nineteenth century Egypt **The Limits of Public Choice** Lars Udehn,2002-09-11 Public choice has been one of the most
important developments in the social sciences in the last twenty years However there are many people who are frustrated by
the uncritical importing of ideas from economics into political science Public Choice uses both empirical evidence and
theoretical analysis to argue that the economic theory of politics is limited in scope and fertility In order to arrive at a more
comprehensive understanding of political life political scientists must learn from both economists and sociologists

ascription of rights to groups remains deeply controversial Many people reject the very idea of group rights Amongst those who do not there is radical disagreement about which sorts of group might possess rights and why Some believe that group rights threaten the freedom and well being of individuals while others argue that the rights of groups can complement them Some claim that group rights can also be human rights others find that claim incoherent The contributions making up this volume wrestle with these and many other of the issues that surround group rights This volume brings together twenty four of the journal articles that have contributed most significantly to contemporary thinking on group rights

God and Women JKohn D. Garr,2011-02-16 Since time immemorial women have been the most consistently and universally abused people group on Planet Earth as men in virtually every human culture have systematically unrelentingly and often violently dominated women Unfortunately women of faith have also been virtually bound in chains of submission and gagged by demands for silence since the end of the apostolic era God and Women brings serious biblical and historical scholarship to bear on the role of women in family society and church in an analysis of God s original intentions for women and for men at the moment when he created humanity Whether you are a woman or a man this book and the other volumes in this series will literally set you free challenging you to think and to act on divine truths from the Hebraic foundations of your faith You will clearly see God s original design and intent for women and you will start tearing down prison walls that have deprived half of God s children of the freedom to pursue his gifts and calling in the family in the society and especially in the community of faith

Right Wing Social Revolution and Its Discontent: the Dynamics of Genocide Leslie Herzberger,2006-12-21 The history of the United States in the last thirty years its preoccupation with the Vietnam War and the devastating affects of that war on the psyche of this nation is evidence of a foreign policy tragedy Foreign policy tragedy brings domestic tragedy in its wake The purpose of this study is to work out why the approaches to social revolution and that is what the Vietnam War was about have been wrong on both sides of the ideological spectrum the last thirty years in the U S point out why they were wrong point to where they were wrong and point to the consequences of acting in a society when the perceptions are in certain respects wrong Let me sum up my perception on what went wrong in Vietnam It was a Right wing war fought on Left wing premises It was a war that could not have been won because those who designed it would not or could not win it but were also afraid of losing it It was a war that was wrongly perceived by both sides of the ideological spectrum The Liberal argument was that America tried everything and still lost it The Conservative argument was that it could have been won if the opposition had not tied their hands keeping them from an all out effort that would have been required to win it The war was started in earnest by the Liberals under Kennedy The strategy was to roll up the enemy by hitting on the peasant and through it cut off the leaders Pacification education re education indoctrination and the introduction of self defense techniques to the South Vietnamese peasants was meant to stop the revolution exported from the North in its tracks The U S policy was predicated on the assumption that the peasants really had something to do with the ruling functions of the North

Vietnamese revolution after Thermidor that after the onset of Thermidor after the institutionalization of the revolution in Hanoi the revolution was still revolution The Liberal approach has believed that revolution is tantamount to Maos view of it in China peasants all immersed in the revolutionary process as fish in the sea And so you would have to drain the very ocean itself to stop it Our approach to the post revolutionary process is that after the onset of Thermidor in a society revolution is a bunch of terror informed super bureaucrats at the center of a society increasingly cut off from the periphery In a post revolutionary society it is the leaders that matter not the fish in the sea So bombing the small fish into fish soup hell in response as did the West in Vietnam in that war every tree every outhouse every shack and every village until they drop so much ordinance that the entire region is brain dead from defoliants and pockmarks and natural calamities while leaving the center untouched would seem insane Yet that was the policy in Vietnam of America And then nothing happened Nothing happened week after week year after year except that America itself was being driven mad doing the same thing and expecting it to come out different That as the President elect said in 1993 was and is insanity But what choice did they all have The pro war liberal American leadership that designed the war in Vietnam did not dare bomb Hanoi the capitol of North Vietnam for fear of triggering World War III with Red China and with Soviet Russia both of whose client North Vietnam was So they tied their own hands figuring that by coming through the back door fish in the sea style piece by piece nobody will notice in China and Russia ergo no World War III So they took a strategy that was insane and made a virtue out of its necessity They tied their own hand And then they blamed the opposition for forcing them to fight with their hands tied behind their backs On the other h

Electric News in Colonial Algeria Arthur Asseraf,2019 As Algeria became connected to international news networks during French colonial rule in the late nineteenth and early twentieth centuries this study examines how news spread through communities and across social divides how new media changed the communication landscape and how surveillance by the French government played a role

Jung on War, Politics and Nazi Germany Nicholas Lewin,2018-06-04 This book presents a historical examination of C G Jung s politics and considers the insights he provides for those seeking to understand the causes of War It looks at how Jung applies his theories to Nazi Germany and the rise of the theories of the collective unconscious and the archetypes

Nietzsche in the Nineteenth Century Robert C. Holub,2018-06-15 Friedrich Nietzsche is often depicted in popular and scholarly discourse as a lonely philosopher dealing with abstract concerns unconnected to the intellectual debates of his time and place Robert C Holub counters this narrative arguing that Nietzsche was very well attuned to the events and issues of his era and responded to them frequently in his writings Organized around nine important questions circulating in Europe at the time in the realms of politics society and science Nietzsche in the Nineteenth Century presents a thorough investigation of Nietzsche s familiarity with contemporary life his contact with and comments on these various questions and the sources from which he gathered his knowledge Holub begins his analysis with Nietzsche s views on education nationhood and the working class movement turns to questions of

women and women's emancipation colonialism and Jews and Judaism and looks at Nietzsche's dealings with evolutionary biology cosmological theories and the new science of eugenics He shows how Nietzsche although infrequently read during his lifetime formulated his thought in an ongoing dialogue with the concerns of his contemporaries and how his philosophy can be conceived as a contribution to the debates taking place in the nineteenth century Throughout his examination Holub finds that against conventional wisdom Nietzsche was only indirectly in conversation with the modern philosophical tradition from Descartes through German idealism and that the books and individuals central to his development were more obscure writers most of whom have long since been forgotten This book thus sheds light on Nietzsche's thought as enmeshed in a web of nineteenth century discourses and offers new insights into his interactive method of engaging with the philosophical universe of his time

The Life and Work of James Leon Williams ... George Wood Clapp, 1925

[The Oxford Handbook of Political Ideologies](#) Michael Freeden, Lyman Tower Sargent, Marc Stears, 2013-08-15 This is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations The diversity of ideology studies is represented by a mixture of the range of theories that illuminate the field combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones Ideologies however are always with us The Handbook is divided into three sections The first is divided into three sections The first reflects some of the latest thinking about the development of ideology on an historical dimension from the standpoints of conceptual history Marx studies social science theory and history and leading schools of continental philosophy The second includes some of the most recent interpretations and theories of ideology all of which are sympathetic in their own ways to its exploration and close investigation even when judiciously critical of its social impact This section contains many of the more salient contemporary accounts of ideology The third focuses on the leading ideological families and traditions as well as on some of their cultural and geographical manifestations incorporating both historical and contemporary perspectives Each chapter is written by an expert in their field bringing the latest approaches and understandings to their task The Handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions

Conklin, 2013-10-15 In the Museum of Man offers new insight into the thorny relationship between science society and empire at the high water mark of French imperialism and European racism Alice L Conklin takes us into the formative years of French anthropology and social theory between 1850 and 1900 then deep into the practice of anthropology under the name of ethnology both in Paris and in the empire before and especially after World War I and finally into the fate of the discipline and its practitioners under the German Occupation and its immediate aftermath Conklin addresses the influence exerted by academic networks museum collections and imperial connections in defining human diversity socioculturally rather than biologically especially in the wake of resurgent anti-Semitism at the time of the Dreyfus Affair and in the 1930s

and 1940s Students of the progressive social scientist Marcel Mauss were exposed to the ravages of imperialism in the French colonies where they did fieldwork as a result they began to challenge both colonialism and the scientific racism that provided its intellectual justification Indeed a number of them were killed in the Resistance fighting for the humanist values they had learned from their teachers and in the field A riveting story of a close knit community of scholars who came to see all societies as equally complex In the Museum of Man serves as a reminder that if scientific expertise once authorized racism anthropologists also learned to rethink their paradigms and mobilize against racial prejudice a lesson well worth remembering today
