Justin O'Brien Christine France, 1997 Justin O'Brien once said A painting should have a reality of its own This overview of the artist's life and work presents an opportunity to examine this statement following a career of sixty years of painting and drawing O'Brien's belief in the specific reality of painting was emphasised by his continued reference to art of the past in both style and theme while in his more recent naturalistic works he set up a debate between things intended to be real and painted versions of reality The recombining of motifs from his own previous works stressed the reality of the painting compared to that of the naturalistic world Justin O'Brien died in Rome in January 1996 This fully revised and expanded edition discusses the works in the context of the artist's life and the times in which they were produced Also included is a lengthy interview with the painter which throws light on his artistic influences and on his creative process Seeing Christ in Australia Since 1850 Kerrie Handasyde, Sean Winter, 2024-09-03 This book presents cultural representations of Christ embedded in the imagination and the contested myths of Australian life The essays attest to the variety and subtlety of neglected or unspoken representations of Christ in Australia In a land that has often declared itself secular or post Christian this volume looks into the Australian imagination in between the sacred and secular to see Christ in Australia *Parergon*, 1996

Proust's Gods Margaret Topping, 2000 Proust's Gods explores two interweaving networks of imagery which are vital to key thematic areas of Proust's fictional construct These are Christian and biblical and classical and mythological figures of speech Proust's metaphorical vision plucks legends and figures drawn from these sources out of their original settings and thrusts them with all their persistent resonances into new and often unlikely contexts Yet these deliberately incongruous juxtapositions and the sliding scale of tones they produce are also strangely apt and amongst the richest sources of humorous effects in the novel The study also analyses the increasing sophistication of Proust's imagery from his earliest writings onwards and re-evaluates the role of

the largely ignored Correspondance in his development as a writer Considered as texts rather than biographical documents
the letters are identified as a flexible stylistic stamping ground and an arena for experimentation for later works
