most detailed and comprehensive study to date on the actual impact of U S liability law In recent decades it has been widely

defects and accidents More recently others have suggested that the broad and unpredictable sweep of these laws actually
deters innovation The risks of lawsuits are so great that corporations are showing more caution in product innovation than
ever before The contributors focus on five sectors of the economy where the liability system appears to have had the greatest
effects positive or negative the private aircraft automobile chemical and pharmaceutical industries and the medical
