John Buchan,2016-03-31 John Buchan 1st Baron Tweedsmuir GCMG GCVO CH PC 26 August 1875 11 February 1940 was a Scottish novelist historian and Unionist politician who served as Governor General of Canada the 15th since Canadian Confederation After a brief legal career Buchan simultaneously began his writing career and his political and diplomatic careers serving as a private secretary to the colonial administrator of various colonies in southern Africa He eventually wrote propaganda for the British war effort in the First World War **The Bookseller and the Stationery Trades' Journal**,1923 **Canadas of the Mind** , Constructions of 'the Jew' in English Literature and Society Bryan Cheyette,1995-10-26 Combining cultural theory discourse analysis and new historicism with readings of the works of major contemporary authors this study concludes that the Jew is characterized unstereotypically as the embodiment of uncertainty within English literature and society The Shaping of Turkey in the British Imagination, 1776-1923 David S. Katz,2016-09-23 This book is about the principal writings that shaped the perception of Turkey for informed readers in English from Edward Gibbon's positing of imperial Decline and Fall to the proclamation of the Turkish Republic 1923 illustrating how Turkey has always been a part of the modern British and European experience It is a great sweep of a story from Gibbon as standard textbook through Lord Byron the pro Turkish poet and Benjamin Disraeli the Romantic novelist of all things Eastern followed by John Buchan's Greenmantle First World War espionage fantasies and then Manchester Guardian reporter Arnold Toynbee narrating the fight for Turkish independence **The Edinburgh University Calendar** University of Edinburgh,1925 **The Journal of Education** ,1921 *Anxieties of Empire and the Fiction of Intrigue* Yumna Siddiqi,2008 Focusing on late nineteenth and twentieth century stories of detection policing and espionage by British and South Asian writers Yumna Siddiqi presents an original and compelling exploration of the cultural anxieties created by imperialism She suggests that while colonial writers use narratives of intrigue to endorse imperial rule postcolonial writers turn the generic conventions and topography of the fiction of intrigue on its head launching a critique of imperial power that

makes the repressive and emancipatory impulses of postcolonial modernity visible Siddiqi devotes the first part of her book to the colonial fiction of Arthur Conan Doyle and John Buchan in which the British regime's preoccupation with maintaining power found its voice The rationalization of difference pronouncedly expressed through the genre's strategies of representation and narrative resolution helped to reinforce domination and in some cases allay fears concerning the loss of colonial power In the second part Siddiqi argues that late twentieth century South Asian writers also underscore the state's insecurities but unlike British imperial writers they take a critical view of the state's authoritarian tendencies Such writers as Amitav Ghosh Michael Ondaatje Arundhati Roy and Salman Rushdie use the conventions of detective and spy fiction in creative ways to explore the coercive actions of the postcolonial state and the power dynamics of a postcolonial New Empire Drawing on the work of leading theorists of imperialism such as Edward Said Frantz Fanon and the Subaltern Studies historians Siddiqi reveals how British writers express the anxious workings of a will to maintain imperial power in their writing She also illuminates the ways South Asian writers portray the paradoxes of postcolonial modernity and trace the ruses and uses of reason in a world where the modern marks a horizon not only of hope but also of economic military and ecological disaster

The Caledoniad Catriona M.M. MacDonald, 2024-10-17 Why did Scots in the nineteenth and twentieth centuries know so little about their past and even less about those who controlled their history Is the historical narrative the only legitimate medium through which the past can be made known Are novelists and historians as far apart as convention has it In an age when history grounds any claims to national status these are important questions and they have implications for how Scottish history has evolved and how Scottish identity has been understood up to the present day Scottish history is not simply the distillation of Scotland's past authors shape what we know and how we judge our forebears This book investigates who decided which Scottish voices of the past would be heard in history's pages and which would ultimately be silenced It sketches a picture of a narrow and privileged cultural elite that responded belatedly to a more democratic age and only slowly embraced women writers and the interests of average Scots Integrating historical fiction and popular histories in its appreciation of the Scottish historical imaginary it most importantly tells the story of why despite the interests of politicians and others a truly British history has never emerged A brilliant scholarly yet highly readable work which enlarges our understanding of what Scottish history is and reinforces why it really matters James Robertson
