Growing Food at Home Dennis DeLaurier, 2024-03-24 INTRODUCTION Why I wrote this book I have been growing my food for many years As I write this book it is March 11 2024 As I grow and purchase food for my family I can see a food shortage in the U S in the coming years of 2024 2025 So this book is about food security and for those who never grew any of their food No matter where you live you can grow your food If prices keep getting inflated to the point that you can no longer afford it it won t matter if it is piled high There are real food supply problems facing the global population If you don t believe any of this then ask yourself why have food prices risen so fast lately One thing is certain the US is much better off than the rest of the global community as North America grows much of its food And yes the US is part of North America Where the real problems lie is in the rest of the world where there are real climate induced shortages The climate has NOTHING to do with CO2 2024 2025 may see real starvation in some locations as globally there will not be enough food to go around We are now starting to see the same climate problems devastating the UK and EU here in the US Most western parts of the US are seeing drought and it seems to be moving east This drought has caused the Mississippi River to dry up and completely stop barge traffic and commodity deliveries The author of this book lives in Central Texas and it was very hot and dry from the start of spring and has not let up much in late October Almost all the cotton south of here failed for lack of rain If I had to survive on the food I produced this year it would have been difficult What the heat and the drought didn t get the bugs especially grasshoppers did So what is it all about in this book GROWING FOOD AT HOME Over and over I will say It s time to grow your own food or Start a garden The answer is probably 99% or more of people alive in the US have never

missed a meal For almost the last 90 years the US has enjoyed just about anything it ever needed or wanted So the feeling is that it s just the way things are and they will never change THAT IS ABOUT TO CHANGE *Quick Bibliography Series*
,1976 *Homegrown Herb Garden* Lisa Baker Morgan,Ann McCormick,2015-01-15 Learn which herbs are perfect for you and your cooking style then follow these instructions to grow harvest and store them right in your own kitchen
