**Kandinsky: the Language of the Eye** Paul Overy, 1969     *~Theæ language of the eye* Paul Overy, 1969     Painting and Sculpture in Europe, 1880-1940 George Heard Hamilton, 1993-01-01 This new edition of a book that offers the best available grounding in its huge subject as the Sunday Times called it includes color plates and a revised and expanded bibliography Professor Hamilton traces the origins and growth of modern art assessing the intrinsic qualities of individual works and describing the social forces in play The result is an authoritative guide through the forest of artistic labels Impressionism and Expressionism Symbolism Cubism Constructivism Surrealism etc and to the achievements of Degas and Cezanne Ensor and Munch Matisse and Kandinsky Picasso Braque and Epstein Mondrian Dali Modigliani Utrillo and Chagall Klee Henry Moore and many other artists in a revolutionary age     **The Body in the Mind** Mark Johnson, 2013-01-31 There are books few and far between which carefully delightfully and genuinely turn your head inside out This is one of them It ranges over some central issues in Western philosophy and begins the long overdue job of giving us a radically new account of meaning rationality and objectivity Yaakov Garb San Francisco Chronicle     A Dictionary of the Avant-Gardes , 2013-05-13 A Dictionary of the Avant Gardes recognizes that change is a driving force in all the arts It covers major trends in music dance theater film visual art sculpture and performance art as well as architecture science and culture     The 20th Century Go-N Frank N. Magill, 2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography     Early Modernism Christopher Butler, 1994 Early Modernism is a uniquely integrated introduction to the great avant garde movements in European literature music and painting at the beginning of this century from the advent of Fauvism to the development of Dada In contrast to the overly literary focus of previous studies of modernism this book highlights the interaction between the arts in this period It traces the fundamental and interlinked re examination of the languages of the arts brought about by Matisse Picasso Schoenberg Eliot Apollinaire Marinetti Ben and many others which led to radically new techniques such as atonality cubism and collage These changes are set in the context both of the art that preceded them and of a new and profound shift in ideas Theories of the unconscious the association of ideas primitivism and reliance upon an expressionist intuition led to a reshaped conception of personal identity and Butler examines the representation of the modernist self in the work of figures including Mann Joyce Conrad and Stravinsky Accessible and wide ranging the book is lavishly illustrated with over sixty illustrations many in color It provides an elegant and incisive guide to a momentous period in the history of European art     *Collaborative Form*

Thomas Jensen Hines, 1991 Collaborative Form attempts to show the nature and limits of works of art that are made up of two or more artistic forms The first task of this book is to analyze and interpret a set of such combinations Each chapter treats one collaborative work and attempts to show that the principles of collaboration are the same whether the components are poetry and graphic works as in Lettera Amorosa by Rene Char and George Braque poetry and music as in Herzgewachse by Maurice Maeterlinck and Arnold Schoenberg or more complex sets that include painting music dance lighting and drama as in Der gelbe Klang by Wassily Kandinsky Morder Hoffnung der frauen by Oskar Kokoschka and Triad by Alwin Nikolais Hines breaks down disciplinary barriers and then emphasizes the effects of the interactions between the arts The first step in methodology is that of refusing to make a priori commitments to the critical methodologies of the arts involved Each art is treated from its own perspective and each interpretation attends to interactions of the arts rather than to the contribution of any one art Once the collaborative works are examined the book shows that such works are similar to other art forms They obey the laws of temporal necessity non addition multiple interpretation and unity that any poem painting or musical composition might be said to obey Unlike other arts though collaborative forms are unique examples of the combinative effects of the arts In the process of interpreting individual works and attempting to summarize this form we are forced to see beyond the conventions of the constituent arts

**Expressionism** Ashley Bassie, 2023-12-28 Max Beckmann Otto Dix George Grosz Emil Nolde E L Kirchner Paul Klee Franz Marc as well as the Austrians Oskar Kokoschka and Egon Schiele were among the generation of highly individual artists who contributed to the vivid and often controversial new movement in early twentieth century Germany and Austria Expressionism This publication introduces these artists and their work The author art historian Ashley Bassie explains how Expressionist art led the way to a new intense evocative treatment of psychological emotional and social themes in the early twentieth century The book examines the developments of Expressionism and its key works highlighting the often intensely subjective imagery and the aspirations and conflicts from which it emerged while focusing precisely on the artists of the movement

The Visual Arts in Germany, 1890-1937 Shearer West, 2000 This work provides an introduction to the visual arts in Germany from the early years of German unification to World War II The study is an analysis of painting sculpture graphic art design film and photography in relation to a wider set of cultural and social issues that were specific to German modernism It concentrates on the ways in which the production and reception of art interacted with and was affected by responses to unification conflict between left and right political factions gender concerns contemporary philosophical and religious ideas the growth of cities and the increasing importance of mass culture

**The Bilingual Muse** Adrian Wanner, 2020-06-15 The *Bilingual Muse* analyzes the work of seven Russian poets who translated their own poems into English French German or Italian Investigating the parallel versions of self translated poetic texts by Vladimir Nabokov Joseph Brodsky Andrey Gritsman Katia Kapovich Marina Tsvetaeva Wassily Kandinsky and Elizaveta Kul man Adrian Wanner considers how verbal creativity functions in different languages the conundrum of translation and the vagaries of bilingual identities Wanner argues that the perceived marginality of self translation stems from a romantic privileging of the mother tongue and the original text The unprecedented recent dispersion of Russian speakers over three continents has led to the emergence of a new generation of diasporic Russians who provide a more receptive milieu for multilingual creativity

**Ludwig Hilberseimer** Scott Colman, 2023-07-27 The German

American architect art critic and urban planner Ludwig Hilberseimer was central to avant garde art and architecture in the Weimar Republic an important Bauhaus teacher and long standing collaborator of leading modern architect Ludwig Mies van der Rohe Despite being internationally known for his work on Lafayette Park in Detroit Hilberseimer s legacy as a whole has been obscured in the history of modern architecture Whether this is due to the intense shadow cast by Mies or by his oeuvre being split between the differing languages and contexts of interwar Germany and postwar North America this book argues that the time is now right for a critical reassessment of Hilberseimer s work and writings Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects this study clarifies and situates Hilberseimer s ideas both as an architect and writer and examines their influence on modern and contemporary architecture and urbanism The first synthetic account of Hilberseimer in English it provides a contextual account of Hilberseimer s works which have until now been subject to fragmentary or highly specialized interpretations By demonstrating the influence of Hilberseimer s ideas on the architecture of Mies van der Rohe the book also lends Mies s work a newfound urban significance
