Government, Politics and Power Andrew Parkin, John Summers, Dennis Woodward, 1979 *The Craft of Governing* R.A.W. Rhodes, 2020-08-02 Bargaining and puzzling power and thought dealing and agonising compromise and commitment These are two sides of political practitioners whether politician public servant or campaigner Understand the interplay and we can just sometimes make sense of the real world we seek to interpret Patrick Weller's observation comes from half a century of contemplating politics in action The question of how government works lies at the heart of political science and it has also been the career focus of this pioneer in the field The Craft of Governing offers a tribute to the contribution of Patrick Weller to Australian political science with chapters from leading political commentators including Michelle Grattan Peter Shergold Bob Jackson and James Walter Contributors consider the role of the prime minister approaches to studying executive government the continuing significance of senior public servants and the nature of leadership in public bureaucracies They also reflect on how insights from the study of domestic public policy can be applied to international organisations challenges faced by Westminster democracies and approaches to political biography The Craft of Governing is an invaluable resource for readers interested in approaches to studying politics and the development of political science as a discipline **Keywords in Australian Politics** Rodney Smith, Ariadne Vromen, Ian Cook, 2006-06-13 Publisher description

Reform in Policing Jill M. Bolen, 1997 Provides an important analysis of attempts to reform policing grounded in the experience of the Whitrod era in Queensland Bolen's analysis is based on detailed insider knowledge of the processes unparalleled in other studies of police reform This book offers a detailed and rich history of Queensland policing at the time but its relevance extends much beyond Queensland It is a valuable text for anyone interested in policing and organisational change **Consent of the People** David Kemp, 2022-10-18 Consent of the People Human Dignity through Freedom and Equality 1966 2022 explores how Australia's founding Enlightenment ideals were shaped into a unique national liberalism embodied in liberal democratic institutions political parties and shared values Despite intense partisan loyalties conservative and radical resistance and a politics of unequal power and influence inequality was addressed and personal freedom strengthened This final book in the landmark five volume Australian Liberalism series examines the place of liberal ideas in

governments from Harold Holt to Scott Morrison It shows how reform urgency led to the nation's greatest political crisis in 1975 how prime ministers Fraser and Hawke struggled to manage an economy dominated by powerful union business and global interests how during twenty four crucial years Hawke Keating and Howard led one of the nation's greatest reform eras and how social reform continued despite the leadership instability of the post Howard era David Kemp assesses political parties as the instruments of reform and the difficulties of achieving reform in the public interest highlighting the dangers of factionalism and loss of purpose He examines how an international revival of liberal thought and rising levels of education revolutionised Australian society and politics creating a moral and moralistic ruling class In a remarkable half century Australians strove with growing success to achieve their dreams

Political Choice Matters Geoffrey Evans, Nan Dirk de Graaf, 2013-03-28 *Political Choice Matters* investigates the extent to which class and religion influence party choice in contemporary democracies Rather than the commonly assumed process in which a weakening of social boundaries leads to declining social divisions in political preferences this book's primary message is that the supply of choices by parties influences the extent of such divisions hence political choice matters Combining overtime cross national data and multi level research designs the authors show how policy and programmatic positions adopted by parties provide voters with choice sets that accentuate or diminish the strength of political cleavages The book gives central place to the positions of political parties on left right economically redistributive and morally conservative versus social liberal dimensions Evidence on these positions is obtained primarily from the Comparative Manifesto Project with a chapter dedicated to elaborating and validating the various implementations of this uniquely valuable source of evidence on party positions The primary empirical focus includes case studies of 11 Western Southern and Central European societies as well as anglo democracies including Britain USA Canada and Australia These detailed analyses of election studies ranging in some cases from the post war period until the early part of the 21st century are augmented by a pooled cross national and overtime analysis of 15 Western democracies using a unique combined dataset of 188 national surveys The authors show that although there has been some overtime decline in the strength of association between social class and party choice this is far smaller than the amount of change in the relationship occurring as a result of party movements on questions of inequality and redistribution The strength of the religiosity cleavage is also influenced by changes in party positions on moral issues changes that can be understood as a strategic response to a process of secularization that has weakened the electoral viability of parties deriving support from appeals to religious values

Policy Analysis in Australia Brian Head, Kate Crowley, 2018-03-01 *Policy Analysis in Australia* offers a distinctly Australian interpretation of policy scholarship with eighteen chapters strongly reflecting the outstanding contributions of Australian scholars to the field of public policy It provides a coherent overview of the strengths and opportunities for policy analysis in Australia It recognises that government agencies are no longer regarded as the sole source of sound policy analysis and takes a broad view of policy analysis capacity both within institutions at all levels of

government and beyond government in the media political parties business and non government associations It provides a valuable contribution to Australian scholarship about policy analysis in academic professional teaching and learning contexts and is a key addition to research and teaching in comparative policy analysis and policy studies more generally

Protecting Canadian Democracy Canadian Centre for Management Development,2003 In recent years Canada s Senate Parliament s chamber of sober second thought has often been the subject of controversy and calls for reform Protecting Canadian Democracy examines the history role and evolution of the Senate places it in the context of other federal systems and contrasts its role with that of provincial governments Contributors analyse the Senate s use of its legislative powers comparing it with the House of Commons and assess the Senate s contribution to public policy development and review showing how the upper chamber functions as a forum within Parliament for the representation of Canada s diverse regional linguistic cultural and socio economic interests contending that the Senate should be improved by means that do not require formal amendments to the Constitution The authors identify possibilities for reform the institution within the current constitutional framework addressing the Senate s veto power its appointment process and its legislative independence A valuable appendix of charts and statistics on the composition and operation of the Senate is also provided Commerce and Coalitions Ronald Rogowski,2020-10-06 Why do countries differ so greatly in their patterns of political cleavage and coalition Extending some basic findings of economic theories of international trade Ronald Rogowski suggests a startling new answer Testing his hypothesis chiefly against the evidence of the last century and a half but extending it also to the ancient world and the sixteenth century he finds a surprising degree of confirmation and some intriguing exceptions **Opposition**

Vanishing Ashley Lavelle,2017-09-02 This book questions the common understanding of party political behaviour explaining some of the sharp differences in political behaviour through a focused case study drawing systematically on primary and archival research of the Australian Labor Party s political and policy directions during select periods in which it was out of office at the federal level from 1967 72 1975 83 and 1996 2001 Why is it that some Oppositions contest elections with an extensive array of detailed policies many of which contrast with the approach of the government at the time while others can be widely criticised as policy lazy and opportunistic seemingly capitulating to the government of the day Why do some Oppositions lurch to the right while others veer leftward Each of these periods was in its own way crucial in the party s history and each raises important questions about Opposition behaviour The book examines the factors that shaped the overall direction in which the party moved during its time in Opposition including whether it was oriented towards emphasising programmes traditionally associated with social democrats such as pensions unemployment support and investment in public health education infrastructure and publicly owned enterprises as well as policies aimed at reducing the exploitation of workers In each period of Opposition examined an argument is made as to why Labor moved in a particular direction and how this period compared to the other periods surveyed The book rounds off with analysis of the

generalisability of the conclusions drawn how relevant are they for understanding the behaviour of other parties elsewhere in the world Where are social democratic parties such as the ALP heading Is Opposition an institution in decline in the Western world
