Governing Gambling:

Governing Gambling John Lyman Mason, Michael Nelson, 2001 In the early 1970s seven states had lotteries and one state had casinos Today some form of legal gambling exists in all but three states What accounts for this rapid growth in legal gambling in the United States John Lyman Mason and Michael Nelson tackle this complex question highlighting two factors to explain gambling's proliferation the decentralized nature of gambling regulation and policymaking and the tendency of states to respond to policy changes made by their neighbors As they appraise the politics behind gambling policy at the state tribal and federal levels the authors detail the influence of interest groups campaign contributions and public opinion in bringing about the current wave of gambling legalization Noting that changes in gambling policy often take place without a careful evaluation of costs and benefits Mason and Nelson offer a number of recommendations for improving decisionmaking and protecting the public interest

How the South Joined the Gambling Nation Michael Nelson, John Lyman Mason, 2007-09 A national map of legalized gambling from 1963 would show one state Nevada with casino gambling and no states with lotteries Today's map shows eleven commercial casino states most of them along the Mississippi River forty two states with state owned lotteries and racetrack betting slot machine parlors charitable bingo and Native American gambling halls flourishing throughout the nation For the past twenty years the South has wrestled with gambling issues In *How the South Joined the Gambling Nation* Michael Nelson and John Lyman Mason examine how modern southern state governments have decided whether to adopt or prohibit casinos and lotteries Nelson and Mason point out that although the South participated fully in past gambling eras it is the last region to join the modern movement embracing legalized gambling Despite the prevalence of wistful romantic images of gambling on southern riverboats the politically and religiously conservative ideology of the modern South makes it difficult for states to toss their chips into the pot The authors tell the story of the arrival or rejection of legalized gambling in seven southern states Mississippi Louisiana Tennessee South Carolina Georgia Arkansas and Alabama The authors suggest that some states chose to legalize gambling based on the examples of other nearby states as when Mississippi casinos spurred casino legalization in Louisiana and the Georgia lottery inspired lottery campaigns in neighboring South Carolina Alabama and Tennessee Also important was the influence of Democratic policy entrepreneurs such as Zell Miller in Georgia Don Siegelman in Alabama and Edwin Edwards in Louisiana who wanted to sell the idea of gambling in order to sell themselves to voters At the same time each state had its own idiosyncrasies such as certain provisions of their state constitutions weighing heavily as a factor Nelson and Mason show that the story of gambling's spread in the South exemplifies the process of state policy innovation In exploring how southern states have weighed the moral and economic risk of legalizing gambling especially the political controversies that surround these discussions Nelson and Mason employ a suspenseful fast paced narrative that echoes the oftentimes hurried decisions made by state legislators Although each of these seven states fought a unique battle over gambling taken together these case
