Van Ness, Karen Heetderks Strong, 2010-06-25 Restoring Justice An Introduction to Restorative Justice offers a clear and convincing explanation of restorative justice a movement within criminal justice with growing worldwide influence It explores the broad appeal of this new vision and offers a brief history of its development The book presents a theoretical foundation for the principles and values of restorative justice and develops its four cornerpost ideas of encounter amends inclusion and reintegration After exploring how restorative justice ideas and values may be integrated into policy and practice it presents a series of key issues commonly raised about restorative justice summarizing various perspectives on each Van Ness and Strong are renowned scholars in the field of restorative justice Appendices include a case study to help illustrate the concepts of the text and internet resources on topics in restorative justice

Victims and Restorative Justice Inge Vanfraechem, Daniela Bolívar Fernández, Ivo Aertsen, 2015-05-15 Restorative justice aims to address the consequences of crime by encouraging victims and offenders to communicate and discuss the harm caused by the crime that has been committed In the majority of cases restorative justice is facilitated by direct and indirect dialogue between victims and offenders but it also includes support networks and sometimes involves professionals such as police lawyers social workers or prosecutors and judges In theory the victim is a core participant in restorative justice and the restoration of the harm is a first concern In practice questions arise as to whether the victim is actively involved in the process what restoration may entail whether there is a risk of secondary victimisation and whether the victim is truly at the

heart of the restorative response or whether the offender remains the focal point of attention Using a combination of victimological literature and empirical data from a European research project this book considers the role and the position of the victim in restorative justice practices focusing on legislative organisational and institutional frameworks of victim offender mediation and conferencing programmes at a national and local level as well as the victims personal needs and experiences The findings are essential reading for academics and students engaged in the study of justice victimology and law The publication will also be valuable to policymakers and professionals such as social workers lawyers and mediators

Justice for Victims before the International Criminal Court Luke Moffett, 2014-06-27 Many prosecutors and commentators have praised the victim provisions at the International Criminal Court ICC as justice for victims which for the first time include participation protection and reparations This book critically examines the role of victims in international criminal justice drawing from human rights victimology and best practices in transitional justice Drawing on field research in Northern Uganda Luke Moffet explores the nature of international crimes and assesses the role of victims in the proceedings of the ICC paying particular attention to their recognition participation reparations and protection The book argues that because of the criminal nature and structural limitations of the ICC justice for victims is symbolic requiring State Parties to complement the work of the Court to address victims needs In advancing an innovative theory of justice for victims and in offering solutions to current challenges the book will be of great interest and use to academics practitioners and students engaged in victimology the ICC transitional justice or reparations
