Metropolitan Toronto Albert Rose, 2023-11-10 *Governing Metropolitan Toronto A Social and Political Analysis 1953 1971* provides an in depth examination of Toronto's metropolitan governance lauded as a model of truly metropolitan government in North America Over nearly two decades Toronto restructured its local government twice adopting a two tier federation model to address the challenges of urbanization suburban expansion and regional cooperation This system integrating multiple jurisdictions under a central framework sought to resolve disparities in infrastructure housing and municipal services while accommodating the province's broader economic and environmental goals Albert Rose a scholar and civic participant contextualizes Metro Toronto within Canadian and global urban governance traditions offering insights into its achievements and the challenges posed by evolving social environmental and political dynamics Rose argues that Toronto's experience demonstrates how metropolitan governance must grow from addressing physical infrastructure to managing complex social issues such as housing and environmental quality While the provincial government provided oversight and enabled Metro's creation its involvement underscores the role of higher level authorities in urban governance The study situates Toronto's system alongside other Canadian and international models including Winnipeg's unitary approach and Minnesota's Metropolitan Council suggesting that Toronto's adaptable federation structure may be better suited for larger more complex urban regions Rose's work highlights the ongoing interplay between local autonomy and provincial guidance offering critical lessons for urban governance worldwide and serving as a valuable resource in understanding the transformative potential of metropolitan systems This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1972 *Megacities* Andre Sorensen, Junichiro Okata, 2010-11-18 For the first time in human history more than half the world's population is urban A fundamental aspect of this transformation has been the emergence of giant cities or megacities that present major new challenges This book examines how issues of megacity development urban form sustainability and unsustainability are conceived how governance processes are influenced by these ideas and how these processes have in turn influenced outcomes on the ground in some cases in transformative ways Through 15 in depth case studies by prominent researchers from around the world this book examines the major challenges facing megacities today The studies are organized around a

shared set of concerns and questions about issues of sustainability land development urban governance and urban form Some of the main questions addressed are What are the most pressing issues of sustainability and urban form in each megacity How are major issues of sustainability understood and framed by policymakers Is urban form considered a significant component of sustainability issues in public debates and public policy Who are the key actors framing urban sustainability challenges and shaping urban change How is unsustainability risk or disaster imagined and how are those concerns reflected in policy approaches What has been achieved so far and what challenges remain The publication of this book is a step toward answering these and other crucial questions *Governing Canada's City-regions* Andrew Sancton, Institute for Research on Public Policy, 1994

The Heart of Toronto Daniel Ross, 2022-04-01 From the 1950s to the 1970s downtown North America was reconfigured for the suburban age Municipal officials planned renewal schemes merchant groups lobbied for street improvements developers built bigger and taller Everywhere attention turned to the problems and possibilities at the commercial and civic heart of cities The Heart of Toronto follows one such example of reinvention downtown Yonge Street Efforts to keep pace with or even lead urban change included the street's conversion into a car free public space a clean up campaign targeting the sex industry and the construction of North America's largest urban shopping mall These revitalization projects were all connected to wider trends of postwar decentralization economic restructuring and cultural transformation Interweaving histories of development civic activism and corporate clout The Heart of Toronto widens our understanding of the actors and power dynamics involved in remaking downtown in Canada's largest city a process that is far from over

Big Daddy Timothy J. Colton, 1980-12-15 Frederick Gardiner's public life was rich and long from his initiation into politics as a Toronto schoolboy before the First World War through his involvement with the Ontario Conservative party and suburban politics in the 1930s and 1940s on through his years as first chairman of Metropolitan Toronto 1953-61 to the relinquishing of his last public office in 1979 This is a readable and perceptive biography of the exuberant and powerful politician who captured the public imagination of Toronto and created a legend around himself during his lifetime The book focuses mainly on Gardiner's experience as founding boss of Metropolitan Toronto This first metropolitan government in North America was in many ways his personal machine Gardiner made an indispensable contribution to its effectiveness and to its very survival He presided over an unprecedented boom in urban development and construction His public works projects included the first urban expressway in Canada the Gardiner Expressway Gardiner's political nickname Big Daddy fits him well He revelled in his reputation as a political bulldozer and was often described as the Canadian equivalent of Robert Moses the famous and feared coordinator of construction for New York City Gardiner was a man for the times an unusual person whose character seemed to match the requirements of a city bursting at its seams His lack of interest in public participation generated great controversy and left a lasting impression on Toronto's metropolitan government Readers concerned with politics and urban

government will learn much from Gardiner's experiences and conduct as he wrestled with his political surroundings and with urban policy problems such as planning housing and transportation. And this portrait of a dynamic and aggressive man who symbolized the Toronto of a generation ago will appeal to those who remember these years.

The Public Metropolis Frances Frisken, 2007. The Public Metropolis traces the evolution of Ontario government responses to rapid population growth and outward expansion in the Toronto city region over an eighty year period. Frisken rigorously describes the many institutions and policies that were put in place at different times to provide services of region wide importance and skilfully assesses the extent to which those institutions and policies managed to achieve objectives commonly identified with effective regional governance. Although the province acted sporadically and often reluctantly in the face of regional population growth and expansion, Frisken argues that its various interventions nonetheless contributed to the region's most noteworthy achievement: a core city that continued to thrive while many other North American cities were experiencing population economic and social decline. This perceptive and comprehensive examination of issues related to the evolution of city regions is critical reading not only for those teaching and researching in the field but also for city and regional planners, officials at all levels of government and urban historians. The research, writing and publication of this book has been supported by the Neptis Foundation.

Regent Park Redux Laura Johnson, Robert Johnson, 2017-05-12. Regent Park Redux evaluates one of the biggest experiments in public housing redevelopment from the tenant perspective. Built in the 1940s, Toronto's Regent Park has experienced common large scale public housing problems. Instead of simply tearing down old buildings and scattering inhabitants, the city's housing authority came up with a plan for radical transformation. In partnership with a private developer, the Toronto Community Housing Corporation organized a twenty year, billion dollar makeover. The reconstituted neighbourhood, one of the most diverse in the world, will offer a new mix of amenities and social services intended to reknit the urban fabric. Regent Park Redux, based on a ten year study of 52 households as they moved through stages of displacement and resettlement, examines the dreams and hopes residents have for their community and their future. Urban

planners and designers across the world in cities facing some of the same challenges as Toronto will want to pay attention to this story *Urban Housing Markets* Larry S. Bourne, John R. Hitchcock, 1978-12-15 The Conference on Urban Housing Markets sponsored by the Centre for Urban and Community Studies in October 1977 was the first major conference on housing to be held in Canada since the First Canadian Housing Conference sponsored by the Canadian Welfare Council in 1968 This volume is at once a record of the Conference and a review of important recent research on urban housing markets and related public policy issues The book captures the flavor of a lively debate between academics and policy analysts and the commentaries and discussion sections provide in non technical language a statement of some major questions confronting government policy on housing In addition to its use as a record of an important Canadian conference the book is a valuable collection of recent housing research The ten papers cover a wide variety of topics ranging from conceptual and methodological issues on the one hand to critiques of Canadian housing policies on the other They indicate the range of issues which must be taken into account in assessing housing policy Taken together with the discussion material which helps to focus attention on strategic issues in both Canada and the United States they provide a useful introduction to current debates over housing policy EPA-600/5 ,1974 **Carrying Capacity in Regional Environmental Management** ,1974
