## **Granada Television The First Generation:**

**Granada Television--The First Generation** John Finch, Michael Cox, Marjorie Giles, 2003-11-08 This is a rich and readable collection of memoirs of those who worked at Granada during the first thirty years of its existence. It captures a climate of creative activity unique in the history of broadcasting referred to now as the Golden Years of British Television. Lords Birt and Macdonald, Sir Denis Forman, Michael Parkinson, Michael Apted, Stan Barstow, Nick Elliott, Victoria Wood, Kenneth Trodd, Jack Rosenthal, Anna Ford, Chris Kelly, and Alan Plater are just a few of the many well-known contributors who were responsible for creating the foundations on which Granada's considerable worldwide reputation was based. Shows like *World in Action*, *Brideshead Revisited*, *A Family at War*, *Coronation Street*, *What the Papers Say*, and many more described in this book were pioneers in their respective fields.

***A sense of place*** Lez Cooke, 2018-02-28 This pioneering study examines regional British television drama from its beginnings on the BBC and ITV in the 1950s to the arrival of Channel Four in 1982. It discusses the ways in which regionalism, regional culture, and regional identity have been defined, outlines the history of regional broadcasting in the UK, and includes two detailed case studies of Granada Television and BBC English Regions. Drama representing contrasting examples of regional television drama during what is often described as the golden age of British television. The conclusion brings the study up to date by discussing recent developments in regional drama production and by considering future possibilities. Written in a scholarly but accessible style, the book uncovers a forgotten history of British television drama that will be of interest to lecturers and students of media and cultural studies as well as the general reader with an interest in the history of British television.

**TV antiquity** Sylvie Magerstädt, 2019-03-14 TV antiquity explores representations of ancient Greece and Rome throughout television history. The first comprehensive overview of the sword and sandals genre on the small screen, it argues that these shows offer a distinct perspective on the ancient world. The book traces the historic development of fictional representations of antiquity from the staged black and white shows of the 1950s and 1960s to the most recent digital spectacles. One of its key insights is that the structure of serial television is at times better suited to exploring the complex mythic and historic plots of antiquity. Featuring a range of case studies from popular serials like *I, Claudius* (1976) and *Rome* (2005) to lesser-known works like *The Caesars* (1968) and *The Eagle of the Ninth* (1976), the book illustrates how broader cultural, political, and economic issues have over time influenced the representation of antiquity on television.

**Transnational Television History** Andreas Fickers, Catherine Johnson, 2013-09-13 Although television has developed into a major agent of the transnational and global flow of information and entertainment, television historiography and scholarship largely remains a national endeavour, partly due to the fact that television has been understood as a tool for the creation of national identity. But the breaking of the quasi-monopoly of public service broadcasters all over Europe in the 1980s has changed the television landscape, and cross-border television channels, with the help of satellite and the Internet, have catapulted the relatively closed television nations into the universe of

globalized media channels At least this is the picture painted by the popular meta narratives of European television history Transnational Television History asks us to re evaluate the function of television as a medium of nation building in its formative years and to reassess the historical narrative that insists that European television only became transnational with the emergence of more commercial services and new technologies from the 1980s It also questions some common assumptions in television historiography by offering some alternative perspectives on the complex processes of transnational circulation of television technology professionals programmes and aesthetics This book was originally published as a special issue of Media History Remembering British Television Kristyn Gorton,Joanne Garde-Hansen,2019-03-21 This original book asks how in an age of convergence when television no longer means a box in the corner of the living room that we sit and watch together do we remember television of the past How do we gather and archive our memories Kristyn Gordon and Joanne Garde Hansen explore these questions through first person interviews with tv producers curators and archivists and case studies of popular television series and fan communities such as Cold Feet and Doctor Who Their discussion takes in museum exhibitions popular television nostalgia programming and vintage tv websites **The Routledge Companion to British Media History** Martin Conboy,John Steel,2014-09-15 The Routledge Companion to British Media History provides a comprehensive exploration of how different media have evolved within social regional and national contexts The 50 chapters in this volume written by an outstanding team of internationally respected scholars bring together current debates and issues within media history in this era of rapid change and also provide students and researchers with an essential collection of comparable media histories The Routledge Companion to British Media History provides an essential guide to key ideas issues concepts and debates in the field Chapter 40 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license <https://www.routledgehandbooks.com/doi/10.4324/9781315756202.ch40> **A History of Independent Television in Wales** Jamie Medhurst,2015-02-20 Despite the growing body of work on the media in Wales very little exists on the history of commercial television in Wales This book seeks to address this imbalance by tracing the growth and development of ITV in Wales and assessing its contribution to the life of the nation ITV has been a powerful force in British broadcasting since its inception in 1955 When commercial television came to Wales for the first time in 1958 it immediately got caught up in with matters of national identity language and geography Compared with the BBC it is a relative newcomer its growth was slower than that of the BBC and it took until 1962 to complete the network across the UK Once it had arrived however its impact was considerable The book will provide an historical narrative and critical analysis of independent television ITV in Wales from 1958 up until the present day The Man Who Carried Cash Julie Chadwick,2017-05-27 How did Saul Holiff a serious minded Canadian businessman get hooked up with Johnny Cash at his most wild The Cash Holiff partnership explores the dizzying success and rock bottom depths the two shared and reveals the secrets that eventually pulled them apart **Brevity and the Short Form in Serial Television**

Shannon Wells-Lassagne, Sylvaine Bataille, Florence Cabaret, 2024-07-30 Focuses on television fictions as short forms rather than expansive narratives and how this relates to their seriality 12 case studies focusing on the short form in television fiction Covers a wide array of television be it network cable or streaming from several different national origins Focuses not just on fiction but on relatively unstudied aspects of television miniseries web series video essays as a form of brevity in television aesthetics Studies both television production the TV series themselves as well as reception video essays Features an extended interview with a television practitioner Vincent Poymiro the screenwriter of the French series *En th rapie* an adaptation of *BeTipul In Treatment* This book offers various approaches to understanding the short form in television The collection is structured in three parts first engaging with the concept of brevity as inherent to television fiction before going on to examine how the rapidly changing landscape of television outside traditional networks might adapt this trope to new contexts made accessible by streaming platforms The final part of the study examines how this short form is inextricable from a larger context either in its relation to seriality from the crossover to the bottle episode and or a larger structure for example in the reception of a larger whole through short but evocative clips in order to better weigh their impact from Easter Egg fan videos to Analyses of The collection concludes with an interview with award winning screenwriter Vincent Poymiro about his French series *En th rapie* an adaptation of *BeTipul In Treatment*

*Peace and Power in Cold War Britain* Christopher R. Hill, 2018-08-09 *Peace and Power in Cold War Britain* explores the ban the bomb and anti Vietnam War movements from the perspective of media history focusing in particular on the relationship between radicalism and the rise of television In doing so it addresses two questions both of which seem to recur with each major breakthrough in communications technology what do advances in communications media mean for democratic participation in politics and how do distinctive types of media condition the very nature of that participation itself In answering these the book views the ban the bomb and anti Vietnam War movements in relation to communication power and media discourse It highlights how these movements intersected with parts of public life that were being transformed by television themselves shaping struggles for social change among activists and public intellectuals on the streets in the Labour Party and in the law courts The significance of this relationship between media and movements was complex and wide ranging Christopher R Hill demonstrates that it contributed to the enrichment of democracy in Cold War Britain with radicals serving to innovate and pioneer creative forms of political expression from both in and outside of media organisations However the movements increasingly succumbed to news coverage and values that revolved around human interest and violence feeding into the revolutionary spectacle of 1968 and the turn towards identity politics [Jeremy Brett - Playing a Part](#) Maureen

Whittaker, 2024-09-23 Holmes could be rude impatient abrupt and his intolerance of fools was legendary I tried to show all this all of the man s incredible brilliance But there are some cracks in Holmes s marble as in an almost perfect Rodin statue And I tried to show that too It s difficult for me to say what I may have given to the image of Holmes Faithful to Conan Doyle

s text certainly Also I've tried to bring out the emotion that is there in Holmes On the surface he seems a cold sometimes dark rather off putting figure But deeper down I think he's a man of feeling Jeremy Brett is still recognised as the most celebrated incarnation of Sherlock Holmes which he presented for ten years Jeremy delighted viewers with his dashing arrogant moody interpretation of the most popular famous detective he brought a brooding intensity to his finest role one of disturbing power He is still called the definitive Sherlock Holmes Covering a forty year period from first leaving Central School of Speech and Drama until his early death at the age of 61 Playing a Part is a full career book of a very fine actor who would delight audiences as a sensitive lover or as a haunted murderer Talented loved and admired by the theatrical world at the birth of the National Theatre led by Laurence Olivier Robert Stephens and Maggie Smith Beginning and ending his career in Manchester he would transfer his talents to the American culture of the 70s as he settled into his new life with his American wife but was enticed back with some of the best classical roles for television and the stage Jeremy's own words are used whenever they are available to present his story and his approach to playing the parts His unfailing enthusiasm for a new project and the degree of commitment comes through Illustrated with original photographs covering his life and career it is the first detailed record of all his performances on the stage film or television **Jack Rosenthal** Sue Vice, 2013-07-19 This is the first ever critical work on Jack Rosenthal the award winning British television dramatist His career began with Coronation Street in the 1960s and he became famous for his popular sitcoms including The Lovers and The Dustbinmen During what is often known as the golden age of British television drama Rosenthal wrote such plays as The Knowledge The Chain Spend Spend Spend and Ptang Yang Kipperbang as well as the pilot for the series London's Burning This study offers a close analysis of all Rosenthal's best known works drawing on archival material as well as interviews with his collaborators and cast members It traces the events that informed his writing ranging from his comic take on the permissive society of the 1960s through to recession in the 1970s and Thatcherism in the 1980s Rosenthal's distinctive brand of humour and its everyday surrealism is contrasted throughout with the work of his contemporaries including Dennis Potter Alan Bleasdale and Johnny Speight and his influence on contemporary television and film is analysed Rosenthal is not usually placed in the canon of Anglo Jewish writing but the book argues this case by focusing on his prize winning Plays for Today The Evacuees and Bar Mitzvah Boy This book will appeal to students and researchers in Television Film and Cultural Studies as well as those interested in contemporary drama and Jewish Studies **Twentieth-Century British Theatre** Claire Cochrane, 2011-10-27 In this book Claire Cochrane maps the experience of theatre across the British Isles during the twentieth century through the social and economic factors which shaped it Three topographies for 1900 1950 and 2000 survey the complex plurality of theatre within the nation state which at the beginning of the century was at the hub of world wide imperial interests and after one hundred years had seen unprecedented demographic economic and industrial change Cochrane analyses the dominance of London theatre but redresses the balance in favour of the hitherto marginalised

majority experience in the English regions and the other component nations of the British political construct Developments arising from demographic change are outlined especially those relating to the rapid expansion of migrant communities representing multiple ethnicities Presenting fresh historiographic perspectives on twentieth century British theatre the book breaks down the traditionally accepted binary oppositions between different sectors showing a broader spectrum of theatre practice British Television Drama Lez Cooke,2015-04-09 This widely respected history of British television drama is an indispensable guide to the significant developments in the area from its beginnings on the BBC in the 1930s and 40s to its position in the twenty first century as television enters a multichannel digital era Embracing the complete spectrum of television drama Lez Cooke places programmes in their social political and industrial contexts and surveys the key dramas writers producers and directors Thoroughly revised and updated this second edition includes new images and case studies new material on British television drama before 1936 an expanded bibliography and a substantial new chapter that explores the renaissance in the quality variety and social ambition of television drama in Britain since 2002 Comprehensive and accessible this book will be of value to anyone interested in the rich history of British television and modern drama

**Network Nations** Michele Hilmes,2012-05-23 In Network Nations Michele Hilmes reveals and re conceptualizes the roots of media globalization through a historical look at the productive transnational cultural relationship between British and American broadcasting Though frequently painted as opposites the British public service tradition contrasting with the American commercial system in fact they represent two sides of the same coin Neither could have developed without the constant presence of the other in terms not only of industry and policy but of aesthetics culture and creativity despite a long history of oppositional rhetoric Based on primary research in British and American archives Network Nations argues for a new transnational approach to media history looking across the traditional national boundaries within which media is studied to encourage an awareness that media globalization has a long and fruitful history Placing media history in the framework of theories of nationalism and national identity Hilmes examines critical episodes of transnational interaction between the US and Britain from radio s amateurs to the relationship between early network heads from the development of radio features and drama to television spy shows and miniseries as each other s largest suppliers of programming and as competitors on the world stage and as a network of creative business and personal relationships that has rarely been examined but that shapes television around the world As the global circuits of television grow and as global regions particularly Europe attempt to define a common culture the historical role played by the British US media dialogue takes on new significance **Before During And After The War** John Finch,2017-09-17 Poetry reflecting Johns life John Finch didn t just write TV drama he was one of just a handful of pioneering TV writers who defined the genre Part of the original Coronation Street writing team author of Family At War and Sam John Finch s towering achievements in the medium of television drama have never been exceeded We are proud to have him as a member Script Yorkshire John passed away in 2022 at the age of 97 johnfinch com
