## **Governing Australia:**

*Governing Australia* Mitchell Dean, Barry Hindess, 1998-06-22 Inspired by Foucault's discussion of governmentality this book makes a major contribution to our understanding of government. The book is interdisciplinary in approach and combines theoretical discussion with empirical focus. It includes a substantial introduction by the editors and contains work critiquing the central notion of governmentality. A range of topics are discussed including regulation of the unemployed and people with HIV/AIDS, sexual harassment in the military, the corporatisation of education, new contractualism and governing personality. While their topics are varied, the contributors explore a range of shared concerns including notions of problematisation, expert knowledge, rationality, freedom and autonomy, giving the volume focus and rigour. This book will be essential reading in political science, sociology, law, philosophy, education and economics.

**Governing Australia** Ruth Atkins, 1980 Elections, constitutions, parliaments, governments, judiciary.

**Governing Rural Development** Lynda Cheshire, 2016-04-22 In recent decades the responsibility for initiating regeneration programmes has been placed firmly in the hands of rural communities, with the rationale being that local people are best placed to know their own problems and consequently to develop their own solutions. Despite the popularity of this approach, the self-help approach has its own problems and can be seen as an attempt by governments to reduce public spending. This book provides a critical account of the discourses and practices of self-help in contemporary rural development policies of Australia and other western nations. Although it examines the problems of the self-help approach, it moves beyond a straightforward exposition of the impediments to self-help. Instead, taking a Foucauldian governmentality perspective, it puts forward a theoretical analysis of the self-help concept, assessing it as a means of governing rural development in an advanced liberal manner. It argues that self-help should not be regarded as either the empowerment or the abandonment of rural citizens by a shrinking state, but rather the application of new ways of thinking about and acting upon rural development.

**Community and Local Governance in Australia** Paul Smyth, Tim Reddel, Andrew Jones, 2005 This book examines the resurgence in Australia of locality-based social policy concerned with the spatial dimensions of disadvantage after the political failures of the market-oriented approach to regional reform. The book proposes that these trends are leading to a new post-competition policy regime in Australia that mirrors global policy trends.

**Governing Societies: Political Perspectives On Domestic And International Rule** Dean, Mitchell, 2007-06-01 What structures of power are involved in governing societies and how are they connected? How is the liberal idea of governing through freedom linked to the increasing control of marginalised populations? Have we reached the end of history in which governing largely concerns self-governing individuals, networks and communities? Should we dispense with the container view of society and contemplate the death of the social? Today many people in academia, politics and business question the idea of being able to govern society. The nation-state and sovereign government are displaced by globalization and individualization. Mitchell Dean focuses on governing societies as a distinctive project that continues to define political life today. The book

offers a critical analysis of contemporary liberal approaches to governing societies both in domestic and international affairs. **Governing Societies** provides an overview of current perspectives and theories and examines recent transformations in techniques and rationalities of rule. It presents a new argument for the importance and transformation of sovereignty and powers of life and death and how they are integral to governing liberal democratic societies. The book is key reading for undergraduate and postgraduate students of sociology and politics as well as researchers and academics.

**Agriculture and Resilience in Australia's North** Keith Noble, Tania Dennis, Sarah Larkins, 2019-08-05 This book examines the mechanisms and strategies farmers in North Australia adopt to manage the setbacks and challenges they face. This social research is based on farmers' experiences but also draws on the author's own experience after his tropical fruit farm was destroyed by two Category 5 cyclones in five years. Through historical analysis, the book compares historic and contemporary aspirations for northern development and discusses the influence of the built environment on individuals as well as access to health and other social services. Exploring the implications of individual resilience strategies for policy development within the broader context of northern development and evolving environmental governance, the book also highlights the fact that this is occurring in a new geological epoch, the Anthropocene. The book will provide a unique perspective and understanding to government, individuals, and industries interested in northern Australia and its relationship to the world.

**Handbook of Globalization, Governance, and Public Administration** Ali Farazmand, Jack Pinkowski, 2006-07-25 Globalization transcends borders and cultures as it develops both from the natural flow of information and communication technologies and as a directed and driven quest for global hegemony by self-serving corporations and world political heavyweights. It bears a multifaceted web of influence that manifests in inequalities in growth, prosperity, and [Australia Business and Investment Opportunities Yearbook Volume 1 Practical Information, Opportunities, Contacts](#) IBP, Inc., 2015-09-14 Australia Business and Investment Opportunities Yearbook Volume 1 Strategic Information and Opportunities

[The Politics of Gender Equality](#) Carol Johnson, 2024-08-22 This open access book provides the first in-depth study of the development of federal gender equality politics and policy in Australia from the 1970s to the present day. Australia has a history of gender equality innovation, including granting women's suffrage long before equivalent countries. From the 1970s on, it became the first country to introduce a women's adviser, femocrats, feminist bureaucrats, and gender-responsive budgeting, but then fell behind, partly due to the influence of Anglosphere neoliberalism. However, the Albanese government has pledged to make Australia a world leader in gender equality again. The book situates Australia in an international context, assessing the useful though sometimes

salutary lessons which the Australian experience provides It engages with key literature including feminist political theory discursive framing analysis gendered public policy analysis LGBTIQ issues path dependency and gender and leadership It will interest academics undergraduate and postgraduate researchers public policy experts and practitioners and a broader readership interested in issues of gender equality The book makes innovative contributions to the study of the politics of gender equality policy addressing what a gender equality policy agenda could look like if the needs of women in all their intersectional social diversity were the driving force In doing so it addresses a range of issues that are impacting the future of women including an ongoing pandemic technology education and training agendas issues of sovereign capability securitisation climate change and the growth of campaigns that oppose so called gender ideology It explores how current government agendas such as the focus on wellbeing could be made even more gender inclusive Finally the book suggests that Australia as a multicultural but predominantly Western settler colonial society situated in the Asia Pacific has some potentially unique insights to offer in a world facing major geoeconomic and geopolitical change
