Grand Canyon A Visitors Companion:

Grand Canyon George Wuerthner, 1998 The comprehensive guide to one of America's most beloved national parks and the surrounding region

Sufficiently Robust William Cathcart-Rake, 2010-09-13 William Cathcart Rake shares his memories of a half century of hiking in the Grand Canyon During that time he spent sixty days and walked five hundred miles below the rim As he recounts his thoughts and experiences of eighteen separate treks below the rim he includes many fascinating facts about the Canyons natural and human history As the years go by the author discovers that the Canyon has more to offer than just being a challenging place to hike it becomes a sanctuary for reflection and renewal His time in the canyon is more than days below the rim miles walked switchbacks negotiated stream crossings walking speed and pounds carried Conquering the canyon an impossible and foolish quest ceased to be a goal He returned to the canyon because of the effect it had on him not because of what he could do in it or to it The canyon allowed him to discover his ability to persevere despite discomfort afforded an opportunity to learn more about the natural world we live in and gave him a deeper appreciation of the need to seek the solace afforded by sauntering below the rim
