The Terrorist Conjunction Alfred G. Gerteiny, 2007-05-30 Missing from many contemporary analyses of the causes of terrorism is any mention of the role of U S foreign policy an examination of which is seen by some critics as inherently unpatriotic Even less attention is paid to the role of the Israeli Palestinian conflict Gerteiny who has lived in the Middle East and has studied the region for more than four decades does not shy away from such controversies In this book he discusses the seminal causes of contemporary transnational terrorism particularly the grievances inherent in the persistent Israeli Palestinian conflict Gerteiny examines state and anti state forms of terrorism and he carefully distinguishes between terrorism carried out in pursuit of national liberation by the Palestinians and the theologically driven jihadism that feeds on it He considers anti Western Islamism as being reactive to a U S Middle East policy inordinately influenced by the Zionist lobby He reflects on Muslim and Islamist world views and assesses the U S reaction to terrorism after 9 11 including the wars in Afghanistan and Iraq Israel s unchecked expansionism at the expense of Palestine and its suffocating grip over its population carried out under the cover of U S protection constitute ethnic cleansing in Gerteiny s view This and the ill conceived U S strategy in the Gulf region in Afghanistan and Iraq and the lack of communications with Syria and Iran are perceived by most Muslims as harbingers of an ongoing new crusade They constitute the main pernicious elements upon which the wider reaching vengeful Islamist theopolitical jihadism thrives ultimately threatening the spread of democracy the survival of Israel in the Middle East and peaceful coexistence with the Muslim world
