Karluk The Great Untold Stor Stefansson:

Stefansson, Dr. Anderson and the Canadian Arctic Expedition, 1913-1918 Stuart E. Jenness, 2011-01-01 The first comprehensive account of one of the great sagas of Arctic exploration and discovery the Canadian Arctic Expedition of 1913-1918 led by the ethnologist explorer Vilhjalmur Stefansson and the zoologist Dr Rudolph M Anderson There are details of the Expedition's successes and tragedies including the discovery of all but one large island north of the Canadian mainland the accumulation of considerable scientific information and valuable collections and the personal feud of the Expedition's two leaders Four appendices list Expedition personnel fifty three geographical sites in the Arctic named after them locations of their diaries and collected specimens and the thirteen government volumes arising from the Expedition Published in English

Vilhjalmur Stefansson Tom Henighan, 2009-03-09 Born in Manitoba of Icelandic parents Vilhjalmur Stefansson 1879-1962 became one of Canada's most famous and controversial Arctic explorers After graduate studies in anthropology at Harvard University Stefansson lived with and studied Inuit in the Mackenzie River Delta in the Northwest Territories in the winter of 1906-07 In two subsequent expeditions he completed a major anthropological survey of the Central and Western Arctic coasts and islands of North America located and lived with the Copper Inuit a previously unknown group of aboriginal people and discovered the world's last major land masses During his third and final great Arctic expedition from 1913 to 1918 some of Stefansson's men perished tragically an outcome that severely damaged his reputation Nevertheless the hardy explorer contributed immensely to knowledge about the Far North particularly in his championing of the Friendly Arctic Part scientist part showman Vilhjalmur Stefansson was truly unique among polar adventurers Stefansson and the Canadian Arctic Richard Diubaldo, 1999-01-18 Stefansson's contributions to arctic exploration are immense He discovered some of the world's last major land masses in the Arctic and his hydrographic soundings outlined for the first time the continental shelf from Alaska to Prince Patrick Island and revealed the submarine mountains and valleys beneath the Beaufort Sea While in the Arctic he lived with the Inuit learning their habits and language and kept a detailed record of early Inuit society However some of Stefansson's deeds and the motives behind them garnered less acclaim In one instance Stefansson was accused of abandoning ship just before the ship was crushed in the ice a heinous act for the leader of an expedition On another occasion following a disastrous expedition to Wrangel Island during which great numbers of the party died Stefansson was accused of deliberately misleading members of the expedition and lying about the perils that faced them The affair caused Canada to become embroiled with the United States and the Soviet Union and many argued that Stefansson was more concerned with personal fame and financial gain than people's lives Was Stefansson a prophet or a profiteer a victim or a villain Stefansson and the Canadian Arctic reveals the truth about this fascinating personality **The Luck of the Karluk** L.D. Cross, 2015-05-01 When the members of Canada's First Arctic Expedition set out from Victoria aboard HMCS Karluk in the summer of 1913 it was a moment of great optimism The three year mission would chart unexplored landmasses of the

Western Arctic and secure Canada's place in the international geographic community Little did the team of distinguished scholars and scientists realize however how their hopes would soon be brought to ruin Just a few months into the journey the vessel became lodged in heavy ice eventually sinking near the coast of Siberia With little polar experience among them but ample supplies salvaged from the wreck the group of castaways slowly made their way to solid ground on desolate Wrangel Island There they would wait while the ship's captain and an Inuk guide embarked on a heroic 1 100 kilometre trek along the Siberian coast in search of help By the end of the fifteen month saga eleven members of the original expedition would perish from frostbite and sickness while the remaining twenty would survive to tell the tale The Luck of the Karluk is a fascinating story about an important episode in Canada's history and a revealing study of the strengths and weaknesses of human nature under treacherous conditions

Karluk William Laird McKinlay, 2000 Karluk set sail on its ill fated expedition to the Arctic in June 1913 Vilhjalmur Stefansson the Canadian explorer and captain of the ship led 25 crew members seamen and scientists on a journey from which 11 of them would never return This ship was trapped in the ice after only a few weeks Ill prepared and lacking in any effective leadership the men were forced to abandon Karluk They lived on drifting ice floes for six months while the ship's commander completed a hazardous 700 mile journey to Siberia in search of rescue By that time eight had set off to reach land their kit and clothes were found strewn along their trail but they were never seen alive again a further man shot himself and two died of malnutrition and disease on the desolate snow covered Wrangel Island where the rest barely managed to survive until they were recovered

Bartlett, 2014-08-18 We did not all come back Thus begins the rare firsthand account of the extraordinary ordeal of the Karluk the flagship of explorer Vilhjalmar Stefansson's Arctic expedition of 1913-1916 When ice trapped the Karluk Stefansson abandoned Captain Robert A Bartlett and the crew eleven of whom perished to their fate When the ice crushed the Karluk and sank her Bartlett led the shipwrecked survivors safely to Wrangell Island From there with one Inuit companion he journeyed across 700 miles of

frozen seas and Siberian wilderness to return with rescuers It is a feat that rivals Shackleton's own celebrated efforts to seek for the crew of the Endurance **Making of an Explorer** Stuart E. Jenness,2004-11-01 Wilkins was originally seconded to Stefansson's Arctic Expedition for a year as its official photographer but circumstances forced him to stay in the Arctic for three years He spent much of those extra two years in discussion with Stefansson becoming his life long friend The Making of an Explorer describes Wilkins successful expedition to Banks Island in 1914 in search of Stefansson and his subsequent relationship with Stefansson his significant role and contribution as second in command of Stefansson's polar explorations over the next two years his remarkable collection of films and photographs of the little known Copper Eskimos in the Central Arctic and his large but virtually unknown original collection of birds and mammals from Banks Island for the National Museum of Canada The Ice Master Jennifer Niven,2024-09-24 A riveting adventure the true story of a 1913 Arctic expedition that ended in disaster and the captain's daring journey to save his surviving crew Booklist In 1913 the former whaling ship Karluk set out in search of an undiscovered continent with the largest scientific staff ever sent into the Arctic Soon after as winter took hold they were blown off course by polar storms When the ship became imprisoned in ice it was abandoned by the expedition leader Vilhjalmur Stefansson Hundreds of miles from civilization the castaways had no choice but to find solid ground as they struggled against starvation snow blindness disease exposure and each other After almost a year twelve survivors were rescued thanks to the heroic efforts of their captain Robert Bartlett who traveled by foot across the ice and through Siberia to find help Drawing on the diaries of those who were rescued and those who perished Jennifer Niven re creates with astonishing accuracy the ill fated journey and the crews desperate attempts to find a way home
