The Oxford Handbook of Music and Medievalism Stephen C. Meyer, Kirsten Yri, 2020-03-02

The Oxford Handbook of Music and Medievalism provides a snapshot of the diverse ways in which medievalism the retrospective immersion in the images sounds narratives and ideologies of the European Middle Ages powerfully transforms many of the varied musical traditions of the last two centuries Thirty three chapters from an international group of scholars explore topics ranging from the representation of the Middle Ages in nineteenth century opera to medievalism in contemporary video game music thereby connecting disparate musical forms across typical musicological boundaries of chronology and geography While some chapters focus on key medievalist works such as Orff's *Carmina Burana* or Peter Jackson's *Lord of the Rings* films others explore medievalism in the oeuvre of a single composer e.g. Richard Wagner or Arvo

Port or musical group e.g. Led Zeppelin. The topics of the individual chapters include both well known works such as John Boorman's film *Excalibur* and also less familiar examples such as Eduard Lalo's *Le Roi d'Ys*. The authors of the chapters approach their material from a wide array of disciplinary perspectives including historical musicology, popular music studies, music theory and film studies, examining the intersections of medievalism with nationalism, romanticism, ideology, nature, feminism or spiritualism. Taken together, the contents of the Handbook develop new critical insights that venture outside traditional methodological constraints and provide a capstone and point of departure for future scholarship on music and medievalism.

Tending the Garden Jennifer Hornyak Wojciechowski, 2025-02-11. In this era of disenchantment and religious decline, *Tending the Garden* introduces Christians to a rich and vibrant history of mystical prayer and relationship with God in order to spark curiosity and inspire a deeper spiritual life. The book serves as an accessible introduction to and thematic historical overview of Christian mysticism.

The Friendship Project Michele Faehnle, Emily Jaminet, 2017-09-22. Michele Faehnle and Emily Jaminet are busy wives, mothers, and volunteers. They are also friends, Catholic speakers, and the dedicated coauthors of *Divine Mercy for Moms*, which continues to inspire women to come together to pray, study, and live in friendship around the Divine Mercy devotion. In the midst of their active lives, Faehnle and Jaminet found themselves missing their old friends and searching for new ones. They also realized that they needed to continually work to develop deep, meaningful relationships that would allow them to be themselves, to care for others and be cared for, and to deepen their Catholic faith. In *The Friendship Project*, Faehnle and Jaminet explore the cardinal and theological virtues with an eye toward friendship. Focusing on faith, hope, love, prudence, gratitude, loyalty, generosity, and prayerfulness, they help us answer questions such as: What does it mean to be women of hope, and how does that change our lives and make us more compassionate friends during difficult times? How does prayerfulness teach us how to listen to and talk with both God and our friends, which helps us reach out to those we love? Faehnle and Jaminet answer these questions and more by employing Church teaching and telling us stories of their own friendships and those from the lives of saints and biblical women, including the Blessed Virgin Mary and St. Elizabeth, St. Thérèse of Lisieux and her sister, Servant of God Lúcia and Sts. Perpetua and Felicity. Not only will you be drawn closer to friends, both new and old, but you'll also be reminded how these friendships and the virtues you practice to nurture them draw you closer to God. Prayers, discussion questions, and a study guide make this a perfect resource for women's groups.

Multilingualism in the Middle Ages and Early Modern Age Albrecht Classen, 2016-09-12. Bilingualism and multilingualism are of great interest for contemporary linguists since this phenomenon deeply reflects on language acquisition, language use, and sociolinguistic conditions in many different circumstances all over the world. Multilingualism was, however, certainly rather common already, if not especially in the premodern world. For some time now, research has started to explore this issue through a number of specialized studies. The present volume continues with the investigation of multilingualism through a collection of case studies focusing on important examples in medieval and early modern societies.

that is in linguistic and cultural contact zones such as England Spain the Holy Land but also the New World As all contributors confirm the numerous cases of multilingualism discussed here indicate strongly that the premodern period knew considerably less barriers between people of different social classes cultural background and religious orientation But we also have to acknowledge that already then human communication could fail because of linguistic hurdles which prevented mutual understanding in religious and cultural terms *Entheogens and the Development of Culture* John A.

Rush,2013-07-30 *Entheogens and the Development of Culture* makes the radical proposition that mind altering substances have played a major part not only in cultural development but also in human brain development Researchers suggest that we have purposely enhanced receptor sites in the brain especially those for dopamine and serotonin through the use of plants and fungi over a long period of time The trade off for lowered functioning and potential drug abuse has been more creative thinking or a leap in consciousness Experiments in entheogen use led to the development of primitive medicine in which certain mind altering plants and fungi were imbibed to still fatigue pain or depression while others were taken to promote hunger and libido Our ancestors selected for our neural hardware and our propensity for seeking altered forms of consciousness as a survival strategy may be intimately bound to our decision making processes going back to the dawn of time Fourteen essays by a wide range of contributors including founding president of the American Anthropological Association s Anthropology of Religion section Michael Winkelman PhD Carl A P Ruck PhD Boston University professor of classics and an authority on the ecstatic rituals of the god Dionysus and world renowned botanist Dr Gaston Guzman member of the Colombian National Academy of Sciences and expert on hallucinogenic mushrooms demonstrate that altering consciousness continues to be an important part of human experience today Anthropologists cultural historians and anyone interested in the effects of mind altering substances on the human mind and soul will find this book deeply informative and inspiring *Mystics* William Harmless,2008 In *Mystics* William Harmless S J introduces readers to the scholarly study of mysticism He explores both mystics extraordinary lives and their no less extraordinary writings using a unique case study method centered on detailed examinations of six major Christian mystics Thomas Merton Bernard of Clairvaux Hildegard of Bingen Bonaventure Meister Eckhart and Evagrius Ponticus Rather than presenting mysticism as a subtle web of psychological or theological abstractions Harmless s case study approach brings things down to earth restoring mystics to their historical context *Women in Western Intellectual Culture, 600-1500* P. Ranft,2003-01-03 Western intellectual tradition has long been viewed as an exclusive male bastion but *Women in Western Intellectual Culture 600 1500* proves that this thesis is no longer tenable By identifying and analyzing the intellectual writings and activities of women throughout the centuries this study the first of two volumes documents a level of participation in intellectual matters that will surprise many readers The quality and quantity of these contributions show that women s voices deserve more attention in intellectual history **The Massacre of the Innocents** Warren Carter,2023-01-30 In *The Massacre of the Innocents* Studies in the

Cultural Afterlife of a Gospel Scene Warren Carter examines some fifty instances of the interpretation of the Matthean Massacre of the Innocents Matt 2 16 18 He emphasizes the agency of interpreters who in their particular contexts and media think with the shocking Matthean scene to address the often tragic circumstances of their audiences He argues throughout that the structure of the Gospel scene facilitates this thinking with The scene is structured as a triad of power relations with a tyrant Herod victims infants and parents and violent means of tyranny the massacre Interpreters use this triad of power relations to identify tyrant s victims and means of tyranny in their own situations Carter illustrates the use of this triad of power relations across two millennia in numerous socio political contexts and media as diverse as sermons images poems and hymns dramas and festivals films novels Christmas carols and Children s Bibles Women Who Changed the World Candice Goucher,2022-01-24 This indispensable reference work provides readers with the tools to reimagine world history through the lens of women s lived experiences Learning how women changed the world will change the ways the world looks at the past Women Who Changed the World Their Lives Challenges and Accomplishments through History features 200 biographies of notable women and offers readers an opportunity to explore the global past from a gendered perspective The women featured in this four volume set cover the full sweep of history from our ancestral forbearer Lucy to today s tennis phenoms Venus and Serena Williams Every walk of life is represented in these pages from powerful monarchs and politicians to talented artists and writers from inquisitive scientists to outspoken activists Each biography follows a standardized format recounting the woman s life and accomplishments discussing the challenges she faced within her particular time and place in history and exploring the lasting legacy she left A chronological listing of biographies makes it easy for readers to zero in on particular time periods while a further reading list at the end of each essay serves as a gateway to further exploration and study High interest sidebars accompany many of the biographies offering more nuanced glimpses into the lives of these fascinating women *Women in the Biological Sciences* Carol A.
