Schoenberg, 1994-04-01 The Ancient Japanese Mission Press Johannes Reformations Carlos M. N. Eire, 2016-06-28 This fast paced survey of Western civilization s transition from the Middle Ages to modernity brings that tumultuous period vividly to life Carlos Eire popular professor and gifted writer chronicles the two hundred year era of the Renaissance and Reformation with particular attention to issues that persist as concerns in the present day Eire connects the Protestant and Catholic Reformations in new and profound ways and he demonstrates convincingly that this crucial turning point in history not only affected people long gone but continues to shape our world and define who we are today The book focuses on the vast changes that took place in Western civilization between 1450 and 1650 from Gutenberg's printing press and the subsequent revolution in the spread of ideas to the close of the Thirty Years War Eire devotes equal attention to the various Protestant traditions and churches as well as to Catholicism skepticism and secularism and he takes into account the expansion of European culture and religion into other lands particularly the Americas and Asia He also underscores how changes in religion transformed the Western secular world A book created with students and nonspecialists in mind Reformations is an inspiring provocative volume for any reader who is curious about the role of ideas and beliefs in history The Oxford Handbook of the Jesuits Ines G. non European and ethnically diverse with its members increasingly interested in engaging society in addition to traditional **The Christian Century in Japan, 1549-1650** Charles Ralph Boxer,1967 pastoral duties **Constructing Mission History** Stanley H. Skreslet, 2023-01-17 Three master narratives currently dominate the analysis of modern mission history One puts foreign missionaries at the heart of the story A second emphasizes the colonial aspect of modern missions Here missionaries are not heroes but villains who are implicated in hegemonic schemes of imperial domination Thirdly mission history is subordinated to one of its outcomes the advent of World Christianity In this master narrative the concept of contextualization looms large bolstered by Sanneh s notion of translatability and emphasis on the agency of non Westerners who participate in and subtly shape the complex social processes of evangelization While all three of these master narratives are insightful none of them adequately balances concern for missionary initiative and indigenous agency Borrowing from speech act theory Skreslet offers a new analytical approach to the modern roots of World Christianity that differentiates between what a speaker might intend to communicate and the effects of what has been said or actions taken both in the moment and over time Corresponding to the concepts of illocution and perlocution as these technical terms are used in speech act theory the book is structured in two main sections Initially the focus is on expressed missionary motives Part two engages a representative set of modern era mission performances involving many more actors than just the foreign evangelizers whose stated or implied intentions are emphasized in part one Sixteenth-Century Mission Robert L. Gallagher, Edward L. Smither, 2021-04-07 Did the Reformers lack a vision for missions In Sixteenth Century Mission a diverse cast of contributors explores the wide reaching practice and theology of mission during this era Rather than a century bereft of cross cultural outreach we find both Reformers and Roman Catholics preaching the gospel and establishing the church in all the world This overlooked yet rich history reveals themes and insights relevant to the practice of mission today

Christian Interculture Arun W. Jones, 2021-02-26 Despite the remarkable growth of Christianity in Africa Asia and Latin America in the twentieth century there is a dearth of primary material produced by these Christians This volume explores the problem of writing the history of indigenous Christian communities in the Global South Many such indigenous Christian groups pass along knowledge orally and colonial forces have often not deemed their ideas and activities worth preserving In some instances documentation from these communities has been destroyed by people or nature Highlighting the creative solutions that historians have found to this problem the essays in this volume detail the strategies employed in discerning the perspectives ideas activities motives and agency of indigenous Christians The contributors approach the problem on a case by case basis acknowledging the impact of diverse geographical cultural political and ecclesiastical factors This volume will inspire historians of World Christianity to critically interrogate and imaginatively use existing Western and indigenous documentary material in writing the history of Christianity in Asia Africa the Americas and Oceania In addition to the editor the contributors to this volume include J J Carney Adrian Hermann Paul Kollman Kenneth Mills Esther Mombo Mrinalini

Sebastian Christopher Vecsey Haruko Nawata Ward and Yanna Yannakakis **Language Standardization and Language** Variation in Multilingual Contexts Nicola McLelland, Hui Zhao, 2021-11-24 This important contribution to the sociolinguistics of Asian languages breaks new ground in the study of language standards and standardization in two key ways in its focus on Asia with particular attention paid to China and its neighbours and in the attention paid to multilingual contexts The chapters address various kinds of sometimes hidden multilingualism and examine the interactions between multilingualism and language standardization offering a corrective to earlier work on standardization which has tended to assume a monolingual nation state and monolingual individuals Taken together the chapters in this book thus add to our understanding of the ways in which multilingualism is implicated in language standardization as well as the impact of language standards on multilingualism The introduction Chapter 6 and Chapter 8 are free to download as open access publications under a CC BY NC licence You can access them here Introduction https zenodo org record 5749388 YaiwuNDP3cs Chapter 6 https zenodo org record 5749522 Yaiw 9DP3cs Chapter 8 https zenodo org record 5749586 Illustrated Religious Texts in the North of Europe, 1500-1800 Feike Dietz, Adam Morton, Lien Yai0RNDP3cs Roggen, 2016-12-05 In recent years many historians have argued that the Reformation did not as previously thought hamper the development of Northern European visual culture but rather gave new impetus to the production diffusion and reception of visual materials in both Catholic and Protestant milieus This book investigates the crosscurrents of exchange in the realm of illustrated religious literature within and beyond confessional and national borders and against the background of recent insights into the importance of on the one hand material as well as on the other hand sensual and emotional aspects of early modern culture Each chapter in the volume helps illuminate early modern religious culture from the perspective of the production of illustrated religious texts to see the book as object a point at which various vectors of early modern society met Case studies together with theoretical contributions shed light on the ways in which illustrated religious books functioned in evolving societies by analysing the use re use and sharing of illustrated religious texts in England France the Low Countries the German States and Switzerland Interpretations based on points of material interaction show us how the most basic binaries of the early modern world Catholic and Protestant word and image public and private were disrupted and negotiated in the realm of the illustrated religious book Through this approach the volume expands the historical appreciation of the place of imagery in post Reformation Europe Missions Begin with Blood Brandon Bayne, 2021-10-26 Winner 2022 Frank S and Elizabeth D Brewer Prize While the idea that successful missions needed Indigenous revolts and missionary deaths seems counterintuitive this book illustrates how it became a central logic of frontier colonization in Spanish North America Missions Begin with Blood argues that martyrdom acted as a ceremony of possession that helped Jesuits understand violence disease and death as ways that God inevitably worked to advance Christendom Whether petitioning superiors for support preparing to extirpate Native idolatries or protecting their conversions from critics Jesuits found power in their persecution

and victory in their victimization This book correlates these tales of sacrifice to deep genealogies of redemptive death in Catholic discourse and explains how martyrological idioms worked to rationalize early modern colonialism Specifically missionaries invoked an agricultural metaphor that reconfigured suffering into seed that when watered by sweat and blood would one day bring a rich harvest of Indigenous Christianity The Oxford Handbook of Borderlands of the Iberian World Danna A.
