Beyond Informality Douglas de Toledo Piza, 2025-08-19 Chinese migrants are playing increasingly large stratified roles in the informal economies of South America One of the clearest examples of this phenomenon is in the region's largest informal economy of counterfeit and smuggled goods spanning from Ciudad del Este the Paraguayan border city to São Paulo Brazil's largest metropolis Here Chinese vendors on the one hand are some of the most marginalized workers facing a doubly difficult landscape due to their precarious immigration status and their illegal economic activities They bear the brunt of working on the margins of the law and as a result do not always reap the benefits of their own labor A transnational elite of

Chinese businesspeople on the other hand profits and profiteers from the booming market They leverage their economic social and political power to bend the law to their favor and get away with irregularities violations and criminal behavior In Beyond Informality Douglas de Toledo Piza reveals the complex ways these actors interact with each other and how the law shapes those interactions He argues that structural inequalities in the global economy push Chinese migrants to South America while placing them surprisingly in positions to overhaul markets and tip the scales of deep seated power structures in the Global South
