Grab Roots And Cadre In The Protest Movement:

The New NDP David McGrane, 2019-05-15 *The New NDP* is the definitive account of the evolution of the New Democratic Party's political marketing strategy in the early twenty first century. In 2011 the federal NDP achieved its greatest electoral success becoming the official opposition under Jack Layton's leadership. David McGrane argues that the key to the party's electoral success of 2011 lies in the moderation of its ideology and modernization of its campaign structures. Those changes brought the party closer to governing than ever before but ultimately not into power. McGrane then poses a difficult question: Was remaking the NDP message and revitalizing its campaign model the right choice after all, considering it fell to its perennial third party spot in 2015? *The New NDP* examines Canada's NDP at a pivotal time in its history and provides lessons for progressive parties on how to win elections in the age of the internet, big data and social media. **Special Relations**

Howard Malchow, 2011-02-18 A study of Anglo American cultural and countercultural exchange from the mid Fifties to the mid Seventies, *Special Relations* explores aspects of London modernism, the anti war movement, student rebellion, black power, the second wave feminist and gay liberation movements and transatlantic nostalgia. *The European Radical Left* Giorgos Charalambous, 2021-12-20 Is today's left really new? How has the European radical left evolved? Giorgos Charalambous answers these questions by looking at three moments of rapid political change: the late 1960s to late 1970s, the turn of the millennium and post 2008. He challenges the conventional understanding of a new left, drawing out continuities with earlier movements and parties. Charalambous examines the Long 68, symbolised by the May uprisings in France which saw the rise of new left forces and the widespread criticism by younger radical activists of traditional communist and socialist parties. He puts this side by side with the turn of the millennium when the Global Justice Movement rose to prominence and changed the face of the international left, and also the period after the financial crash of 2008 and the rise of anti austerity politics which initiated the most recent wave of new left parties such as Podemos in Spain and Syriza in Greece. With a unique two level perspective, Charalambous approaches the left through both social movements and party politics, looking at identities, rhetoric and organisation, and bringing a fresh new approach to radical history as well as assessing challenges for both activists and scholars.

Organizing Against Democracy Antonis A. Ellinas, 2020-01-30 *Organizing Against Democracy* investigates some of the most important challenges modern democracies face, filling a distinctive gap in the literature both empirically and theoretically. Ellinas examines the attempts of three of the most extreme European far right parties to establish roots in local societies and the responses of democratic actors. He offers a theory of local party development to analyze the many factors affecting the evolution of far right parties at the subnational level. Using extraordinarily rich data, the author examines the lives of local far right party organizations in Greece, Germany and Slovakia, studying thousands of party activities and interviewing dozens of party leaders and functionaries and antifascists. He goes on to explore how and why extreme parties succeed in some local settings while in others they fail. This book broadens our understanding of right wing extremism.

Human Security Courtney Hillebrecht, Tyler R. White, Patrice C. McMahon, 2013-11-07 The aim of this book is to analyse why and how states respond to human security both at home and abroad Although states still define security as the defense of territory from military attack increasingly security pertains to the protection of human beings from violence This violence can emerge from rebels drug traffickers terrorism and even environmental and demographic changes While previous literature in this field has provided rich empirical detail about human security crises it is generally quiet about how states respond to these crises State Responses to Human Security fills this lacuna by bringing in concepts from international security studies and focusing on states' perceptions of power and the changing nature of human security Instead of debating whether or not human security exists the authors in this volume agree that human security has been redefined to include policies associated with violence toward individuals and groups and draw on recent events in the Middle East China and Mexico to understand how and when human security issues prompt state responses and affect international relations The case studies analysed in this book suggest that states respond to human security threats differently but in both the domestic context and abroad power and perceptions matter greatly in shaping states' reactions to human security concerns This book will be of much interest to students of human security foreign policy international relations and security studies in general

Democratic Phoenix Pippa Norris, 2002-09-02 Conventional wisdom suggests that citizens in many countries have become disengaged from the traditional channels of political participation Commentators highlight warning signs including sagging electoral turnout rising anti party sentiment and the decay of civic organizations But are these concerns justified This book compares systematic evidence for electoral turnout party membership and civic activism in countries around the world and suggests good reasons to question assumptions of decline Not only is the obituary for older forms of political activism premature but new forms of civic engagement may have emerged in modern societies to supplement traditional modes The process of societal modernization and rising levels of human capital are primarily responsible although participation is also explained by the structure of the state the role of agencies and social inequalities Bulletin of the Atomic Scientists ,1969-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world The Nation ,2010 Bulletin of the Atomic Scientists ,1966-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

Woliver,1993 From Outrage to Action examines the rise and fall of grass roots interest groups through in depth analyses of four incidents that mobilized citizens around local injustices In one case a local judge declared a five year old sexual assault victim a particularly promiscuous young lady In another an innocent black man died in police custody In the third a man with a criminal record was charged with murdering a ten year old girl and in the last a judge commented during a juvenile sentencing that rape is a normal reaction to the way women dress Through in depth interviews with activists Laura Woliver examines these community actions studying the groups involved and linking her conclusions to larger questions of political power and the impact of

social movements Group successes and failures are explained through analysis of fluid social movements and the role of religion class gender and race Woliver found that activists unprepared for the ostracism and conflict resulting from their dissent retreated from public life while those who identified with alternative communities avoided self blame and maintained their political commitments She relates the community responses in these cases to those in the case of confessed mass murderer Jeffrey Dahmer and in the beating by Los Angeles police officers of Rodney King Her findings will make fascinating reading for those interested in the rise and fall of grass roots interest groups the nature of dissent and the reasons why people volunteer countless hours sometimes in the face of community opposition and isolation to dedicate themselves to a cause The four ad hoc interest groups studied are the Committee to Recall Judge Archie Simonson Madison the Coalition for Justice for Ernest Lacy Milwaukee Concerned Citizens for Children Grant County Wisconsin and Citizens Taking Action Madison
