H G Wells Aspects Of His Life:

H.G. Wells Anthony West,1984 The author recounts the life of his father H G Wells offers a glimpse of Wells complex personality and describes Wells relationships with Henry James George Bernard Shaw Maxim Gorky and others **A Man of Parts** David Lodge,2012-11-27 A riveting novel about the remarkable life and many loves of author H G Wells H G Wells author of *The Time Machine* and *War of the Worlds* was one of the twentieth century s most prophetic and creative writers a man who immersed himself in socialist politics and free love whose meteoric rise to fame brought him into contact with the most important literary intellectual and political figures of his time but who in later years felt increasingly ignored and disillusioned in his own utopian visions Novelist and critic David Lodge has taken the compelling true story of Wells s life and transformed it into a witty and deeply moving narrative about a fascinating yet flawed man Wells had sexual relations with innumerable women in his lifetime but in 1944 as he finds himself dying he returns to the memories of a select group of wives and mistresses including the brilliant young student Amber Reeves and the gifted writer Rebecca West As he reviews his professional political and romantic successes and failures it is through his memories of these women that he comes to understand himself Eloquent sexy and tender the novel is an artfully composed portrait of Wells s astonishing life with vivid glimpses of its turbulent historical background by one of England s most respected and popular writers *H.G. Wells* Lovat Dickson,1971 *The Biography Book* Daniel S. Burt,2001-02-28 From Marilyn to Mussolini people captivate people A E s Biography best selling autobiographies and biographical novels testify to the popularity of the genre But where does one begin Collected here are descriptions and evaluations of over 10 000 biographical works including books of fact and fiction biographies for young readers and documentaries and movies all based on the lives of over 500 historical figures from scientists and writers to political and military leaders to artists and musicians Each entry includes a brief profile autobiographical and primary sources and recommended works Short reviews describe the pertinent biographical works and offer insight into the qualities and special features of each title helping readers to find the best biographical material available on hundreds of fascinating individuals **Modern England, 1901-1984** Alfred F. Havighurst,2004-07-08 The most comprehensive bibliography of printed books articles and standard texts on twentieth century England **The Palgrave Handbook of the Vampire** Simon Bacon,2024-04-16 Winner of the The Lord Ruthven Assembly Award for Non Fiction 2024 This Handbook MRW is a unique encompassing overview of the figure of the vampire Not only covering the list of usual suspects this volume provides coverage from the very first reports of vampire like creatures in the 17th century to film and media representations in the 21st century The Palgrave Handbook of the Vampire shows that what you thought you knew about vampires is only a fraction of the real and fascinating story *The 20th Century O-Z* Frank N. Magill,2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and

career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

A Global Encyclopedia of Historical Writing D.R. Woolf, 2014-06-03 First published in 1998 Routledge is an imprint of Taylor Francis an informal company

The Province of All Mankind Stephen Buono, 2025-07-15 The Province of All Mankind is the story of a powerful idea about the cosmos Born in the science fiction literature of the nineteenth century and maturing in the Age of Apollo this idea held that outer space should be preserved as a sanctuary from human strife free from weapons warfare and political rivalry If humanity could somehow leave violence behind as it moved into space perhaps peace would finally reign Bucking a half century of space race scholarship Stephen Buono argues that despite waging a totalizing Cold War the United States achieved stunning diplomatic successes that heralded the cosmos as a realm of peace and cooperation The early story of space politics is not primarily one of militarization but rather of political prescience and restraint The Province of All Mankind demonstrates that space became a unique domain of American foreign relations and international law and provides lessons for the Second Cold War unfolding over the horizon

Fights of Fancy George Edgar Slusser, Eric S. Rabkin, 1993 This collection of fifteen original essays offers new perspectives on armed conflict as a central aspect of science fiction and fantasy writing Looking past the superficial conventions associated with ray guns and aliens swords and sorcerers the contributors show how writers in the genre today are not so much imagining war more fully as they are completely reimagining it Science fiction and fantasy writing is no longer mired in epic or chivalric models but is responding to new and more complex real world motivations for armed aggression advances in weaponry shifts in the theaters of war and changes in battlefield conditions Most of the papers were presented at the annual J Lloyd Eaton Conference on Science Fiction and Fantasy Literature the field's most prestigious international gathering The trend throughout the book is away from critical interest in stories of spatial or territorial conquest and toward works that deal with topics related to wars of temporal logistics and the internationalization of the combat zone including urban street violence gender conflicts and resistance to runaway technology The essays range from studies of the semantics and linguistics of warfare in science fiction to a critique of Osip Senkovsky's *Fantastic Journeys of Baron Brambeus* from writer Joe Haldeman's assessment of the impact of his Vietnam experiences on his fiction to inquiries into a shared author reader agenda in novels concerning potential mass destruction including Stephen King's *Dead Zone* and M J Engh's *Arslan* The collection also charts new directions in writing such as the anti-apocalyptic science fiction of Samuel R Delany and embraces new modes of presentation particularly computer animation and the bande dessinée or illustrated narrative as exemplified by French novelist Phillippe Druillet's *La Nuit* Musician Bob Marley film actor directors Sylvester Stallone and Bruce Lee and the cyberpunk film classics *Terminator* and the *Road Warrior* series are among other topics

discussed Together the essays reinforce the editors contention that the true function of these fantasies and science fictions is neither nostalgia nor fancy but analysis The contributors treat the texts they examine as a means not of playing war games but of understanding the role of war in the present and the future

Dictionary of World Biography: The 20th century, O-Z Frank Northern Magill, Christina J. Moose, Alison Aves, 1999-11 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

Dictionary of Real People and Places in Fiction M.C. Rintoul, 2014-03-05 Fascinating and comprehensive in scope the Dictionary of Real People and Places in Fiction is a valuable source for both students and teachers of literature and for those interested in locating the facts behind the fiction they read In a single scholarly volume it provides intriguing insight into the real identity of people and places in the novels of over 300 American and British authors published in the nineteenth and twentieth centuries

Uncommon Arrangements Katie Roiphe, 2008-05-20 Katie Roiphe's stimulating work has made her one of the most talked about cultural critics of her generation Now this bracing young writer delves deeply into one of the most layered of subjects marriage Drawn in part from the private memoirs personal correspondence and long forgotten journals of the British literary community from 1910 to the Second World War here are seven marriages la mode each rising to the challenge of intimate relations in more or less creative ways Jane Wells the wife of H G remained his rock despite his decade long relationship with Rebecca West among others Katherine Mansfield had an irresponsible childlike romance with her husband John Middleton Murry that collapsed under the strain of real life problems Vera Brittain and George Gordon Catlin spent years in a semidetached marriage he in America she in England Vanessa Bell maintained a complicated harmony with the painter Duncan Grant whom she loved and her husband Clive And her sister Virginia Woolf herself no stranger to marital particularities sustained a brilliant running commentary on the most intimate details of those around her Every chapter revolves around a crisis that occurred in each of these marriages as serious as life threatening illness or as seemingly innocuous as a slightly tipsy dinner table conversation and how it was resolved or not resolved In these portraits Roiphe brilliantly evokes what are as she says the fluctuations and shifts in attraction the mysteries of lasting affection the endurance and changes in love and the role of friendship in marriage The deeper mysteries at stake in all relationships

The Darwin Effect Jerry Bergman, 2014-09-26 Dr Miklos Nyiszli an imprisoned doctor in the Auschwitz camp wrote that Nazi doctors hoped studying twins would solve the problem of faster reproduction of superior races Nazis hoped to have each German mother bear as many twins as possible What Darwin influenced went far beyond the Nazi death camps Shocking

political social and scientific legacies of Darwin and his family Disturbing disclosure of how over 45 million Christians were killed in the 20th century because of their faith Revealing and layman friendly presentation This book is the result of 30 years of research and study carefully documenting the common destructive threads that tie some of history's most murderous dictators uncaring capitalists and aggressive social activists to the flawed concepts of Charles Darwin in an effort to change the world and how they succeeded The extermination of races considered lower than others the profound lack of empathy for less advanced cultures the corrupted atheistic justifications for taking the lives of millions all done to advance the agendas of social Darwinism at work in the world today More than mere theoretical discussions we have seen the horrifying evidence of the practical results when applying these destructive and misleading concepts to society in the last 100 years *Sinners? Scroungers? Saints?* Pat Thane, Tanya Evans, 2012-05-31 This is the first book to describe the real lives of unmarried mothers and attitudes towards them in England from the First World War to the present day The focus is on England because the legal positions and other circumstances of unmarried mothers were often very different elsewhere in Britain The authors use biographies and memoirs as well as archives and official sources to challenge stereotypes of the mothers as desolate women rejected by society and by their families until social attitudes were transformed in the permissive 1960s They demonstrate the diversity of their lives their social backgrounds and how often they were supported by their families neighbours and the fathers of their children before the 1960s and the continuing hostility by some sections of society since then They challenge stereotypes too about the impact of war on sexual behaviour and about the stability of family life before the 1960s Much of the evidence comes from the records of the National Council for the Unmarried Mother and Her Child set up by prominent people in 1918 to help a social group they believed were neglected and which is still very active today as Gingerbread supporting lone parents in need of help Their work tells us not only about the lives of those mothers and children who had no other support but also another important story about the vibrancy of voluntary action throughout the past century and its continuing vital role working alongside and in co operation with the Welfare State to help mothers into work among other things Their history is an inspiring example of how throughout the past century voluntary organizations in the Big Society worked with not against the Big State **Narratives of British Socialism** S. Ingle, 2002-10-23 What can the study of narratives bring to our understanding of political ideas that other forms of analysis cannot In *Narratives of British Socialism* Stephen Ingle shows how imaginative literature can be used to give definition to political thought The origins development and eventual decline of British socialism are analyzed in the writings of Morris Shaw Wells Huxley Koestler Orwell and others Ingle concludes that narratives can give us an experiential understanding of political ideas *Biographical Dictionary of Literary Influences* John Powell, 2000-10-30 Over the past two decades the process of cultural development and in particular the role of reading has been of growing interest but recent research has been episodic and idiosyncratic In this biographical dictionary research devoted specifically to the reading habits of 19th century individuals who shaped Western

culture is brought together for the first time While giving prominent coverage to literary and political figures the volume s 270 entries also include musicians painters educators and explorers Each entry includes brief biographical information a concise summary of literary influences on the subject and clear direction for further research The book provides a practical tool for scholars wishing to trace the reading experience of important Western cultural figures Subjects were selected from the people most responsible for the cultural development of Europe Britain and the British Empire and the Americas between 1800 and 1914 Although selective the sample of 270 figures is substantial enough to suggest broad cross cultural habits and effects enabling scholars to better understand the relationship between reading and culture In an introductory essay Powell explores the patterns and relationships that can be discerned from the entries The first of three anticipated volumes the book is an important step forward in researching the role of reading in cultural development *Ziggyology* Simon

Goddard,2013-03-28 He came from Outer Space It was the greatest invention in the history of pop music the rock god who came from the stars which struck a young David Bowie like a lightning bolt from the heavens When Ziggy the glam alien messiah fell to Earth he transformed Bowie from a prodigy to a superstar who changed the face of music forever But who was Ziggy Stardust And where did he really come from In a work of supreme pop archaeology Simon Goddard unearths every influence that brought Ziggy to life from HG Wells to Holst Kabuki to Kubrick and Elvis to Iggy Ziggyology documents the epic drama of the Starman s short but eventful time on Planet Earth and why Bowie eventually had to kill him **The Pivot**

of Civilization in Historical Perspective Margaret Sanger,2003-09 Today s heated debates over social issues such as abortion birth control ethnicity immigration race religion sexual behavior and welfare did not begin in the 1960s They began in the last years of the nineteenth century and reached their zenith in the 1920s when this book sold over 200 000 copies Here is all the text of Margaret Sanger s 1922 best seller along with 31 chapters by her contemporaries to set what she advocated in historical perspective This is not history told after the fire and passion have died out These are words spoken in the heat of battle at a time when Sanger and others believed that the fate of civilization depended on their ideas winning acceptance here and around the world Alexander the Great John Boardman,2021-06-15 Alexander s defeat of the Persian

Empire in 331 BC captured the popular imagination inspiring an endless series of stories and representations that emerged shortly after his death and continues today An art historian and archaeologist Boardman draws on his deep knowledge of Alexander and the ancient world to reflect on the most interesting and emblematic depictions of this towering historical figure 0Some of the stories in this book relate to historical events associated with Alexander s military career and some to the fantasy that has been woven around him and Boardman relates each with his customary verve and erudition From Alexander s biographers in ancient Greece to the illustrated Alexander Romances of the Middle Ages to operas films and even modern cartoons this generously illustrated volume takes readers on a fascinating cultural journey as it delivers a perfect pairing of subject and author
