**Latter Part of Diary of John James Jennings** John James Jennings, 1862

Bills of Rights and Decolonization Charles Parkinson, 2007-11-22 Bills of Rights and Decolonization analyzes the British Government's radical change in policy during the late 1950s on the use of bills of rights in colonial territories nearing independence More broadly it explores the political dimensions of securing the protection of human rights at independence and the peaceful transfer of power through constitutional means This book fills a major gap in the literature on British and Commonwealth law history and politics by documenting how bills of rights became commonplace in Britain's former overseas territories It provides a detailed empirical account of the origins of the bills of rights in Britain's former colonial territories in Africa the West Indies and South East Asia as well as in the Atlantic and Pacific Oceans It sheds light on the development of legal systems at the point of gaining independence and raises questions about the colonial influence on the British legal establishment's change in attitude towards bills of rights in the late twentieth century It presents an alternative perspective on the end of Empire by focusing upon one aspect of constitutional decolonization and the importance of the local legal culture in determining each dependency's constitutional settlement and provides a series of empirical case studies on the incorporation of human rights instruments into domestic constitutions when negotiated between a state and its dependencies More generally this book highlights Britain's human rights legacy to its former Empire and traces the genesis of the bills of rights of over thirty nations from the Commonwealth

The Victorian Geopolitical Aesthetic Lauren M. E.

Goodlad,2015 How did realist fiction alter in the effort to craft forms and genres receptive to the dynamism of an expanding empire and globalizing world Do these nineteenth century variations on the geopolitical aesthetic continue to resonate today Crossing literary criticism political theory and longue dur e history The Victorian Geopolitical Aesthetic explores these questions from the standpoint of nineteenth century novelists such as Wilkie Collins George Eliot Gustave Flaubert and Anthony Trollope as well as successors including E M Forster and the creators of recent television serials By looking at the category of sovereignty at multiple scales and in diverse contexts Lauren M E Goodlad shows that the ideological crucible for high realism was not a hegemonic liberalism It was rather a clash of modern liberal ideals struggling to distill themselves from a powerful conservative vision of empire while striving to negotiate the inequalities of power which a supposedly universalistic liberalism had helped to generate The material occasion for the Victorian era s rich realist experiments was the long transition from an informal empire of trade that could be celebrated as liberal to a neo feudal imperialism that only Tories could warmly embrace The book places realism s geopolitical aesthetic at the heart of recurring modern experiences of breached sovereignty forgotten history and subjective exile The Coda titled The Way We Historicize Now concludes the study with connections to recent debates about surface reading distant reading and the hermeneutics of suspicion
