A Jungian Life Thomas B. Kirsch, 2014-11-15 From conception until the present C G Jung his ideas and analytical psychology itself have been a central

thread of Thomas B Kirsch's life. His parents James and Hilde Kirsch were in analysis with C G Jung when he was born and he was imaged to be the product of a successful analysis. At an early age Dr Kirsch was introduced to many of the first generation analysts who surrounded C G Jung and over time became acquainted with them. Later in his roles with the IAAP he gained a broad knowledge of the developments in analytical psychology and through both his early family history and in his later professional life Dr Kirsch worked closely with many analysts who were integral in forming the foundations of analytical psychology.

Jean Dalby Clift, Wallace B. Clift, 1988 Dionysus in Exile Rafael López-Pedraza, 2000 The internationally renowned Jungian analyst López-Pedraza diagnoses the psychological illness at the core of modern society: the loss of embodied soulfulness in people's lives. In this study of the Greek god Dionysus he offers insight for a cure. This book may be worth several years in psychotherapy if one takes its message to heart. Dismemberment and cannibalism, Prometheus and Titanic nature, mystical experience, the communal aspect of Dionysiac worship, jazz, flamenco and bullfighting are among the many twists and turns taken in this essay that wends its way through issues of the body and emotion to open hidden doors for psychotherapy and to cast new light on post modern humanity.
