**Fixing Patriarchy** D. Hall,1996-09-25 Fixing Patriarchy Feminism and Mid Victorian Male Novelists explores representations of monstrous women in mid Victorian literature tracing anxious male responses to the feminist movement of the era It argues that Victorian patriarchy was a fluid theory and set of practices through which Victorian men attempted unsuccessfully to fix gender definitions and their own positions of power In Victorian novels written by men the thorough instability of contemporary conceptions of both masculinity and femininity is revealed as an entire society struggled with new forms of self awareness and new threats to traditional social structures and systems of belief **Patriarchy and Its Discontents** Joanna Devereux, 2003 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company

<u>Imagining Soldiers and Fathers in the Mid-Victorian Era</u> Susan Walton, 2017-11-30 Beginning with the premise that women's perceptions of manliness are crucial to its construction. The author focuses on the life and writings of Charlotte Yonge as a prism for understanding the formulation of masculinities in the Victorian period Yonge was a prolific writer whose bestselling fiction and extensive journalism enjoyed a wide readership The author situates Yonge's work in the context of her family connections with the army showing that an interlocking of worldly and spiritual warfare was fundamental to Yonge s outlook For Yonge all good Christians are soldiers and Walton argues persuasively that the medievalised discourse of sanctified violence executed by upright moral men that is often connected with late nineteenth century Imperialism began earlier in the century and that Yonge's work was one major strand that gave it substance Of significance Yonge also endorsed missionary work which she viewed as an extension of a father s duties in the neighborhood and which was closely allied to a vigorous promotion of refashioned Tory paternalism The author's study is rich in historical context including Yonge's connections with the Tractarians the effects of industrialization and Britain's Imperial enterprises Informed by extensive archival scholarship Walton offers important insights into the contradictory messages about manhood current in the mid nineteenth century through the works of a major but undervalued Victorian author The Marriage of Minds Rachel Ablow, 2007 The Marriage of Minds examines the implications of the common Victorian claim that novel reading can achieve the psychic ethical and affective benefits also commonly associated with sympathy in married life Through close readings of canonical texts in relation to the histories of sympathy marriage and reading The Marriage of Minds begins to fill a long standing gap between eighteenth century philosophical notions of sympathy and twentieth century psychoanalytic concepts of identification It examines the wide variety of ways in which novels were understood to educate or reform readers in the mid nineteenth century Finally it demonstrates how both the form of the Victorian novel and the experience supposed to result from that form were implicated in ongoing debates about the nature purpose and law of marriage Problem Novels Anna Maria Jones, 2007 In Problem Novels Anna Maria Jones argues that far from participating invisibly in disciplinary regimes many Victorian novels articulate sophisticated theories about the role of the novel in the formation of the self In fact

it is rare to find a Victorian novel in which questions about the danger or utility of novel reading are not embedded within the narrative In other words one of the stories that the Victorian novel tells over and over again is the story of what novels do to readers This story occurs in moments that call attention to the reader's engagement with the text In chapters on Wilkie Collins Anthony Trollope and George Meredith Jones examines problem novels that is novels that both narrate and invite problematic reading as part of their theorizing of cultural production Problem Novels demonstrates that these works posit a culturally embedded sensationally susceptible reader and at the same time present a methodology for critical engagement with cultural texts Thus the novels theorize paradoxically a reader who is both unconsciously interpellated and critically empowered And Jones argues it is this paradoxical construction of the unconscious critical subject that re emerges in the theoretical paradigms of Victorian cultural studies scholarship Indeed as Problem Novels shows Victorianists attachments to critical detective work closely resemble the sensational attachments that we assume shaped Victorian novel readers BOOK JACKET The Oxford Handbook of Victorian Literary Culture Juliet John, 2016-07-14 The Oxford Handbook of Victorian Literary Culture is a major contribution to the dynamic field of Victorian studies This collection of 37 original chapters by leading international Victorian scholars offers new approaches to familiar themes including science religion and gender and gives space to newer and emerging topics including old age fair play and economics Structured around three broad sections Ways of Being Identity and Ideology Ways of Understanding Knowledge and Belief and Ways of Communicating Print and Other Cultures the volume is sub divided into nine sub sections each with its own lead essay on subjectivity politics gender and sexuality place and race religion science material and mass culture aesthetics and visual culture and theatrical culture The collection like today s Victorian studies is thoroughly interdisciplinary and yet its substantial Introduction explores a concern which is evident both implicitly and explicitly in the volume s essays that is the nature and status of literary culture and the literary from the Victorian period to the present The diverse and wide ranging essays present original scholarship framed accessibly for a mixed readership of advanced undergraduates graduate students and established scholars

may be an aspect of canonicity Beyond Arthurian Romances J. Palmgren, L. Holloway, 2005-06-03 Leaving the traditional focus on Arthurian romance and Gothic tales the essays in this collection address how the Victorians looked back to the Middle Ages to create a sense of authority for their own ideas in areas such as art religion gender expectations and social services This book will interest specialists in the Victorian period from various fields and will also be a welcome addition to any library serving substantial humanities divisions Because of the interdisciplinary nature of the essays this collection would be useful in a wide range of humanities classes beyond the traditional literature class Advances in Charles Dickens Studies R. Patten, J. Bowen, 2005-11-30 Palgrave Advances in Charles Dickens Studies is a comprehensive and authoritative guide to the study of one of the most important Victorian novelists Its editors Robert L Patten and John Bowen are leading authorities on Dickens and the international team of contributors they have assembled contains some of the most exciting critics of nineteenth century fiction writing today. The book covers the whole range of Dickens s writing and criticism about it including biographical theoretical and historical approaches It is based on up to the minute research and written in a lively and engaging way and will be essential reading for all students and scholars of this W.M.Thackery and the Mediated Text Richard Pearson, 2017-11-01 This title was first published in 2000 Thackeray's minor writings remain caught in a debate about what constitutes literature and whether magazine writing and journalism might be construed as such This debate was present during the inception of the mass periodical press in the 1830s when Thackeray began his career and forms part of the context of reasoning within and techniques of Thackeray s work Throughout his career Thackeray was enmeshed in critical arguments about periodicals novels realism and commercialism He was himself both and neither journalist and literary artist and was at once a product of and critical of emerging writing practices This book argues that an understanding of Thackeray's writings for periodicals and the literary and commercial context of these is central to an understanding of his literary achievement Focusing principally on the foundational part of his career from 1833 1847 but relating this to the novels particularly Pendennis and The Adventures of Philip and the Cornhill Magazine of the 1860s the book explores Thackeray's ambiguous response to the burgeoning periodical press and considers his negotation and critique of the market place through a variety of publishing media

Queering the Subversive Stitch Joseph McBrinn,2021-04-08 The history of men's needlework has long been considered a taboo subject This is the first book ever published to document and critically interrogate a range of needlework made by men It reveals that since medieval times men have threaded their own needles stitched and knitted woven lace handmade clothes as well as other kinds of textiles and generally delighted in the pleasures and possibilities offered by all sorts of needlework Only since the dawn of the modern age in the eighteenth and the nineteenth centuries did needlework become closely aligned with new ideologies of the feminine Since then men's needlework has been read not just as feminising but as queer In this groundbreaking study Joseph McBrinn argues that needlework by male artists as well as

anonymous tailors sailors soldiers convalescents paupers prisoners hobbyists and a multitude of other men and boys deserves to be looked at again Drawing on a wealth of examples of men's needlework as well as visual representations of the male needleworker in museum collections from artist s papers and archives in forgotten magazines and specialist publications popular novels and children's literature and even in the history of photography film and television he surveys and analyses many of the instances in which needlemen have contested resisted and subverted the constrictive ideals of modern masculinity This audacious original carefully researched and often amusing study demonstrates the significance of needlework by men in understanding their feelings agency identity and history Allegories of Union in Irish and English Writing, 1790-1870 Mary Jean Corbett, 2000-09-14 In this book Mary Jean Corbett explores fictional and non fictional representations of Ireland's relationship with England throughout the nineteenth century Through postcolonial and feminist theory she considers how cross cultural contact is negotiated through tropes of marriage and family and demonstrates how familial rhetoric sometimes works to sustain sometimes to contest the structures of colonial inequality Analyzing novels by Edgeworth Owenson Gaskell Kingsley and Trollope as well as writings by Burke Carlyle Engels Arnold and Mill Corbett argues that the colonizing imperative for reforming the Irish in an age of imperial expansion constitutes a largely unrecognized but crucial element in the rhetorical project of English nation formation By situating her readings within the varying historical and rhetorical contexts that shape them she revises the critical orthodoxies surrounding colonial discourse that currently prevail in Irish and English studies and offers a fresh perspective on important aspects of Victorian culture
