Justice In General:

Liberation Theology after the End of History Daniel Bell, 2006-09-07 Daniel Bell assesses the impact of Christian resistance to capitalism in Latin America and the implications of theological debates that have emerged from this. He uses postmodern critical theory to investigate capitalism's effect upon human desire and the Church's response to it in a thorough account of the rise, failure, and future prospects of Latin American liberation theology. *Justice After War* David Chiwon Kwon, 2023-05-12 *Justice After War* is aimed especially to both undergraduate and graduate students as well as the general audience who want to understand the significance of a recent development within the just war tradition, namely the increasing attention given to the category of *jus post bellum* postwar justice and peace. While examining the interrelated challenges of moral and social norms in both political and legal domains as well as church practices, this work proposes an innovative methodology for linking theology, ethics, and social science so that the ideal and the real can inform each other in the ethics of war and peacebuilding. The main task of this project then is to identify what the author views as three key themes of *jus post bellum* and three practices that are essential to implementing *jus post bellum* immediately after a war: just policing, just punishment, and just political participation. David Kwon endeavors to challenge the view of those who suggest that reconciliation, mainly political reconciliation, is the foremost ambition of *jus post bellum*. Instead, he attempts to justify the proposition that achieving just policing, just punishment, and just political participation are essential to building a just peace, a peace in which the fundamental characteristic must be human security. It thus demonstrates that human security is an oft-neglected theme in the recent discourse of moral theologians and that a more balanced understanding of *jus post bellum* will direct attention to the elements composing human security in a postwar context.

Oyakhire,2023-06-30 This book examines the concept of witness protection which is still at an early developmental stage in
several African countries including Nigeria from a legal and institutional perspective Recent developments in Nigeria
highlight the need to clarify legal and conceptual issues within the existing legal framework for protecting witnesses Using
the Nigerian case study the book illustrates some obscurities inherent in the concept of witness protection These are
highlighted around five critical areas the definition of witness protection the scope of beneficiaries requiring protection the
nature of crimes necessitating protection the nature of protective measures and the administrative control of witness
protection Specifically this book draws from the existing literature and practices of witness protection and adopts two
distinct perspectives the criminal justice perspectives and human rights perspectives as heuristic tools for analysing the
concept and to separate the disparate influences that shape how it is construed These distinctions are utilised throughout the
book as an integrated way of conceptualising the concept of witness protection By discussing the practice of witness
protection within the Nigerian context the book contributes to African conversations on the topic of witness protection The
clarifications made in this book are utilised in making normative proposals for developing a legal framework for witness
protection in Nigeria They are also useful for other African countries interested in developing a witness protection
framework as part of criminal justice reform This book will serve as a reference point for legal scholars researchers
academics postgraduate students and policy makers interested in the concept of witness protection It would also be useful
for courses concerned with comparative criminology where there is an interest in developments in the Global South
