Government Reinvented A Study Of Albertas Deficit Elimination Program:

A Government Reinvented Christopher J. Bruce, Ronald David Kneebone, Kenneth James McKenzie, 1997 This volume is the culmination of an objective in depth study of the aggressive attack on the Alberta deficit launched by Premier Ralph Klein's government in 1993 Klein's was the first Canadian province to introduce drastic measures to eliminate its deficit solely by means of expenditure cuts After only two years a 3.4 billion deficit had become a 958 million surplus A Government Reinvented answers the question How was this goal achieved so quickly The research needed to answer this question was distributed among nine experts in the fields of economics education and political science The resulting papers were presented and critiqued at a conference in Banff Alberta in November 1995 A Government Reinvented features the revised research papers with parallel commentaries by specialists in economics law and public administration The book examines not only the Klein government's specific cost cutting strategies but also general topics such as theories of government budgeting and bureaucracy institutional design and public policy and the delivery of government services **The Politics of**

Educational Reform in Alberta Alison Taylor, 2001-01-01 A case study of educational restructuring in Alberta during the Klein revolution the period of dramatic political and economic change introduced by Premier Ralph Klein's Conservative government of the 1990s *Alberta Premiers of the Twentieth Century* University of Regina. Canadian Plains Research Center, 2004 From the optimism associated with provincial status in 1905 through the trials of Depression and war the boom times of the post war period and the economic vagaries of the 1980s and the 1990s the twentieth century was a time of growth and hardship development and change for Alberta and its people And during the century twelve men from a variety of political parties and from very different backgrounds led the government of this province The names of some like William Aberhart Ernest Manning and Peter Lougheed are still household names while others like Arthur Sifton Herbert Greenfield and Richard Reid have been all but forgotten Yet each in his unique way for better or for worse helped to mould and steer the destiny of the province he governed These are their stories *Institutions, Politics and Fiscal Policy* Rolf R. Strauch, Jürgen von Hagen, 2012-12-06 Rolf R. Strauch and Jürgen von Hagen Center for European Integration Studies ZEI University of Bonn ZEI University of Bonn Indiana University and CEPR The large and persistent deficits rising levels of debt and growing levels of public spending observed in many DECO economies during the past 25 years have stimulated much theoretical and empirical research on the political economy of public finance Although a number of issues have been studied extensively certain areas are still at an exploratory stage and need further theorizing and thorough empirical research During the last two decades the theoretical debate on budgeting has been dominated by the controversy between partisan and institutionalist approaches Within the more political science oriented institutionalist literature a controversy exists between the distributive and the informational perspectives each setting forth a distinctive organizational rationale of parliaments with different fiscal implications The papers in this volume cover these different perspectives extend previous models and

test their empirical validity The papers were originally written for a conference on Institutions Politics and Fiscal Policy organized by the Center for European Integration Studies at the University of Bonn Germany in July 1998 The book is organized in three parts each focusing on a distinctive aspect The first part is dedicated to the partisan perspective The second part focuses on budget institutions The third part consists of three case studies of institutional reform of the budget process This book is directed to academics and practitioners alike

Uneasy Partnership Geoffrey Hale, 2018-01-25 In this new edition of *Uneasy Partnership* Geoffrey Hale examines the interdependent relationship between Canadian governments and businesses considering governments multiple roles in the economy and their implications for the business environment Hale provides an overview of the historical dimensions of Canada's political economy and relations between government and business Readers are invited to consider topics such as corporate power the implications of Canada's economic structure regional economic differences the cross cutting effects of globalization and the role of interest groups in political and policy processes In a thoughtful and well researched style Hale lays out how the partnership between business and government in Canada is an uneasy one and one whose capacity to adapt to ongoing change is essential in an uncertain world

State of Struggle Lois Harder, 2003-07-04 *State of Struggle* offers a unique perspective on Alberta's recent political history Viewed through the lens of feminist and anti feminist efforts to gain political legitimacy the book observes the consequences of Alberta's oil and gas economy and the province's peripheral location from the locus of Canadian political decision making on the effectiveness of feminist efforts to both challenge and contribute to provincial governance The book traces the dynamic interaction between the development of second wave feminist organizing and the shift from Alberta's peculiar variant of a welfare state to its neoliberal form Using archival data from feminist organizations and various provincial government departments as well as interviews with activists policy makers and politicians the book's chronologically organized chapters offer a series of rich tales illuminating the transformations within both the feminist movement and the Alberta state from the election of Lougheed's Conservatives through Ralph Klein's second term of office It is a kind of we laughed we cried drama composed of dialogues of the deaf strategic missteps organizational cunning and occasional policy change that is sure to leave readers shaking their heads in amusement disbelief or outrage

Laycock, Michael Howlett, 2007-01-01 This volume offers a comprehensive overview of the many ways in which the policy analysis movement has been conducted and to what effect in Canadian governments and for the first time in business associations labour unions universities and other non governmental organizations *Alberta's Daycare Controversy* Tom Langford, 2011 Since the late 1950s disputes over day care programs policies and funding have been a recurring feature of political life in the province of Alberta **Thinking Government** David Johnson, 2006-01-01 Thinking Government offers a one stop resource perfect for courses on Canadian public administration and governance Evert A Lindquist University of Victoria **Social Policy and Practice in Canada** Alvin Finkel, 2012-05-09 Social Policy and Practice in Canada A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism's attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted Social Policy and Practice in Canada A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty *Place and Replace* Adele Perry, Esyllt W. Jones, Leah Morton, 2013-06-01 Place and Replace is a collection of recent interdisciplinary research into Western Canada that calls attention to the multiple political social and cultural labours performed by the concept of place The book continues a long standing tradition of situating questions of place at the centre of analyses of Western Canada's cultures pasts and politics while making clear that place is never stable universal or static The essays here confirm the interests and priorities of Western Canadian scholarship that have emerged over the past forty years and remind us of the importance of Indigenous peoples dispossession and colonialism of migration race and ethnicity of gender and women's experiences of the impact of the natural and built environment and the impact of politics and the state Alberta Formed - Alberta Transformed Alberta 2005 Centennial History Society, 2006-04-18 Alberta Formed Alberta
