## **John The Fearless:**

**John the Fearless** Richard Vaughan, 2002 The aims and personality of the second duke are illuminated and the development of the Burgundian state during his ducal reign 1404-1419 charted His supposed infernal pact with the English and his assassination are examined his activities in France are studied as he exploited French resources for the benefit of Burgundy John the Fearless second Duke of Burgundy is one of the more dramatic and puzzling characters among medieval rulers He inherited the newly created duchy from his father and defended and developed its power ruthlessly during his ducal reign 1404-1419 In the process he allied himself with the English party in France with whom he was supposed to have made an infernal pact and came to dominate French politics his manoeuvres led directly to his assassination on the bridge of Montreaux in the presence of Charles dauphin of France who may have been personally involved Indeed the main theme of the book is John the Fearless's activities in France which are seen in the light of the continued need to exploit French resources for the benefit of Burgundy John also continued to build on the administrative and financial structures created by his father which were the mainstay of the ducal power and he had to deal with the restlessness of the Flemish towns only recently made part of the Burgundian state More than any other Burgundian ruler it is John's personality which determines the course of events violent and unscrupulous one quality which John the Fearless completely lacked was prudence He was a masterful opportunist who acted impulsively with speed and decision on the spur of the moment In the end it was one of his own favoured weapons political assassination which was turned against him

The Valois Robert Knecht, 2007-04-01 The house of Valois ruled France for 250 years playing a crucial role in its establishment as a major European power This extremely well written and structured book will appeal to the general reader

*The Artillery of the Dukes of Burgundy, 1363-1477* Robert Douglas Smith, Kelly DeVries, 2005 A major new exploration of the history and development of gunpowder weapons in the 15th century based on the artillery of the Dukes of Burgundy The four Valois Dukes of Burgundy created in little more than a century a fabulously wealthy and independent state Their centralised control and chancellery have bequeathed to us a vast treasure trove of documents including accounts and inventories of the Masters of the artillery under the later Dukes Although many of these were extracted and transcribed in the late nineteenth century modern historians have largely ignored their unprecedented insights into fifteenth century guns and their use When Charles the Bold the last Valois Duke took on the combined Swiss confederate forces in 1476 he lost not just the battles and his personal fortune but much of his artillery train as well Of the dozens of cannons captured at least 25 pieces survive in Swiss museums The documents that survive from the Valois state give us almost for the first time in medieval Europe the ability to see the course of history in a period when Europe was undergoing some of the most profound changes before the 20th century The Artillery of the Dukes of Burgundy is the first attempt to combine all these sources bringing new and fresh insights into the development and use of artillery in the fifteenth century Moreover this is the first

modern study of medieval cannon one of the most important discoveries of the post classical world KELLY DeVRIES has authored numerous books and articles on medieval warfare ROBERT DOUGLAS SMITH formerly Head of Conservation in the Royal Armouries Tower of London is an acknowledged expert on medieval artillery This study is the first major fruit of their combined researches      **Reputation and Representation in Fifteenth Century Europe** Douglas L. Biggs, Sharon D. Michalove, Albert Compton Reeves, Richard III Society. American Branch, 2004-01-01 This volume deals with political military social architectural and literary aspects of fifteenth century England The essays contained in the volume range across the century from some of the leading scholars currently working in the period With contributions by Mark Arvanigian Kelly DeVries Sharon Michalove Harry Schnitker Charlotte Bauer Smith Candace Gregory Helen Maurer Karen Bezella Bond E Kay Harris Daniel Thierry John Leland Peter Fleming Virginia K Henderson      **John the Fearless** Anastasiya Baydachenko, 2020-09-02 John the Duke of Burgundy was an unbelievably cunning selfish and suspicious person who trusted nobody so he would always carry a weapon and under his clothes he wore chain mail He feared his parents he hated his wife he disrespected his blood relatives This fear had consumed him completely This fear turned him into a hypocrite a traitor and a murderer Based on historical facts and accounts of the Duke of Burgundy ironically nicknamed John the Fearless      **John the Fearless, Duke of Burgundy** Leslie M. Siegel, 1971      **The Mongol Archive in Late Medieval France** Mark Cruse, 2025-02-15 The Mongol Archive in Late Medieval France is the first comprehensive study of contact between France and the Mongols in the late Middle Ages As these realms expanded across Eurasia the French through crusade and settlement the Mongols through conquest their encounters altered each other's understanding of the world and their place in it The Mongol influence on French culture is visible in what Mark Cruse calls the Mongol archive a wide range of materials including chronicles crusade treatises encyclopedias manuscript illuminations maps romances and travel accounts revealing how the French court made sense of a people previously unknown to the European intellectual tradition Cruse mines this archive of Franco Mongol contact to reassess France's place in the continental history of medieval Eurasia By comparing the French and Mongol courts Cruse shows how their similarities allowed meaningful communication between them and highlights the surprising connections diplomatic intellectual and genealogical across vast distances The library of King Charles V r 1364 1380 one of the largest in medieval Europe is a monument to the richness of these encounters which anticipate the global interconnectedness of the modern world Ultimately the innovative approach in The Mongol Archive in Late Medieval France toward French conceptions of and relations with the Mongols demonstrates how a global perspective transforms our understanding of the medieval world      *The Observations of Gilles le Bouvier* Gideon Brough, Sophie Patrick, 2024-09-19 Translated from the medieval French this book is a landmark English language version of the work of Gilles le Bouvier As the senior herald to King Charles VII the monarch on the French throne as they advanced to victory in the Hundred Years War between England France and their allies Gilles le Bouvier was close to the king during a decisive

formative period in France's history as well as being a well known figure from the period. The Berry Herald's Impressions of Europe thus delivers a rare glimpse of a singular medieval worldview offered through the constrained voice of a skilled diplomat carefully and occasionally sharing his opinions to audiences composed of his social superiors. During his lifelong career as a messenger and a diplomat in Charles's service, Gilles le Bouvier, known as The Berry Herald, travelled far and wide on his master's behalf. This translated work is a compilation of his observations as he moved around Western Europe, the Mediterranean states and the Black Sea region. Throughout the text, Gilles le Bouvier assessed or commented on the lands encompassed by his extensive travels, discussed the peoples he claimed to have encountered, from the honourable Turks to the bad Catholics of southern Italy, surveyed the military capabilities of France's neighbours, allies, enemies and neutral states. Expertly introduced and contextualised by Gideon Brough and Sophie Patrick, this book provides a compelling and unique historical source for understanding life in late medieval Europe through the eyes of someone who lived it.

In this volume from the Fathers of the Faith series, you'll be introduced to Saint John Chrysostom. Who was he? What did he teach? Where and when did he live? Why is he an important figure in the history of the Church? In this accessible, bite-sized introduction, renowned author, speaker, and host Mike Aquilina gives an overview of John's life in Antioch and then Constantinople in the fourth and fifth centuries. Known to history as golden-mouthed because of his eloquent preaching, he is one of the most celebrated preachers of sermons in the history of the world and was also a prolific author. A Doctor of the Church, Saint John Chrysostom is remembered for his ascetical life and his courage. In the East, he is honored among the Three Holy Hierarchs. In the West, he is known as the Eucharistic Doctor. As archbishop of Constantinople, he was a figure of controversy, always in the middle of an argument with the powerful. He was a great figure in his time and an even greater one after.
