SNI National Criminal Justice Reference Service (U.S.),1980 **The Contexts of Juvenile Justice Decision Making**

Michael J. Leiber, 2012-02-01 An in depth examination of the contextual nature of decision making and the causes of disproportionate minority confinement in four relatively homogenous juvenile courts in Iowa this book explores the subjective social psychological processes of juvenile court officers and the factors that influence those processes Iowa although a state with a predominantly white population has one of the highest minority incarceration rates for juveniles Michael J Leiber focuses on the relationships between adherence to correctional orientations such as retribution and rehabilitation and decision makers views concerning race crime family and respect for authority with judgments and differential outcomes for youth Quantitative and qualitative methodologies are used to determine the extent to which correctional ideologies and decision makers stereotyping of minorities are fueled by a wide range of contingencies the impact of case processing and outcomes of whites African Americans and Native Americans and how it varies by jurisdiction **Reinventing Juvenile Justice** Barry Krisberg, James Austin, 1993-04-28 A painful view of the current state of juvenile justice in the United States is presented in this volume which asks whether the children s court has outlived its usefulness As pressure builds to handle more children in adult courts and to consign them to adult prisons the authors explore alternatives to the custodial treatment of juveniles and suggest how the juvenile justice system can and should be reformed *Juvenile Justice: A Social, Historical and Legal Perspective* , Handbook of Justice Research in Law Joseph Sanders, V. Lee Hamilton, 2007-05-08 Justice a word of great simplicity and almost frightening scope When we were invited to edit a volume on justice in law we joked about the small topic we had been assigned Often humor masks fear and this was certainly one of those times Throughout the project we found daunting the task of covering even a fraction of the topics that usually fall under the umbrella of justice research in law Ultimately the organization of the book emerged from the writing of it Our introductory chapter provides a road map to how the topics weave together but as is so often the case it was written last not first It was only when we had chapters in hand that we began to see how the many strands of justice research might be woven together Chapters 2 4 on the basic forms of justice procedural retributive and distributive are the lynchpin of the volume they provide the building blocks that permit us to think and write about each of the other substantive and applied chapters in terms of how they relate to the fundamental forms of justice In the large central section of the volume Chapters 5 9 the contributors address many ways in which the justice dimensions relate to one another Most important for law is the relationship of perceptions of procedural justice and the two types of substantive justice retributive and distributive **The Cycle of Juvenile Justice** Thomas J. Bernard, Megan C. Kurlychek, 2010-10-14 The Cycle of Juvenile Justice takes a historical look at juvenile justice policies in the United States Tracing a pattern of policies over the past 200 years the book reveals cycles of reforms advocating either lenient treatment or harsh punishments for juvenile delinquents Bernard and Kurlychek see this cycle as driven by several unchanging ideas that force us to repeat rather than learn from our history This timely new edition provides a substantial update from the original incorporating the vast policy changes from the 1990s to the present and placing these changes in their broader

historical context and their place within the cycle of juvenile justice The authors provide a provocative and honest assessment of juvenile justice in the 21st century arguing that no policy can solve the problem of youth crime since it arises not from the juvenile justice system but from deeper social conditions and inequalities With this highly anticipated new edition *The Cycle of Juvenile Justice* will continue to provide a controversial challenging and enlightening perspective for a broad array of juvenile justice officials scholars and students alike

Social Work with Children, Young People and their Families in Scotland Steve Hothersall, 2014-04-22 This fully updated and revised third edition addresses the changes to law and practice in relation to adoption and permanency the children's hearing system and the implications of the provisions of the Children and Young People's Act 2014 and other related matters including the National Practice Model of GIRFEC This is the only text to provide coverage of the new legal policy and practice landscape of social work with children and families in Scotland and as such it is an indispensable guide for students newly qualified social workers managers and practice teachers and a range of other professionals in health education the police and others in cognate disciplines

Juvenile Correctional Reform Edmund F. McGarrell, 1988-01-01 This book addresses the divergent reform agendas that have shaped American juvenile justice systems during the last two decades Testing and extending the theory of social reform developed by Ohlin et al in their study of Massachusetts juvenile justice reform McGarrell investigates the process of change in New York State's juvenile corrections system because this state was a forerunner of both liberal and conservative national reform trends He asks What juvenile justice policies have changed Who has changed them and why What has been the effect on juvenile corrections and ultimately on youth *Juvenile Correctional Reform* suggests that many factors as broad as cultural shifts in prevailing political ideology and as narrow as the individual initiative of an agency head have shaped policy and procedure at specific times It also provides an important case study of an organization in relation to its environment during a period of unprecedented and often contradictory demands for change in juvenile corrections

Crime and Justice at the Millennium Robert A. Silverman, Terence P. Thornberry, Bernard Cohen, Barry Krisberg, 2013-03-09 Ira Lipman Marvin Wolfgang was the greatest criminologist in the United States of America in the last half of the 20th century if not the entire century We first met on March 3 1977 in Philadelphia I sought him out after his work with Edwin Newman's NBC Reports *Violence in America* He was a tender loving caring individual who loved excellence whether it be an intellectual challenge the arts or any other pursuit It is a great privilege to take part in honoring Marvin Wolfgang a great American Our approaches to the subject of crime came from different perspectives one as a researcher and the other as the founder of one of the world's largest security services companies We both wanted to understand the causes of crime and our discussions began a more than 21 year friendship based on mutual respect and shared values Dr Wolfgang's scholarship aimed for the goal of promoting a safer more prosperous society one in which economic opportunity replaced

criminal enterprise He never saw crime in isolation but as part of a complex web of social relations Only by understanding the causes and patterns of crime can society find ways to prevent it Only through scholarship can the criminal justice community influence policy makers To encourage the innovative scholarship that marked Marvin's career Guardsmark established the Lipman Criminology Library at the University of Pennsylvania at his request and created a national criminology award in his name the Wolfgang Award for Distinguished Achievement in Criminology

Reforming Juvenile Justice Committee on Assessing Juvenile Justice Reform, Committee on Law and Justice, Division of Behavioral and Social Sciences and Education, National Research Council, 2013-06-05 Adolescence is a distinct yet transient period of development between childhood and adulthood characterized by increased experimentation and risk taking a tendency to discount long term consequences and heightened sensitivity to peers and other social influences A key function of adolescence is developing an integrated sense of self including individualization separation from parents and personal identity Experimentation and novelty seeking behavior such as alcohol and drug use unsafe sex and reckless driving are thought to serve a number of adaptive functions despite their risks Research indicates that for most youth the period of risky experimentation does not extend beyond adolescence ceasing as identity becomes settled with maturity Much adolescent involvement in criminal activity is part of the normal developmental process of identity formation and most adolescents will mature out of these tendencies Evidence of significant changes in brain structure and function during adolescence strongly suggests that these cognitive tendencies characteristic of adolescents are associated with biological immaturity of the brain and with an imbalance among developing brain systems This imbalance model implies dual systems one involved in cognitive and behavioral control and one involved in socio emotional processes Accordingly adolescents lack mature capacity for self regulations because the brain system that influences pleasure seeking and emotional reactivity develops more rapidly than the brain system that supports self control This knowledge of adolescent development has underscored important differences between adults and adolescents with direct bearing on the design and operation of the justice system raising doubts about the core assumptions driving the criminalization of juvenile justice policy in the late decades of the 20th century It was in this context that the Office of Juvenile Justice and Delinquency Prevention OJJDP asked the National Research Council to convene a committee to conduct a study of juvenile justice reform The goal of Reforming Juvenile Justice A Developmental Approach was to review recent advances in behavioral and neuroscience research and draw out the implications of this knowledge for juvenile justice reform to assess the new generation of reform activities occurring in the United States and to assess the performance of OJJDP in carrying out its statutory mission as well as its potential role in supporting scientifically based reform efforts

Children's Rights Under the Law Samuel M. Davis, 2011 In Children's Rights Under the Law Professor Samuel M Davis examines ways in which the law relates to children from private law torts contracts property child labor and emancipation to public law First Amendment rights of children in school abortion decision making for children school

discipline compulsory school attendance and regulation of obscenity Professor Davis discusses the major Supreme Court decisions involving the parent child state relationship He describes issues of medical decision making for children personal freedoms of children and property entitlements of children and addresses issues that arise in the educational context or school law Professor Davis also covers child neglect and abuse and summarizes major Supreme Court cases in the juvenile justice area discussing the broad jurisdiction of the juvenile court arrest and search and seizure as they apply to children and police interrogation of children Finally he examines how some cases are prosecuted as criminal cases in adult court issues related to the adjudicatory process akin to the trial in adult court and issues related to disposition in juvenile court akin to the sentencing phase of criminal proceedings

Responding to Troubled Youth Cheryl L. Maxson, Malcolm W. Klein, 1997-06-12 This book provides an overview of the dominant philosophical approaches and practices in handling status offenders those children who habitually resist the control of their parents and schools who run away from home who drink and stay out after curfew The three basic and competing social philosophies in responding to these troubled and troublesome youths discussed at length in this book are known as the treatment deterrence and normalization rationales In examining these philosophies the authors consider the quality and quantity of response to and for

status offenders at local community service outlets in seven different cities In this way Maxson and Klein are able to determine whether such response practices conform with the ideological thrusts embedded in state legislation The results will surprise many legislative and youth service policy professionals Agency characteristics service delivery patterns and youth clients do indeed reflect the treatment deterrence and normalization rationales but in ways that have little bearing on the dominant philosophies embodied by state legislation Special chapters are devoted to those minors most likely to slip through the safety net of youth service chronic runaways and street kids The authors discuss the implications of their findings for lawmakers and policy developers

Juvenile Delinquency James W. Burfeind, Dawn Jeglum Bartusch, 2006

Juvenile Delinquency An Integrated Approach provides a thorough examination of the primary theories of delinquency along with the most recent and relevant research in the field The social contexts of delinquency families peers schools drugs and gangs are considered within the theoretical traditions that most actively address these arenas With a writing style praised by reviewers and students alike Burfeind and Bartusch do an outstanding job helping students understand juvenile delinquency The text is divided into four main sections containing 15 chapters The first two sections focus on defining and describing juvenile delinquency The third section concentrates on explaining delinquent behavior while the fourth section considers responding to juvenile delinquency through contemporary juvenile justice systems
