John P. LeDonne

Karaimy Drevnii Narod Kryma:

Forging a Unitary State John P. LeDonne, 2020-04-02 Covering two centuries of Russian history Forging a Unitary State is a comprehensive account of the creation of what is commonly known as the Russian Empire from Poland to Siberia In this book John P LeDonne demonstrates that the so called empire was for the most part a unitary state defined by an obsessive emphasis on centralization and uniformity The standardization of local administration the judicial system tax regime and commercial policy were carried out slowly but systematically over eight generations in the hope of integrating people on the periphery into the Russian political and social hierarchy The ultimate goal of Russian policy was to create a Fortress Empire consisting of a huge Russian unitary state flanked by a few peripheral territories such as Finland Transcaucasia and Central Asia Additional peripheral states such as Sweden Turkey and Persia would guarantee the security of this Fortress Empire and the management of Eurasian territory LeDonne s provocative argument is supported by a careful comparative study of Russian expansion along its western southern and eastern borders drawing on vital but under studied administrative evidence Forging a Unitary State is an essential resource for those interested in the long history of Russian expansionism
