Governance Of Britain 1977 C 1976:

The British Labour Government and the 1976 IMF Crisis M. Harmon,1997-11-05 The British Labour Government and the 1976 IMF Crisis examines the external pressures vis vis British economic policy that culminated in the 1976 UK IMF crisis The postwar development of IMF loan conditionality is reviewed as well as the growing incompatibility after 1974 between the Government s domestic political imperatives and Britain s external economic constraints that led to the crisis More generally the case study demonstrates the coercive and constraining nature of international cooperation in contemporary international relations The Statesman's Year-Book 1979-80 J. Paxton,2016-12-23 The classic reference work that provides annually updated information on the countries of the world **British Sources of Information** P. Jackson,2003-09-02 This comprehensive and versatile reference source will be a most important tool for anyone wishing to seek out information on virtually any aspect of British affairs life and culture The resources of a detailed bibliography directory and journals listing are combined in this single volume forming a unique guide to a multitude of diverse topics British politics government society literature thought arts economics history and geography Academic subjects as taught in British colleges and universities are covered with extensive reading lists of books and journals and sources of information for each discipline making this an invaluable manual The Cambridge Historical Encyclopedia of Great Britain and Ireland Christopher Haigh,1990-08-31 The history of Britain and Ireland is traditionally presented as a succession of dramatic changes but in this reference work the 60 contributors under the editorship of Christopher Haigh have emphasized patterns of continuity instead including cultural social political and economic themes 300 illustrations **The Development of Corporate Governance in Japan and Britain** Etsuo Abe,2017-11-28 The topic of corporate governance attracts the interest of commentators policy makers and academics due to its focus on major differences between national business systems and their performance Yet many works engage in generalizations and fail to appreciate the realities and circumstances of its long term evolution Comparative study is used in this book to analyse national legal cultural and industry specific contexts and the broad range of key factors contributing to the emergence of business institutions Historical insight into the origins of corporate governance systems and the impact of institutional legacy is used to unravel development pathways in Japan and Britain The book is the result of genuine international cooperation between established Japanese and British business historians and management academics The Statesman's Year-Book 1982-83 J. Paxton,2016-12-15 The classic reference work that provides annually updated information on the countries of the world **The Statesman's Year-Book 1978-79** J. Paxton,2016-12-26 The classic reference work that provides annually updated information on the countries of the world The Reorganisation of British Local Government John Dearlove,1979-09-20 This volume was first published in 1979 just a few years after the Local Government Act of 1972 redrew the map of British local government Local authorities were also encouraged to change their organization and methods of work anxiety was expressed about finance

councillor calibre and the credibility of the whole system itself and neighbourhood councils and public participation in planning were introduced John Dearlove's aim is to make sense of these changes and the discussion they generated He does this by showing that both the official case for reorganization and the academic discussion of it have hindered their own understanding by uncritically accepting superficial traditional wisdoms which fail to reveal the concealed ideological positions behind reorganization Thus he aims to develop a truly political perspective on reorganisation which is rounded out and given greater depth by the insertion at appropriate points of comparative material drawn from American experience and studies

State Interventions and Urban Communities in Britain, 1968-79 Peter Shapely, 2017-08-16 Focusing on a series of policy initiatives from the late 1960s through to the end of the 1970s this book looks at how successive governments tried to address growing concerns about urban deprivation across Britain It provides unique insights into policy and governance and into the socio economic and cultural causes and consequences of poverty Starting with the impact of redevelopment policies immigration and the rise of the inner city this book examines the pressures and challenges that explain the development of policy by successive Labour and Conservative governments It looks at the effectiveness and limits of different community development approaches and at the inadequacies of policy in tackling urban deprivation In doing so the book highlights the restricted impact of pilot projects and reform of public services in resolving deprivation as well as the broader limits of social planning and state welfare Crucially it also plots the shift in policy from an emphasis on achieving statutory service efficiencies and rolling out social development programmes towards an ever greater stress on regeneration and support for private capital as the solution to transforming the inner city *Current Catalog* National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70
