The set also includes hundreds of entries that reflect on the role Jesus has played in popular culture and contemporary vernacular religion perspectives that are not usually placed alongside theology. Through the encyclopedia students will see how artists writers philosophers church figures and others have imagined Jesus and been influenced by their perceptions of him. At the same time primary documents will encourage students to compare and contrast ideas and evaluate arguments that have arisen over 20 centuries.

### **Modern Music and After**

Paul Griffiths, 2011-02-16 Over three decades Paul Griffiths's survey has remained the definitive study of music since the Second World War. This fully revised and updated edition re-establishes *Modern Music and After* as the preeminent introduction to the music of our time. The disruptions of the war and the struggles of the ensuing peace were reflected in the music of the time in Pierre Boulez's radical reformation of compositional technique and in John Cage's development of zen music in Milton Babbitt's settling of the serial system and in Dmitry Shostakovich's unsettling symphonies in Karlheinz Stockhausen's development of electronic music and in Luigi Nono's pursuit of the universally human in Iannis Xenakis's view of music as sounding mathematics and in Luciano Berio's consideration of it as language. The initiatives of these composers and their contemporaries opened prospects that haven't yet stopped unfolding. This constant expansion of musical thinking since 1945 has left us with no singular history of music. Griffiths's study accordingly follows several different paths showing how and why they converge and diverge. This new edition of *Modern Music and After* discusses not only the music of the fifteen years that have passed since the previous edition but also the recent explosion of scholarly interest in the latter half of the twentieth century. In particular the book has been expanded to incorporate the variety of responses to the modernist impasse experienced by composers of the 1980s and 1990s. Griffiths then moves the book into the twenty first century as he examines such highly influential composers as Helmut Lachenmann and Salvatore Sciarrino. For its breadth wealth of detail and characteristic wit and clarity the third edition of *Modern Music and After* is required reading for the student and the enquiring listener.

**Theology, Music and Time** Jeremy Begbie, 2000-07-24 Demonstrates the unique and important role that music plays in theology.

Communion, Covenant, and Creativity Brian Haymes,Richard L. Kidd,2020-03-16 This book is a follow up to a previous volume by the same three authors Baptists and the Communion of Saints A Theology of Covenanted Disciples though it does not require familiarity with the first study The present book offers new perspectives on belief in the communion of saints by interpreting it through the idea of covenant with its two dimensions of relations with God and with each other Giving attention to the creative arts of painting music poetry and story writing the authors explore indications of a hidden communion of saints through embodiment memory and connectivity Included are studies of the work of visual artists Paul Nash and Mark Rothko musicians John Tavener Elgar and Brahms and writers Thomas Hardy T S Eliot and James Joyce Theological reflection on these hints of communion offers a vision of an ongoing communion of prayer with the saints alive and dead which does not depend on a dualistic idea of a disembodied soul existing after death but which affirms the Christian tradition of the resurrection of the body Communion covenant and creativity are thus linked to develop a Christian aesthetics
