shows how this has developed into many of the most powerful tools of liberalism of our times These are serving the interests of the global marketplace by turning all of humanity into compliant consumers Those who endorse multiculturalism are in fact the enemies of all traditional culture Dr Krebs also takes issue with the use of the term West to describe our culture which he sees as an effort to deprive the various European cultures which comprise it of their unique characters and histories This will lead to their replacement by a grey conformity divorced from any authentic roots as well as a value system that is frequently used as a weapon against those nations which refuse to share them This assault is not limited to Europe but is something that is going on in every corner of the globe Dr Krebs says that it is time for all those who believe in the worthiness of their heritage and unique ethnic identity to return to the wellsprings of their peoples and defend what is rightfully theirs With a deeper trench between the camps of multiculturalism and traditional culture being dug all the time this is the conflict that will define the 21st century Drawing examples from many of the most notable contributors to science philosophy and religion Dr Krebs illustrates a truth that is difficult to deny Anyone who heeds his warning will find it impossible not to accept his challenge to take sides in the ongoing struggle against universal conformity Dr Pierre Krebs b 1948 is a major figure in Neue Kultur the German branch of the European New Right and is also the leader of the Thule Seminar He holds degrees in law journalism sociology and political science This is his first work to be translated into English
