Kafka's Curse A Novel:

Kafka's Curse Achmat Dangor, 1997

The Cambridge Companion to the African Novel F. Abiola Irele, 2009-07-23

Africa's strong tradition of storytelling has long been an expression of an oral narrative culture. African writers such as Amos Tutuola, Naguib Mahfouz, Wole Soyinka, and J. M. Coetzee have adapted these older forms to develop and enhance the genre of the novel in a shift from the oral mode to print. Comprehensive in scope, these new essays cover the fiction in the European languages from North Africa and Africa south of the Sahara as well as in Arabic. They highlight the themes and styles of the African novel through an examination of the works that have either attained canonical status. An entire chapter is devoted to the work of Chinua Achebe or can be expected to do so. Including a guide to further reading and a chronology, this is the ideal starting point for students of African and world literatures.

Haruki Murakami and the Search for Self-Therapy

Jonathan Dil, 2022-02-24. Haruki Murakami, a global literary phenomenon, has said that he started writing fiction as a means of self-therapy. What he has not discussed as much is what he needed self-therapy for. This book argues that by understanding more about why Murakami writes and by linking this with the question of how he writes, readers can better understand what he writes. Murakami's fiction, in other words, can be read as a search for self-therapy. In five chapters, which explore Murakami's fourteen novels to date, this book argues that there are four prominent therapeutic threads woven through Murakami's fiction that can be traced back to his personal traumas, most notably Murakami's falling out with his late father and the death of a former girlfriend, and which have also transcended them in significant ways as they have been transformed into literary fiction. The first thread looks at the way melancholia must be worked through for mourning to occur and healing to happen; the second thread looks at how symbolic acts of sacrifice can help to heal intergenerational trauma; the third thread looks at the way people with avoidant attachment styles can begin to open themselves up to love again; the fourth thread looks at how individuation can manifest as a response to nihilism. Meticulously researched and written with sensitivity, the result is a sophisticated exploration of Murakami's published novels as an evolving therapeutic project that will be of great value to all scholars of Japanese literature and culture.

Making Use of History in New South African Fiction Sten Pultz

Moslund, 2003. A study of the use of history as political ammunition and literature as historical counter-discourse in Mongane Serote's *Gods of Our Time*, Mike Nicol's *The Ibis Tapestry*, and Zakes Mda's *Ways of Dying*. Moslund shows how literary engagement with the past seeks to rupture the continuity of a strongly dichotomised epistemology and through that dissolve the inherited polarisation of society. Falsification of history is exposed as constructed discourse and past simplifications of reality as sharply demarcated into homogenous self-justifying categorisations of Us against Them are challenged with paradox, doubt, and introspection.

Kafka's Novels Patrick Bridgwater, 2021-11-22 Kafka's three novels to be understood as an ever more intricate portrayal of the inner life of one central character Henry James's centre of consciousness each reflecting the problems of their self critical creator are tantamount to dreams The hieroglyphic pictorial language in which they are written is the symbolic language in which dreams and thoughts on the edge of sleep are visualized Not for nothing did Kafka define his writing as a matter of fantasizing with whole orchestras of free associations Written in a deliberately enhanced hypnagogic state these novels embody the alternative logic of dreams with the emphasis on chains of association and verbal bridges between words and word complexes The product of many years preoccupation with its subject Patrick Bridgwater's new book is an original chapter by chapter study of three extraordinarily detailed novels of each of which it offers a radically new reading that makes more and different sense than any previous reading In Barthes terms these fascinating novels are unreadable but the present book shows that properly read they are entirely if ambiguously readable Rooted in Kafka's use of language it consistently

explores in detail i the linguistic implications of the dreamlike nature of his work ii the metaphors he takes literally and iii the ambiguities of so many of the words he chooses to use In doing so it takes account not only of the secondary meanings of German words and the sometimes dated metaphors of which Kafka taking them literally spins his text but also where relevant of Czech and Italian etymology Split for ease of reference into chapters corresponding to the chapters of the novels in the new Originalfassung the book is aimed at all readers of Kafka with a knowledge of German for the author shows that Kafka's texts can be understood only in the language in which they were written because Kafka's meaning is often hidden beneath the surface of the text conveyed via secondary meanings that are specific to German any translation is necessarily an Oberflächенbersetzung *Relations and Networks in South African Indian Writing* ,2018-05-15 Writers of Indian origin seldom appear in the South African literary landscape although the participation of Indian South Africans in the anti apartheid struggle was anything but insignificant The collective experiences of violence and the plea for reconciliation that punctuate the rhythms of post apartheid South Africa delineate a national script in which ethnic class and gender affiliations coalesce and patterns of connectedness between diverse communities are forged *Relations and Networks in South African Indian Writing* brings the experience of South African Indians to the fore demonstrating how their search for identity is an integral part of the national scene's project of connectedness By exploring how Indianness is articulated in the South African national script through the works of contemporary South African Indian writers such as Aziz Hassim Ahmed Essop Farida Karodia Achmat Dangor Shamim Sarif Ronnie Govender Rubendra Govender Neelan Govender Tholsi Mudly Ashwin Singh and Imraan Coovadia along with the prison memoirists Dr Goonam and Fatima Meer the book offers a theoretical model of South South subjectivities that is deeply rooted in the Indian Ocean world and its cosmopolitanisms *Relations and Networks* demonstrates convincingly the permeability of identity that is the marker of the Indian Ocean space a space defined by relations and networks established within and beyond ethnic class and gender categories CONTRIBUTORS Isabel Alonso Breto M J Daymond Felicity Hand Salvador Faura Farhad Khoyratty Esther Pujol's Noguera J Coplen Rose Modhumita Roy Lindy Stiebel Juan Miguel Zarandona **The Cambridge Guide to Literature in English** Dominic Head,2006-01-26 This illustrated and fully updated Third Edition of *The Cambridge Guide to Literature in English* is the most authoritative and international survey of world literature in English available The Guide covers everything from Old English to contemporary writing from all over the English speaking world There are entries on writers from Britain and Ireland the USA Canada India Africa South Africa New Zealand the South Pacific and Australia as well as on many important poems novels literary journals and plays This new edition has been brought completely up to date with more than 280 new author entries most of them for living authors The general reader will find it fascinating to browse and to discover many new writers and works while students will find it an invaluable resource for daily use This is a unique work of reference for the twenty first century that no reader or library should be without *Ancient Greek Myth in World Fiction since 1989* Justine McConnell,Edith

Hall,2016-06-02 Ancient Greek Myth in World Fiction since 1989 explores the diverse ways that contemporary world fiction has engaged with ancient Greek myth Whether as a framing device or a filter or via resonances and parallels Greek myth has proven fruitful for many writers of fiction since the end of the Cold War This volume examines the varied ways that writers from around the world have turned to classical antiquity to articulate their own contemporary concerns Featuring contributions by an international group of scholars from a number of disciplines the volume offers a cutting edge interdisciplinary approach to contemporary literature from around the world Analysing a range of significant authors and works not usually brought together in one place the book introduces readers to some less familiar fiction while demonstrating the central place that classical literature can claim in the global literary curriculum of the third millennium The modern fiction covered is as varied as the acclaimed North American television series The Wire contemporary Arab fiction the Japanese novels of Haruki Murakami and the works of New Zealand s foremost Maori writer Witi Ihimaera

Franz Kafka Stanley Corngold,2018-03-15 In Stanley Corngold s view the themes and strategies of Kafka s fiction are generated by a tension between his concern for writing and his growing sense of its arbitrary character Analyzing Kafka s work in light of the necessity of form which is also a merely formal necessity Corngold uncovers the fundamental paradox of Kafka s art and life The first section of the book shows how Kafka s rhetoric may be understood as the daring project of a man compelled to live his life as literature In the central part of the book Corngold reflects on the place of Kafka within the modern tradition discussing such influential precursors of Cervantes Flaubert and Nietzsche whose works display a comparable narrative disruption Kafka s distinctive narrative strategies Corngold points out demand interpretation at the same time they resist it Critics of Kafka he says must be aware that their approaches are guided by the principles that Kafka s fiction identifies dramatizes and rejects The Palgrave Encyclopedia of Urban Literary Studies Jeremy

Kafka, Gothic and Fairytale Patrick Bridgwater,2021-11-08 *Kafka Gothic and Fairytale* is an original comparative study of the novels and some of the related shorter punishment fantasies in terms of their relationship to the Gothic and fairytale conventions It is an absorbing subject and one which while keeping to the basic facts of his life mind set and literary method shows Kafka s work in a genuinely new light The contradiction between his persona with its love of fairytale and his shadow with its affinity with Gothic is reflected in his work which is both Gothic and other than Gothic both fairytale like and the every denial of fairytale Important subtexts of the book are the close connexion between Gothic and fairytale and between both of these and the dream German text is quoted in translation unless the emphasis is on the meaning of individual words or phrases in which case the words in question are quoted and their English meanings discussed This means that readers without German can for the first time begin to understand the underlying ambiguity of Kafka s major fictions The book is addressed to all who are interested in the meaning of his work and its place in literary history but also to the many readers in the English and German speaking worlds who share the author s enthusiasm for Gothic and fairytale
