undertook extensive journeys in the medieval world not least Marco Polo courageous women such as Isabella Bird and Freya Stark and enterprising writers and journalists including Mark Twain We see the work of famous travelers but also stories by ordinary people who found themselves involved in remarkable situations like the medieval Chinese abbot who was shown around the Sainte Chapelle in Paris by the king of France Some of the writers seek to provide a straightforward accurate description of all they have seen while others concentrate on their subjective experiences of the city and encounters with the inhabitants Introduced and contextualized by bestselling historian Peter Furtado each account provides both a vivid portrait of a distant place and time and an insight into those who journeyed there The result is a book that delves into the splendors and stories that exist beyond conventional guidebooks and websites Great Cities of the World John Frost, 1852 **The Greatest Cities of Ancient Mesopotamia** Charles River Editors, 2025-05-01 In southern Iraq a crushing silence hangs over the dunes For nearly 5 000 years the sands of the Iraqi desert have held the remains of the oldest known civilization the Sumerians When American archaeologists discovered a collection of cuneiform tablets in Iraq in the late 19th century they were confronted with a language and a people who were at the time only scarcely known to even the most knowledgeable scholars of ancient Mesopotamia The exploits and achievements of other Mesopotamian peoples such as the Assyrians and Babylonians were already known to a large segment of the population through the Old Testament and the nascent field of Near Eastern studies had unraveled the enigma of the Akkadian language that was widely used throughout the region in ancient times but the discovery of the Sumerian tablets brought to light the existence of the Sumerian culture which was the oldest of all the Mesopotamian cultures Although the Sumerians continue to get second or even third billing compared to the Babylonians and Assyrians perhaps because they never built an empire as great as the Assyrians or established a city as enduring and great as Babylon they were the people who provided the template of civilization that all later Mesopotamians built upon The Sumerians are credited with being the first people to invent writing libraries cities and schools in Mesopotamia Ziskind 1972 34 and many would argue that they were the first people to create and do those things anywhere in world For a people so great it is unfortunate that their accomplishments and contributions not only to Mesopotamian civilization but to civilization in general largely go unnoticed by the majority of the public Perhaps the Sumerians were victims of their own success they gradually entered the historical record established a fine civilization and then slowly submerged into the cultural patchwork of their surroundings They also never suffered a great and sudden collapse like other peoples of the ancient Near East such as the Hittites Assyrians and Neo Babylonians did A close examination of Sumerian culture and chronology reveals that the Sumerians set the cultural tone in Mesopotamia for several centuries in the realms of politics governments arts literature and religion The Sumerians were truly a great people whose legacy continued long after they were gone Even today the world owes the Sumerians a tremendous amount When Western Europe was still in the Stone Age it was the Sumerians who invented writing and the wheel divided time into minutes and seconds tamed nature and built

gigantic cities They embraced culture and the arts and their caravans crossed the desert opening up the first trade routes Their myths and legends inspired various origin stories and their memory lives on in the Old Testament They wrote the history of the birth of mankind The heritage of the Sumerian civilization and their successors is everywhere **The World's Best Cities** National Geographic,2014 Delving into the heart and soul of more than 225 cities around the globe World s Best Cities is a glossy glorious tribute to cosmopolitan life In photos and words this irresistible volume showcases long established great cities like Paris Rome New York London and Tokyo as well as exciting up and comers including Denver Asheville Oslo and Abu Dhabi As readable as it is beautiful this expansive travel guide offers a playful informative mix of inspirational personal narratives photo galleries and fun facts plus sidebars on oddities where to find the best food and shopping novels that capture a particular city s atmosphere local secrets and more Many additional cities appear in illustrated lists such as eco friendly cities foodie cities and happiest cities The twenty first century is the Century of the City and on the go visitors and armchair travelers alike will make World s Best Cities a must have volume to accompany all their urban adventures

Lions, Locusts, and the Lamb

Michael Kuykendall,2019-01-28 The symbolism of Revelation has puzzled readers for centuries Every generation falls prey to extreme views of interpretation Even worse they minimize the importance of John s Apocalypse by not teaching or preaching from it Yet Revelation is a profound work of New Testament theology and warrants a close study John expects and prepares believers to follow the Lamb through suffering and possible martyrdom The problem is centered on what the symbols mean Are they literal Are they symbolic Do the images refer to events and people in the first century or to the last days of planet earth Moreover how is the book structured Is it one vision four visions or more Are the visions linear or recapped Lions Locusts and the Lamb Interpreting Key Images in the Book of Revelation demonstrates a way to unlock John s structure and unravel his symbols The key is to follow a logical step by step interpretive approach that accents the historical cultural intertextual extratextual and particularly intratextual allusions and connections The result is a book that delivers the basic meaning of three hundred images and categorizes them into an accessible guide for teachers preachers and readers of Revelation

Reading Revelation

Gordon W. Campbell,2022-01-01 The Book of Revelation can be read in various ways Where interpretation opts not to venture beyond Revelation or approach the book as a forecast of end time events it typically favours either going behind the text in search of a socio historical

context of origin to which it might refer or else standing in front of the text and investigating the book's reception history or its present relevance and impact. Comparatively little interpretative work has been undertaken inside the text exploring the mechanics of how Revelation works, still less how its complex parts might fit together into a meaningful whole. Gordon Campbell considers Revelation to be a coherent narrative composition that draws its hearer or reader into its text world. In *Reading Revelation: A Thematic Approach*, Campbell gives an innovative account of Revelation's sophisticated thematic content. Mindful of Revelation's narrative verve or its architecture *en mouvement* as Jacques Ellul once put it, Campbell plots a series of thematic trajectories through the book. On this reading, parody and parallelism fundamentally shape the whole narrative. As a first ever integrated account of Revelation's macro themes, *Reading Revelation* makes an important contribution to Revelation scholarship. In its light, the book may justifiably be seen as the crowning achievement of the Scriptures.

Parables of War John W. Marshall, Canadian Corporation for Studies in Religion, 2001-11-19. Contending that its characterization as a Christian document has hindered interpretation, Marshall aims to uncover the formerly hidden Jewishness of the Book of Revelation of John. The focus is on four text complexes which describe the synagogue of Satan, those who keep the commandments of God, the 144,000 gathered on Zion, and the holy city. Coverage extends to a description of the social and cultural context of the diaspora during the Judean war. Marshall teaches early Christianity and Second Temple Judaism at the U of Toronto.
