Educational Progress NAEP known as the nation's report card has chronicled students' academic achievement in America for over a quarter of a century. It has been a valued source of information about students' performance, providing the best available trend data on the academic achievement of elementary, middle, and secondary school students in key subject areas. NAEP's prominence and the important need for stable and accurate measures of academic achievement call for evaluation of the program and an analysis of the extent to which its results are reasonable, valid, and informative to the public. This volume of papers considers the use and application of NAEP. It provides technical background to the recently published book *Grading the Nation's Report Card: Evaluating NAEP and Transforming the Assessment of Educational Progress* (NRC, 1999) with papers on four key topics: NAEP's assessment development, content validity, design, and use; and more broadly, the design of education indicator systems.

Encyclopedia of Educational Leadership and Administration Fenwick W. English, 2006-02-16 The SAGE Encyclopedia of Educational Leadership and Administration presents the most recent theories, research, terms, concepts, ideas, and histories on educational leadership and school administration as taught in preparation programs and practiced in schools and colleges today. With more than 600 entries written by more than 200 professors, graduate students, practitioners, and association officials, the two volumes of this encyclopedia represent the most comprehensive knowledge base of educational leadership and school administration that has as yet been compiled.

The Psychometrics of Standard Setting Mark Reckase, 2023-01-31 This book provides a unifying structure for the activities that fall under the process typically called standard setting on tests of proficiency. Standard setting refers to the methodology used to identify performance standards on tests of proficiency. The results from standard setting studies are critical for supporting the use of many types of tests. The process is frequently applied to educational psychological licensure, certification, and other types of tests and examination systems. The literature on procedures for standard setting is extensive, but the methodology for standard setting has evolved in a haphazard way over many decades without a unifying theory to support the evaluation of the methods and the validation of inferences made from the standards. This book provides a framework for going beyond specific standard setting methods to gain an understanding of the goals for the methods and how to evaluate whether the goals have been achieved. The unifying structure provided in this book considers policy that calls for the existence of performance standards, the relationship of proficiency test design to the policy, and tasks assigned to subject matter experts to help them convert the policy to estimates of locations on the reporting score scale for the test. The book provides guidance on how to connect the psychometric aspects of the standard setting process to the intentions of policy makers as expressed in policy statements. Furthermore, the structure is used to support validity arguments for inferences made when using standards. Examples are provided to show how the unifying structure can be used to evaluate and improve standard setting methodology.

International Handbook of Educational Evaluation T. Kellaghan, D.L. Stufflebeam, 2012-12-06 Thomas Kellaghan, Educational Research Centre, St. Patrick's College, Dublin, Ireland; Daniel L. Stufflebeam, The Evaluation Center, Western Michigan University, MI, USA; Lori A. Wingate

The Evaluation Center Western Michigan University MI USA Educational evaluation encompasses a wide array of activities including student assessment measurement testing program evaluation school personnel evaluation school accreditation and curriculum evaluation It occurs at all levels of education systems from the individual student evaluations carried out by classroom teachers to evaluations of schools and districts to district wide program evaluations to national assessments to cross national comparisons of student achievement As in any area of scholarship and practice the field is constantly evolving as a result of advances in theory methodology and technology increasing globalization emerging needs and pressures and cross fertilization from other disciplines The beginning of a new century would seem an appropriate time to provide a portrait of the current state of the theory and practice of educational evaluation across the globe It is the purpose of this handbook to attempt to do this to sketch the international landscape of educational evaluation its conceptualizations practice methodology and background and the functions it serves The book's 43 chapters grouped in 10 sections provide detailed accounts of major components of the educational evaluation enterprise Together they provide a panoramic view of an evolving field

Envisioning the National Health Care Quality Report Institute of Medicine, Board on Health Care Services, Committee on the National Quality Report on Health Care Delivery, 2001-04-22 How good is the quality of health care in the United States Is quality improving Or is it suffering While the average person on the street can follow the state of the economy with economic indicators we do not have a tool that allows us to track trends in health care quality Beginning in 2003 the Agency for Healthcare Research and Quality AHRQ will produce an annual report on the national trends in the quality of health care delivery in the United States AHRQ commissioned the Institute of Medicine IOM to help develop a vision for this report that will allow national and state policy makers providers consumers and the public at large to track trends in health care quality Envisioning the National Health Care Quality Report offers a framework for health care quality specific examples of the types of measures that should be included in the report suggestions on the criteria for selecting measures as well as advice on reaching the intended audiences Its recommendations could help the national health care quality report to become a mainstay of our nation's effort to improve health care

The School Reform Landscape Christopher H. Tienken, Donald C.

Orlich, 2013-02-22 In *The School Reform Landscape* Fear Mythologies and Lies the authors take an in depth and controversial look at school reform since the launch of Sputnik They scrutinize school reform events proposals and policies from the last 60 years through the lens of critical social theory and examine the ongoing tensions between the need to keep a vibrant unitary system of public education and the ongoing assault by corporate and elite interests in creating a dual system Some of events proposals and policies critiqued include the Sputnik myth A Nation At Risk No Child Left Behind the lies of the Common Core State Standards Initiative and other common reform schemes The authors provide an evidence based contrarian view of the free market reform ideas and pierce the veil of the new reform policies to find that they are built not upon empirical evidence but instead rest solidly on foundations of myth fear and lies Ideas for a new set of reform policies based on empirical evidence and supportive of a unitary democratic system of education are presented

Building a Workforce for the Information Economy National Research Council, Office of Scientific and

Engineering Personnel, Board on Science, Technology, and Economic Policy, Board on Testing and Assessment, Computer Science and Telecommunications Board, Committee on Workforce Needs in Information Technology, 2001-03-19 A look at any newspaper's employment section suggests that competition for qualified workers in information technology IT is intense Yet even experts disagree on not only the actual supply versus demand for IT workers but also on whether the nation should take any action on this economically important issue *Building a Workforce for the Information Economy* offers an in depth look at IT workers where they work and what they do and the policy issues they inspire It also illuminates numerous areas that have

been questioned in political debates Where do people in IT jobs come from and what kind of education and training matter most for them Are employers and workers experiences similar or different in various parts of the country How do citizens of other countries factor into the U S IT workforce What do we know about IT career paths and what does that imply for IT workers as they age And can we measure what matters The committee identifies characteristics that differentiate IT work from other categories of high tech work including an informative contrast with biotechnology The book also looks at the capacity of the U S educational system and of employer training programs to produce qualified workers

The Rise and Fall of American Public Schools Robert J. Franciosi, 2004-04-30 This volume provides a comprehensive and balanced survey of the state of American public education It examines the trend in the quality of the public schools over the past 100 years and reviews the possible reasons for a decline in quality The work focuses on the importance of local control in American public education and how it has been steadily eroded Franciosi advocates school choice as a way of restoring greater control by parents over their children s schools This work is distinct among calls of reform in that it takes a skeptical attitude towards the centralized school reform movement that has culminated in the No Child Left Behind Act It discusses important topics that have been the subject of research including the effect of teachers unions Tiebout competition and local control and school finance reform Franciosi follows the many trajectories taken by America s public schools over the past century It shows that the United States has been a world education leader in both access for all children and resources spent Despite this there are still some worrisome trends While school spending has steadily increased student achievement has fluctuated and remains below that of students in other developed nations Initiatives to close the gap in achievement has fluctuated and remains below that of students in other developed nations Initiatives to close the gap in achievement and resources among students of various socioeconomic racial and ethnic backgrounds have been only partially successful Past efforts to reform public education have led to increasingly centralized control over public schools This piece will be important to those who are active on both sides of the school reform debate It will also be useful to students who are researching education policy the economics of education or public policy
