Karluk A Great Untold Story Of Arctic Exploration

Mike Nash

Karluk A Great Untold Story Of Arctic Exploration:

Karluk William Laird McKinlay,2000 William Laird McKinlay was a twenty five year old Scottish schoolteacher when he set out as meteorologist on this 1913 expedition to the Arctic Barely before the expedition had begun Karluk their ship was crushed and sunk in ice He narrates the story of the crew s nightmare struggle for survival in the face of ignorance lack of leadership and appalling conditions No attempt had been made to select the crew for compatibility or strength of character and they were untrained in any skills essential to survival in the Arctic So they were left stranded in the Arctic ice while their leader continued his northern exploration not returning for five years Eight men died moving across the heaving ice floes one man shot himself two died of malnutrition and the rest barely managed to keep alive until rescue came The account of their ordeal is a deeply moving tribute to human courage and endurance and above all to man s overpowering will to live

Karluk William Laird McKinlay,2000 *Karluk : the Great Untold Story of Arctic Exploration and Survival* William Laird McKinlay,1979-08 **The Luck of the Karluk** L.D. Cross,2015-05-01 When the members of Canada s First Arctic Expedition set out from Victoria aboard HMCS Karluk in the summer of 1913 it was a moment of great optimism The three year mission would chart unexplored landmasses of the Western Arctic and secure Canada s place in the international geographic community Little did the team of distinguished scholars and scientists realize however how their hopes would soon be brought to ruin Just a few months into the journey the vessel became lodged in heavy ice eventually sinking near the coast of Siberia With little polar experience among them but ample supplies salvaged from the wreck the group of castaways slowly made their way to solid ground on desolate Wrangel Island There they would wait while the ship s captain and an Inuk guide embarked on a heroic 1 100 kilometre trek along the Siberian coast in search of help By the end of the fifteen month saga eleven members of the original expedition would perish from frostbite and sickness while the remaining twenty would survive to tell the tale The Luck of the Karluk is a fascinating story about an important episode in Canada s history and a revealing study of the strengths and weaknesses of human nature under treacherous conditions **The Last Voyage of the Karluk** William Laird McKinlay,2015-08-25 An astonishing narrative of disaster and perseverance The Last Voyage of the Karluk will thrill readers of adventure classics like Into Thin Air and The Climb In 1913 explorer Vilhjalmur Stefansson hired William McKinlay to join the crew of the Karluk the leading ship of his new Arctic expedition Stefansson s mission was to chart the waters north of Alaska yet the Karluk s crew was untrained the ship was ill suited to the icy conditions and almost at once the Karluk was crushed at which point Stefansson abandoned his crew to continue his journey on another ship This is the only firsthand account of what followed a nightmare struggle in which half the crew perished one was mysteriously shot and the rest were near death by the time of their rescue twelve months later Written some sixty years after the fact and drawing extensively on his own daily log McKinlay s narrative of this doomed expedition is rendered with remarkable clarity of recollection and with a combination of horror and a level of self possession that to modern eyes may seem incredible Like

most of his companions McKinlay was inexperienced without a day's training in the skills essential to survival in the Arctic. Yet he and many of his fellow crewmen with the help of an Eskimo family accustomed to such conditions survived a year under the harshest of conditions enduring 80 mile per hour gales and temperatures well below zero with only the barest of provisions and almost no hope of contact with civilization. Nearly a century later this remains one of the most compelling survival stories ever written, an extraordinary testament to man's overpowering will to live.

Stefansson, Dr. Anderson and the Canadian Arctic Expedition, 1913-1918 Stuart E. Jenness, 2011-01-01 The first comprehensive account of one of the great sagas of Arctic exploration and discovery the Canadian Arctic Expedition of 1913-1918 led by the ethnologist explorer Vilhjalmur Stefansson and the zoologist Dr. Rudolph M. Anderson. There are details of the Expedition's successes and tragedies including the discovery of all but one large island north of the Canadian mainland, the accumulation of considerable scientific information and valuable collections, and the personal feud of the Expedition's two leaders. Four appendices list Expedition personnel, fifty-three geographical sites in the Arctic named after them, locations of their diaries, and collected specimens and the thirteen government volumes arising from the Expedition. Published in English.

The Ice Master Jennifer Niven, 2024-09-24 A riveting adventure, the true story of a 1913 Arctic expedition that ended in disaster and the captain's daring journey to save his surviving crew. Booklist In 1913 the former whaling ship *Karluq* set out in search of an undiscovered continent with the largest scientific staff ever sent into the Arctic. Soon after as winter took hold they were blown off course by polar storms. When the ship became imprisoned in ice it was abandoned by the expedition leader Vilhjalmur Stefansson. Hundreds of miles from civilization the castaways had no choice but to find solid ground as they struggled against starvation, snow blindness, disease, exposure, and each other. After almost a year twelve survivors were rescued thanks to the heroic efforts of their captain Robert Bartlett who traveled by foot across the ice and through Siberia to find help. Drawing on the diaries of those who were rescued and those who perished, Jennifer Niven re-creates with astonishing accuracy the ill-fated journey and the crew's desperate attempts to find a way home.

The *Karluq's* Last Voyage Robert A. Bartlett, 2014-08-18 We did not all come back. Thus begins the rare firsthand account of the extraordinary ordeal of the *Karluq*, the flagship of explorer Vilhjalmur Stefansson's Arctic expedition of 1913-1916. When ice trapped the *Karluq*, Stefansson abandoned Captain Robert A. Bartlett and the crew, eleven of whom perished to their fate. When the ice crushed the *Karluq* and sank her, Bartlett led the shipwrecked survivors safely to Wrangell Island. From there, with one Inuit companion, he journeyed across 700 miles of frozen seas and Siberian wilderness to return with rescuers. It is a feat that rivals Shackleton's own celebrated efforts to seek for the crew of the *Endurance*.

Making of an Explorer Stuart Edward Jenness,2004 The Making of an Explorer reveals how George Hubert Wilkins experiences with the Canadian Arctic Expedition of 1913 16 helped a little known Australian photographer develop into the world famous polar explorer Sir Hubert Wilkins Making extensive use of Wilkins Arctic diary and other sources both archival and published Stuart Jenness provides new information about Wilkins explorer Vilhjalmur Stefansson the Canadian Arctic Expedition and the early history of North America s Western Arctic Wilkins was originally seconded to Stefansson s Arctic Expedition for a year as its official photographer but circumstances forced him to stay in the Arctic for three years He spent much of those extra two years in discussion with Stefansson becoming his life long friend The Making of an Explorer describes Wilkins successful expedition to Banks Island in 1914 in search of Stefansson and his subsequent relationship with Stefansson his significant role and contribution as second in command of Stefansson s polar explorations over the next two years his remarkable collection of

films and photographs of the little known Copper Eskimos in the Central Arctic and his large but virtually unknown original collection of birds and mammals from Banks Island for the National Museum of Canada

Alaska's First Bush Pilots, 1923-30 Jim Rearden, 2014-04-04 This book follows the careers of Alaska's pioneering pilots who with cranky open cockpit biplanes started the great change in Alaska's way of travel. Aviation first arrived at Fairbanks, the trade center of mainland Alaska from which dog sled trails spider web to mines, villages and trap lines. During winters goods and people traveled mostly by dog sled. During the summer of 1923 Ben Eielson was the first to fly commercially from Fairbanks ferrying passengers and light freight with an open cockpit Jenny JN4 biplane. It was the beginning of the leap from ground travel to the air. Noel Wien was the next. In the summers of 1924-26 he flew open cockpit biplanes from Fairbanks. Starting in 1927 he flew a cabin biplane year around on scheduled flights in the 579 miles between Fairbanks and Nome. In March 1929 Wien flew from Alaska to the Elisif, an ice locked trading schooner in Siberia to return with a load of valuable furs. In the following November Ben Eielson repeated this flight to the Nanuk, another ice bound trading schooner in Siberia. And when he and his mechanic Earl Borland returned for a second load of Siberian fur their Hamilton airplane disappeared in a winter snowstorm. This brought on one of the most famous and difficult aerial searches ever made from and in Alaska. By the 1930s Alaska's growing aviation industry had revolutionized transportation in the Territory. This volume is a fond look back at the triumphs and tragedies of the pioneering Ben Eielson, Noel Wien, Harold Gillam, Joe Crosson, Ed Young and others, the great pilots who were the first bush pilots of Alaska.

The Lamp, the Ice, and the Boat Called Fish Jacqueline Briggs Martin, 2005-11-28 The Lamp, the Ice and the Boat Called Fish tells the dramatic story of the Canadian Arctic expedition that set off in 1913 to explore the high north.

Vilhjalmur Stefansson Tom Henighan, 2009-03-09 Born in Manitoba of Icelandic parents Vilhjalmur Stefansson 1879-1962 became one of Canada's most famous and controversial Arctic explorers. After graduate studies in anthropology at Harvard University Stefansson lived with and studied Inuit in the Mackenzie River Delta in the Northwest Territories in the winter of 1906-07. In two subsequent expeditions he completed a major anthropological survey of the Central and Western Arctic coasts and islands of North America, located and lived with the Copper Inuit, a previously unknown group of aboriginal people and discovered the world's last major land masses. During his third and final great Arctic expedition from 1913 to 1918 some of Stefansson's men perished tragically, an outcome that severely damaged his reputation. Nevertheless the hardy explorer contributed immensely to knowledge about the Far North, particularly in his championing of the Friendly Arctic. Part scientist, part showman, Vilhjalmur Stefansson was truly unique among polar adventurers.
