# Jean Toomer Reader Selected Unpublished Writings:

A Jean Toomer Reader Jean Toomer, Frederik L. Rusch, 2023 Presenting a varied assemblage of correspondence poetry short fiction and essays the range of Toomer's work reproduced here traces the evolution of a complex philosophy of kinship and self determination through which Toomer hoped to transcend social and cultural definitions of race Reader Jean Toomer, 1993 Jean Toomer achieved instant recognition as a critic and thinker in 1923 with the publication of his novel Cane a harsh eloquent vision of black American hardship and suffering But because of his reclusive introspective nature Toomer's fame waned in later years and today his other contributions to American thought and literature are all but forgotten Now this collection of unpublished writings restores a crucial dimension to our understanding of this important African American author Thematically arranging letters sketches poems autobiography short stories a play and a children s story Frederik Rusch offers insight into Toomer's mind and spirituality his feelings on racial identity in America and his attitudes toward and ideas about Cane Rusch highlights Toomer's reflections on America its people landscape and politics reveals his significance for the problems and issues of today and helps us understand Toomer not only as writer but also as social critic prophet mystic and idealist Exploring Toomer's attempts to find self realization and transcend social and cultural definitions of race this book offers a unique view of the United States through the life of one of its most significant and fascinating intellectuals The Letters of Jean Toomer, 1919-1924 Jean Toomer, 2006 Mark Whalen's compilation offers a vital document for understanding the contexts intellectual debates and tensions undergirding Toomer's work including his simultaneous feelings of attraction to and estrangement from rural southern life the influence of technology on race and urban existence in America and the contradictory pulls of folk culture and modernist experimentation The collection also charts the motives underlying Toomer's abandonment of the style that distinguished Cane and his growing fascination with the teachings of the mystic G I Gurdjieff in 1924 BOOK JACKET Forgotten Readers Elizabeth McHenry, 2002-10-31 Recovers the history of nineteenth and early twentieth century African American reading societies Reading Jean Toomer's 'Cane' Gerry Carlin, 2014-03-29 Jean Toomer's Cane 1923 is regarded by many as a seminal work in the history of African American writing It is generally called a novel but it could more accurately be described as a collection of short stories poems and dramatic pieces whose stylistic indeterminacy is part of its unique appeal. The ambiguities and seeming oddities of Toomer's text make Cane a difficult work to understand which is why this lucid accessible guide is so valuable Exploring some of the difficulties that both the writer and his work embody Gerry Carlin offers an enthralling account of Toomer's eloquent and exquisite expression of the African American experience The Author Dr Gerry Carlin is a Senior Lecturer in English at the University of Wolverhampton He teaches researches and has published in the areas of modernism critical theory and the literature and culture of the 1960s **Jean Toomer and the Terrors of American History** Charles Scruggs, Lee Van Demarr, 2016-11-11 Jean Toomer's Cane was the first major text of the Harlem Renaissance and the first

important modernist text by an African American writer It powerfully depicts the terror in the history of American race relations a public world of lynchings race riots and Jim Crow and a private world of internalized conflict over identity and race which mirrored struggles in the culture at large Toomer's own life reflected that internal conflict and he has been an ambiguous figure in literary history an author who wrote a text that had a tremendous impact on African American authors but who eventually tried to distance himself from Cane and from his identification as a black writer In Jean Toomer and the Terrors of American History Charles Scruggs and Lee VanDemarr examine original sources Toomer's rediscovered early writings on politics and race his extensive correspondence with Waldo Frank and unpublished portions of his autobiographies to show how the cultural wars of the 1920s influenced the shaping of Toomer's book and his subsequent efforts to escape the racial definitions of American society That those definitions remain crucial for American society even today is one reason Toomer's work continues to fascinate and to influence contemporary writers and readers The Cambridge Companion to the Harlem Renaissance George Hutchinson, 2007-06-14 The Harlem Renaissance 1918 1937 was the most influential single movement in African American literary history Its key figures include W E B Du Bois Nella Larsen Zora Neale Hurston Claude McKay and Langston Hughes The movement laid the groundwork for all later African American literature and had an enormous impact on later black literature world wide With chapters by a wide range of well known scholars this 2007 Companion is an authoritative and engaging guide to the movement It first discusses the historical contexts of the Harlem Renaissance both national and international then presents original discussions of a wide array of authors and texts and finally treats the reputation of the movement in later years Giving full play to the disagreements and differences that energized the renaissance this Companion presents a set of new readings encouraging further exploration of this dynamic field Mixed Race Stereotypes in South African and American Literature D. Mafe, 2013-11-07 Mixed Race Stereotypes in South African and American Literature examines the popular literary stereotype the tragic mulatto from a transnational perspective Mafe considers the ways in which specific South African and American writers have used this controversial literary character to challenge the logic of racial categorization Conjuring the Folk David Nicholls, 2000 Provides a new way of looking at literary responses to migration and modernization **Modernisms** Peter Nicholls, 2017-10-07 Peter Nicholls provides original analytic accounts of the main Modernist movements Close readings of key texts monitor the histories of Futurism Expressionism Cubism Dadaism and Surrealism This new edition includes discussion of the recent research trends examination of developments in the US and a new chapter on African American Modernisms The Vintage Book of African American Poetry Michael S. Harper, Anthony Walton, 2012-02-01 In The Vintage Book of African American Poetry editors Michael S Harper and Anthony Walton present the definitive collection of black verse in the United States 200 years of vision struggle power beauty and triumph from 52 outstanding poets From the neoclassical stylings of slave born Phillis Wheatley to the wistful lyricism of Paul Lawrence Dunbar the rigorous wisdom of Gwendolyn Brooks the chiseled

modernism of Robert Hayden the extraordinary prosody of Sterling A Brown the breathtaking expansive narratives of Rita Dove the plaintive rhapsodies of an imprisoned Elderidge Knight The postmodern artistry of Yusef Komunyaka Here too is a landmark exploration of lesser known artists whose efforts birthed the Harlem Renaissance and the Black Arts movements and changed forever our national literature and the course of America itself Meticulously researched thoughtfully structured The Vintage Book of African American Poetry is a collection of inestimable value to students educators and all those interested in the ever evolving tradition that is American poetry A History of the Harlem Renaissance Rachel Farebrother, Miriam Thaggert, 2021-02-04 The Harlem Renaissance was the most influential single movement in African American literary history The movement laid the groundwork for subsequent African American literature and had an enormous impact on later black literature world wide In its attention to a wide range of genres and forms from the roman clef and the bildungsroman to dance and book illustrations this book seeks to encapsulate and analyze the eclecticism of Harlem Renaissance cultural expression It aims to re frame conventional ideas of the New Negro movement by presenting new readings of well studied authors such as Zora Neale Hurston and Langston Hughes alongside analysis of topics authors and artists that deserve fuller treatment An authoritative collection on the major writers and issues of the period A History of the Harlem Renaissance takes stock of nearly a hundred years of scholarship and considers what the future augurs for the study of the New Negro Africana Religion in the Digital Age Margarita Simon Guillory, 2024-12-27 This book diversifies the fields of digital religion studies and Africana religious studies by considering the nuanced intersections between digital technologies and the religious experiences of African Americans While Christianity is a continuous marker of religious identity for many African Americans this digital approach to examining Africana religion in the US uncovers other non Christian esoteric traditions that have often been marginalized within academia The book explores the diverse ways that African Americans employ the Internet social media human enhancement technologies and gaming to construct multidimensional modes of religious identities It also considers the ways that Africana religious practitioners employ digital platforms to both complement and disrupt religious authority Ultimately the book establishes Africana religious experiences as viable entry points in the scholarly engagement of religion in the digital age As such it will be a key resource for scholars of Religious Studies Africana Religious and Esoteric Studies Religion and Culture and Religion and Sociology Goodbye Christ? Peter Kerry Powers, 2024-01-12 Despite the proliferation of criticism on the cultural work of the Harlem Renaissance over the course of the past two decades surprisingly few critics have focused on the ways in which religious contexts shaped the works of New Negro writers and artists during that time In Goodbye Christ Christianity Masculinity and the New Negro Renaissance Peter Kerry Powers fills this scholarly void exploring how the intersection of race religion and gender during the Harlem Renaissance impacted the rhetoric and imagination of prominent African American writers of the early twentieth century In order to best understand the secular academic thought that arose during the Harlem Renaissance period Powers

argues readers must first understand the religious contexts from which it grew By illustrating how religion informed the New Negro movement and through his analysis of a range of texts Powers delineates the ways in which New Negro writers of the early twentieth century sought to loosen the grip of Christianity on the racial imagination thereby clearing a space for their own cultural work and for the development of a secular African American intelligentsia generally In addition to his examination of well known authors including W E B Du Bois Langston Hughes and Zora Neale Hurston Powers also offers an illuminating perspective on lesser known figures including Reverdy Ransom and Frederick Cullen In his exploration of the role of race and religion at the time Powers employs an intersectional approach to religion and gender and especially masculinity that sets the discussion on fertile new ground Goodbye Christ answers the call for a body of work that considers religion as a relevant precursor to the secular intelligentsia that grew during the Harlem Renaissance in the early 1900s By offering a complete look at the tensions that arose between churches and Harlem Renaissance writers and artists readers can gain a better understanding of the work that Harlem Renaissance writers undertook during the early decades of the twentieth century Peter Kerry Powers is dean of the School of Humanities at Messiah College in Pennsylvania He is the author of Recalling Religions Resistance Memory and Cultural Revision in Ethnic Women s Literature Armstrong, 2005-06-17 In this study aimed at a general and student audience Tim Armstrong seeks to define modernism not only by its aesthetics and literary genres but also by its links with broader cultural areas in which the modern is implicated and debated and which inform its representational modes Besedilo s hrbta knj The Inside Light Deborah G.
