Education in/for Socialism Tom G. Griffiths, Zsuzsa Millei, 2017-10-02 This book re examines aspects of historical socialism and includes case studies of education within twenty first century socialist and post socialist contexts shaped by the trajectories of historical socialism Through these case studies contributions offer insights into key questions How are education systems and student subjectivities shaped by post socialist trajectories and current regional politics economics and resistance movements How do sedimented socialist discourses and geographies alter and contest the neoliberal child and childhood in post socialist education How have disjunctures between the rhetoric of historical Marxism Leninism and the practices of educators students and student political organizations played out under socialism and what could we learn from that for our present How much emancipatory potential is there in the theories and practices of popular education for combatting injustice in the absence of mass revolutionary political parties Above all this

volume affirms the need to move beyond simplistic accounts of historical socialism and post socialist transitions By exploring how socialist trajectories remain influential and have potential in our current contexts this book contributes to the work of politically engaged educators working to re imagine and reconstruct education This book was originally published as a special issue of Globalisation Societies and Education *Human Rights Education and the Politics of Knowledge* Joanne Coysh,2017-02-24 Around the world there are a myriad of NGOs using human rights education HRE as a tool of community empowerment with the firm belief that it will help people improve their lives One way of understanding these processes is that they translate universal human rights speak using messages and symbols which make them relevant to people s daily lives and culturally resonant However an alternative more radical perspective is that these processes should engage individuals in modes of critical inquiry into the ways that that existing power structures maintain the status quo and control not only how we understand and speak about social inequality and injustice but also act on it This book is a critical inquiry into the production distribution and consumption of HRE and how the discourse is constructed historically socially and politically through global institutions and local NGO practice The book begins with the premise that HRE is composed of theories of human rights and education both of which are complex and multifaceted However the book demonstrates how over time a dominant discourse of HRE constructed by the United Nations institutional framework has come to prominence and the ways it is reproduced and reinforced through the practice of intermediary NGOs engaged in HRE activities with community groups Drawing on socio legal scholarship it offers a new theoretical and political framework for addressing how human rights pedagogy knowledge and power can be analysed between the global and local by connecting the critical but well trodden theories of human rights to insights on critical pedagogy It uses critical discourse analysis and ethnographic research to investigate the practice of NGOs engaged in HRE using contextual evidence and findings from fieldwork with NGOs and communities in Tanzania

notions of intellectual difference and autonomy Civil Society, Education and Human Formation Janis T. Ozolins, 2017-04-07 Education has been widely criticised as being too narrowly focused on skills capacities and the transference of knowledge that can be used in the workplace As a result of the dominance of economic rationalism and neo liberalism it has become commodified and marketed to potential customers As a consequence students have become consumers of an educational product and education has become an industry This volume draws together a number of different perspectives on what is meant by human formation argues that for a much richer conception of education and addresses the lack of attention to human fulfilment **Serving the Marginalized through Design Education** Steven B.
