Jefferson Profile As Revealed In His Let:

Jefferson's Nephews ,2004-01-01 The brutal axe murder and dismemberment of a Negro slave committed in 1811 by two brothers Lilburne and Isham Lewis whose mother was Thomas Jefferson's sister and whose father was his first cousin form the core of this historical detective story and account of frontier life in western Kentucky in the first decades of the nineteenth century On the night of December 15 1811 drunk and enraged over the breaking of a pitcher Lilburne bound his seventeen year old slave George and in front of the assembled household's other slaves cut off his head The brothers were indicted for murder released on bail and attempted suicide Boynton Merrill Jr explores the tragic combination of circumstances and social forces that culminated in this ghastly event the lawlessness of the frontier settlements the dehumanizing effects of chattel slavery and the Lewis family's history of mental instability and their ever declining fortunes

Social Science ,1957 *The Removal of the Choctaw Indians* Arthur H. DeRosier,1970 Includes index The Choctaw Nation one of the largest and most prosperous Tribes east of the Mississippi River was the first Tribe to be removed eventually to Oklahoma **Political Gerrymandering and the Courts** Bernard Grofman,1990 This volume is motivated by three concerns First is the belief that the issue of political gerrymander will play a significant although far from dominant role in redistricting litigation in the 1990s and thereafter In the 1980s the legislative and or congressional redistricting plans of all but a handful of states were subject to lawsuits Grofman 1985a Many of these lawsuits involved the issue of racial vote dilution Grofman Migalski and Noviello 1985 In the 1980s hundreds of local jurisdictions that used at large or multimember district elections had their electoral system challenged OCo and most of the jurisdictions under challenge were forced to change their system to a single member district plan that was not dilutive of minority voting strength see e g Brischetto and Grofman 1988 Although partisan gerrymandering is less prevalent than racial vote dilution in the 1990s we can expect to see challenges to partisan gerrymandering like those in the 1980s to racial vote dilution In particular numerous local jurisdictions that use partisan multimember district or at large elections may be subject to challenge Second in commissioning essays I sought to involve a number of the leading scholars in the field so as to put together a largely selfcontained compendium of the major points of view on how issues of partisan gerrymandering are to be litigated While the ultimate issues in constitutional interpretation are ones that the Supreme Court must resolve and these will be resolved only after an extensive series of case by case adjudications just as the actual numerical features of the one person one vote standard evolved only in the decade of litigation after *Baker v Carr* Grofman 1989a OCo there is an important role for social scientists to play Social science testimony proved important in the area of racial vote dilution by aiding courts to interpret the provisions of the Voting Rights Acts e g in defining the operational meaning of terms like racially polarized voting Grofman Migalski and Noviello 1985 Grofman 1989b In like manner I believe that research by social scientists will aid attorneys and the federal courts in specifying manageable standards to define and measure the effects of partisan

gerrymandering I hope this volume will prove instrumental as the beginning of such a dialogue The third concern that motivated this volume is my view that egregious partisan gerrymandering is a violation of the Fourteenth Amendment rights of political groups and that it is both appropriate and necessary for courts to intervene when such rights are significantly impaired However I recognize that the courts must steer a careful line so as to avoid encouraging frivolous lawsuits while at the same time sending a clear message to potential gerrymanders that intentional egregious political gerrymanders which eliminate competition and are built to be resistant to electoral tides will be struck down Court intervention to end egregious partisan gerrymandering is necessary for a number of reasons

Jefferson's Wall Jon Neff, Designing Evaluations of Educational and Social Programs Lee Joseph Cronbach, Karen Shapiro, 1982 Designing an evaluation is rather an art as each must be designed according to its appropriateness to the situation being evaluated The advantages of each feature of the design must be balanced against any sacrifices each of these choices entail Designers must plan for the allocation of investigative resources selecting investigative questions that are most apt and be aware of both practical and political considerations This volume includes both new approaches to the design of educational evaluations and discusses the pros and cons of frequently used design concepts
