Hassani, 2012-12-06 by Dr Donald L King The past decade has seen the ascent of ultrasonography to a preeminent position as a diagnostic imaging modality for obstetrics and gynecology It can be stated without qualification that modern obstetrics and gynecology cannot be practiced without the use of diagnostic ultrasound and in particular the use of ultrasonography Ultrasonography quickly and safely provides detailed high resolution images of the pelvic organs and gravid uterus The quality and quantity of diagnostic information obtained by ultrasonography far exceeds anything previously available and has had a revolutionary impact on the management of patients High resolution static images permit the intrauterine diagnosis of fetal growth retardation and fetal abnormalities In addition to traditional images newer dynamic imaging techniques allow observation of fetal motion cardiac pulsation and respiratory efforts The use of ultrasonography for guidance has greatly augmented the safety and utility of amniocentesis One of the great virtues of diagnostic ultrasound has been its apparent safety At present energy levels diagnostic ultrasound appears to be without any injurious effect Although all the available evidence suggests that it is a very safe modality and that the benefit to risk ratio is very high the actual safety margin for its use as yet remains unknown As a consequence practitioners are urged to limit its use only to those situations in which genuine clinical indications exist and real benefit to the patient is likely to result **American Journal of Obstetrics and Gynecology**, 1920 *Infectious Diseases in Obstetrics and Gynecology, An Issue of Obstetrics and Gynecology Clinics, E-Book* Kevin Ault, 2023-05-08 In this issue of Obstetrics and Gynecology Clinics of North America guest editors Drs Kevin A Ault and Alisa Kachikis bring their considerable expertise to the topic of Infectious Diseases in Obstetrics and Gynecology Changes in immune function during pregnancy may cause an increased risk of infection and if left
