Governing the Island of Montreal Andrew Sancton, 2021-01-08 Located at the junction of the St Lawrence and Ottawa rivers Montreal Island is the main contact point between French and English Canadians Prior to Quebec's Quiet Revolution of the 1960s local governments in Montreal both reflected and perpetuated the mutual isolation of French and English Residential concentration in autonomous suburbs together with self contained networks of schools and social services enabled English speaking Montrealers to control the city's economy and to conduct their community's affairs with little regard for the French speaking majority The modernization of the Quebec state in the 1960s dramatically challenged this arrangement The author demonstrates how the English speaking politicians in cooperation with certain French speaking allies have succeeded in preventing the wholesale adoption of ambitious schemes for metropolitan reorganization He describes the workings of a society divided by language and ethnicity where the pervasiveness of the politics of language impedes all plans for comprehensive metropolitan reform This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985

Governing Canada's City-regions Andrew Sancton, Institute for Research on Public Policy, 1994

*Leningrad* Blair A. Ruble, 2023-11-10 Throughout much of this century cities around the world have sought to gain control over their urban destinies through concerted government action Nowhere has this process of state intervention gone further than in the Soviet Union This volume explores the ways in which local and regional

political economic and cultural leaders in Leningrad determine the physical and socioeconomic contours of their city and region within such a centralized economic and political environment The author examines four major policy initiatives that have emerged in Leningrad since the 1950s physical planning innovations integrated scientific production associations vocational education reform and socioeconomic planning and that have been anchored in attempts to plan and manage metropolitan Leningrad Each initiative illuminates the bureaucratic and political strategies employed to obtain economic objectives as well as the bureaucratic patterns which distinguish market and non market experiences The boundaries for autonomous action by local Soviet politicians planners and managers emerge through this inquiry This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990

**Governing Urban Regions Through Collaboration** Joël Thibert, 2016-04-22 With the demise of the Old Regionalist project of achieving good regional governance through amalgamation voluntary collaboration has become the modus operandi of a large number of North American metropolitan regions Although many researchers have become interested in regional collaboration and its determinants few have specifically studied its outcomes This book contributes to filling this gap by critically re evaluating the fundamental premise of the New Regionalism which is that regional problems can be solved without regional higher government In particular this research asks to what extent does regional collaboration have a significant independent influence on the determinants of regional resilience Using a comparative Canada U S mixed method approach with detailed case studies of the San Francisco Bay Area the Greater Montreal and trans national Niagara Buffalo regions the book examines the direct and indirect impacts of inter local collaboration on policy and policy outcomes at the regional and State Provincial levels The book research concentrates on the effects of bottom up state mandated and functional collaboration and the moderating role of regional awareness higher governmental initiative and civic capital on three outcomes environmental preservation socio economic integration and economic competitiveness In short the book seeks to highlight those conditions that favor collaboration and might help avoid the collaborative trap of collaboration for its own sake More specifically this research concentrates on the effect of bottom up state mandated and functional collaboration the moderating role of regional awareness governmental initiative and civic capital on environmental preservation socio economic integration and economic competitiveness In short the book seeks to understand whether and how urban regional collaboration contributes to regional resilience

**Long Road to Reform** Henry Milner, 1986-09-01 The Long Road to Reform analyses attempts to change the sectarian nature of schooling in Quebec focusing on the fate of the

radical proposals advanced by the Parti qu b cois in their White Paper of June 1982 The then minister of education Camille Laurin proposed to reform the existing system of confessional school boards with its separate networks of schools for Catholics and Protestants replacing it with school boards divided along regional lines Under this plan individual schools would have had considerable organizational autonomy through councils composed of parent and teacher representatives Widespread opposition to this proposal led to its eventual modification and to the substitution of a much scaled down version of these reforms Bill 3 which was declared unconstitutional by the Superior Court of Quebec in May 1985 In reviewing this effort at reform Henry Milner describes the political and historical context in which the Quebec educational system developed and show how existing forces prevented its modification Milner shows that when challenged vested interests were still capable of erecting formidable obstacles to change and that churches were not the only institutions committed maintaining the status quo His study not only examines why this attempt to restructure public education in Quebec failed but also provides a fascinating picture of Quebec s turbulent and often contradictory political evolution during this period

Montreal After Dark Matthieu Caron, 2025-06-13 Sex and jazz liquor and gambling Montreal in the early twentieth century was a city that offered an exceptional nighttime scene in North America By mid century that scene came under scrutiny and Montreal's influential mayor Jean Drapeau would be elected for the first time on a reformist platform that promised to end corruption Over more than three decades Drapeau would endeavour to transform Montreal into a world class global city by regulating its nightlife Montreal After Dark chronicles the spaces where nighttime regulations were enforced and contested City authorities understood the night as enabling disorder and they reorganized policing and crafted bylaws to gain control over it Police and politicians mutually reinforced each other's drive to morally cleanse the urban landscape especially for international events like Expo 67 and the 1976 Olympics But in an era of social unrest Drapeau's administration also found itself responding to the protective services discontent The political culture of the city was quickly transformed following terrifying nights without their services Matthieu Caron shows how in an effort to incorporate the night into the expansionary tendencies of consumer capitalism municipal authorities took sides in a debate over who had the right to public space at night what constituted acceptable behaviour or expression whose sexual activity sustained the social order and whose threatened to destroy it In terms that are strikingly familiar today Montreal After Dark elucidates how the desires of politicians would come to reorganize how consumption and leisure labour and dissent noise sex and art were lived in Montreal after the sun went down

**The Practice of Language Rights in Canada** C. Michael MacMillan,1998-01-01 On what grounds should language rights be accorded in Canada and to whom This is the central question that is addressed in C Michael MacMillan s book The Practice of Language Rights in Canada The issue of language rights in Canada is one that is highly debated and discussed partly because the basic underlying principles have been a neglected dimension in the debate MacMillan examines the normative basis of language rights in Canadian public policy and public opinion He argues that language rights policy should be founded upon the theoretical literature of human rights Drawing on the philosophy behind human rights the arguments for recognizing a right to language are considered as well as the matter of whether such rights possess the essential features of established rights Another model that is examined is the idea that rights are a reflection of the established values attitudes and practices of society This analysis reveals that there is a significant gap between what a political theory of language rights would endorse and what garners support in public opinion MacMillan also scrutinizes the federal and provincial contexts in the development of a language rights framework From these explorations a case is developed for a recognition of language rights that is consistent with the logic of human rights and that corresponds roughly with developing Canadian practice The Practice of Language Rights in Canada is a unique contribution to the current literature not only because it conceives of language rights as a human right but also because it frames the whole debate about language rights in Canada as a question of values and entitlements

**Honorary Protestants** David Fraser,The Osgoode Society,2015-11-26 When the Constitution Act of 1867 was enacted section 93 guaranteed certain educational rights to Catholics and Protestants in Quebec but not to any others Over the course of the next century the Jewish community in Montreal carved out an often tenuous arrangement for public schooling as honorary Protestants based on complex negotiations with the Protestant and Catholic school boards the provincial

government and individual municipalities In the face of the constitution's exclusionary language all parties gave their compromise a legal form which was frankly unconstitutional but unavoidable if Jewish children were to have access to public schools Bargaining in the shadow of the law they made their own constitution long before the formal constitutional amendment of 1997 finally put an end to the issue In *Honorary Protestants* David Fraser presents the first legal history of the Jewish school question in Montreal Based on extensive archival research it highlights the complex evolution of concepts of rights citizenship and identity negotiated outside the strict legal boundaries of the constitution
