of *Globalizations*
