Haas,1997-02-10 Ever since Calvin wrote his Institutes of the Christian Religion admonishing the reader that it would not be difficult for him to determine what he ought especially to seek in Scriptures and to what end he ought to relate its contents scholars have endeavoured to

identify a doctrine or theme at the heart of his theology In his landmark book *The Concept of Equity in Calvin's Ethics* Guenther Haas concludes that the concept of equity is the theme of central importance in Calvin's social ethic in a similar way that union with Christ lies at the heart of his theology Haas provides in Part One a brief survey of the development of the concept of equity from Aristotle to the scholastics and as it was used by Calvin's contemporaries Haas also examines the influences on Calvin's thinking before and after his conversion to Protestantism with special attention paid to those influences that employed the concept of equity In the heart of this study Part Two *Equity in Calvin's Ethics* Haas presents a thorough exposition and analysis of the extensive role the concept of equity plays in Calvin's ethics demonstrating that Calvin's approach to ethics is not restricted to meditation of Scripture text This book will force a re-examination of approaches to Calvin studies that have not appreciated the historical context and background of Calvin's thought *The Concept of Equity in Calvin's Ethics* establishes that the Protestant tradition in Christian ethics founded by Calvin has a distinctive and vital contribution to make to Christian ethics as well as to the broader discussion of social ethics as they are practised today

Calvin's Christological understanding of the law in the light of his concept of *Christus mediator legis* It sets out the key points of the intellectual origins of Calvin's theology of the law especially his study of law Christ's mediation of the law in the Old and New Testaments and the relationship between the duplex office and the triplex use of the law A comparative study between Calvin and contemporary Reformers Luther Bucer Melancthon and Bullinger and Servetus is made in order to point up the unique feature of the coherence between Christology and soteriology in Calvin's theology of the law

Freedom for Obedience Donald G. Bloesch, 2002-04-15 The Christian ethic is an ethic that cannot be assimilated into the moral consensus of the wider community The way of the cross cannot be reconciled with the way of the world just as the gospel cannot be conjoined with the laws that gave stability to social order The thesis of this book is that human justice can never be a substitute for divine justification but it can be a sign and witness to the justifying grace of God in Jesus Christ Humanitarian works can never reach the heights of deeds of sacrificial love and mercy but they can point to this higher righteousness and awaken a thirst for it We must always be on guard against two perils the Scylla of legalism and rigorism and Charybdis of antinomianism An ethics of the divine commandment by uniting law and grace the imperative and the indicative shows how we can live the authentic Christian life in obedience to the highest which is not a law but a person not an ideal but the reality of the New Being the power of crucified love as we see this in Jesus Christ from *Freedom for Obedience*

Calvin's Doctrine of the State Mark J. Larson, 2009-01-08 Contemporary treatments of Calvin's political views often imply that he embraced a theocratic civil polity and that he was committed to holy war doctrine On the basis of the primary sources the first half of this volume argues that neither position is correct Calvin in his political thought maintained the superiority of a republic as a civil polity In addition he placed himself firmly within the medieval just war tradition that was established by Augustine of Hippo and later reaffirmed by Thomas Aquinas In terms of his commitment to classical just war teaching Calvin stood in continuity with Martin Luther even while he distanced himself from the holy war perspective of the Zurich Reformers Henry Bullinger and Peter Martyr Vermigli In the thinking of Calvin a war could only be authorized by the state not the church War had to be prosecuted with humanity and restraint and not in the tradition of the medieval crusade The second half of the book sets forth what Calvin actually believed on the matter of government and war Here we examine his teaching on parliamentary resistance to monarchical tyranny and the full dimensions of his commitment to justice of war categories Unlike Luther and Bullinger Calvin provided a parliamentary remedy for the perennial evil of tyranny With Vermigli and Theodore Beza siding with Calvin on this right a body of Reformed doctrine was established to which succeeding generations could appeal for teaching direction and justification for taking up arms It is clear that Calvin's political legacy is profoundly evident in the American Revolutionary War and in the constitutional determination for a republic in the United States of America Calvin's ecclesiastical republicanism as it came to fruition in Presbyterian church government was a powerful impetus toward the creation of republican institutions in civil government **The School of**

God Raymond A. Blacketer, 2007-04-03 Calvin's Old Testament Exegesis in Context Calvin in Context Jean Calvin the reformer and pastor of Geneva is renowned as one of the most important figures in what came to be known as the Reformed and Presbyterian branch of the Protestant Reformation Perhaps less well known is the fact that he devoted the bulk of his creative efforts to preaching lecturing and commenting on the Bible Calvin envisioned a program of reform in Geneva in which the Bible properly interpreted would shape the minds and morals of the Genevan populace The people of Geneva whom Calvin viewed as a precise spiritual reincarnation of the stiff-necked intractable Hebrews of the Old Testament were in need of some serious remedial education and it was his duty as their chief minister to provide the requisite training in doctrine and godliness Despite Calvin's emphasis on preaching and producing biblical commentaries however scholars have often portrayed him as a man of one book that one book being the Institutes of the Christian Religion In so doing they have produced a one-dimensional and consequently incomplete view of Calvin's theological work Scholars have tended to study Calvin's theology exclusively from the perspective of his Institutes without taking into account his work of biblical interpretation and preaching or the relationship of those efforts to the Institutes
