Karma And Rebirth Post Classical Developments:

Karma and Rebirth Calgary Conference on Karma and Rebirth, Post-Classical Developments (1982 : University of Calgary),1986-01-01 Karma and Rebirth Post Classical Developments explains the religious concepts most central to Asian philosophy religion and society presenting articles representative of contemporary understanding and practice The contributors look not only at the understanding of karma and rebirth in modern India but also in Sri Lanka and Southeast Asia Tibet China Japan and the Western world This broad treatment underscores the fact that karma and rebirth have become part of the religious history and cultural fabric of the Western world The collection is divided into three sections Part I deals with figures and movements of the Hindu renaissance in India in the nineteenth and twentieth centuries Part II on Buddhism deals with Indian Chinese Tibetan and Japanese treatments of karma Part III is devoted to the influence of karma and rebirth in the Western world through theosophy new religious movements and recent developments in psychology

Buddhism, Christianity and the Question of Creation Perry Schmidt-Leukel,2016-12-05 Is the world created by a divine creator Or is it the constant product of karmic forces The issue of creation was at the heart of the classic controversies between Buddhism and Hindu Theism In modern times it can be found at the centre of many polemical debates between Buddhism and Christianity Is this the principal barrier that separates Buddhism from Christianity and other theistic religions The contributions to Part One explore the various aspects of traditional and contemporary Buddhist objections against the idea of a divine creator as well as Christian possibilities to meet the Buddhist critique Part Two asks for the potential truth on both sides and suggests a surprising way that the barrier might be overcome This opens a new round of philosophical and theological dialogue between these two major traditions with challenging insights for both Contributors Jos I Cabezon John P Keenan Armin Kreiner Aasulv Lande John D Argy May Eva K Neumaier Perry Schmidt Leukel Ernst Steinkellner

Imagining the Fetus Vanessa R Sasson,Jane Marie Law,2009-03-26 In contemporary Western culture the word fetus introduces either a political subject or a literal medicalized entity Neither of these frameworks does justice to the vast array of religious literature and oral traditions from cultures around the world in which the fetus emerges as a powerful symbol or metaphor This volume presents essays that explore the depiction of the fetus in the world's major religious traditions finding some striking commonalities as well as intriguing differences Among the themes that emerge is the tendency to conceive of the fetus as somehow independent of the mother's body as in the case of the Buddha who is described as inhabiting a palace while gestating in the womb On the other hand the fetus can also symbolically represent profound human needs and emotions such as the universal experience of vulnerability The authors note how the advent of the fetal sonogram has transformed how people everywhere imagine the unborn today giving rise to a narrow range of decidedly literal questions about personhood gender and disability **Buddhism , The Human Icon** Christine Mangala Frost,2017-05-25 Despite the history that divides them Hinduism and Orthodox Christianity have much in common In *The Human Icon* Christine

Mangala Frost explores how both religions seek to realise the divine potential of every human being and the differences in their approach Frost who has experienced both the extraordinary riches and the all too human failings of Hinduism and Orthodox Christianity from the inside is perfectly placed to examine the convergences and divergences between the two faiths Inspired by a desire to clear up the misunderstandings that exist between the two The Human Icon is a study in how two faiths superficially dissimilar can nevertheless find meeting points everywhere The powerful intellectual and spiritual patristic traditions of Orthodox Christianity offer a rare tool for revitalising too often stalled dialogue with Hinduism and present the chance for a broader and more diverse understanding of the oldest religion in the world Tracing the long history of Orthodox Christianity in India from the Thomas Christians of ancient times to the distinctive theology of Paulos Mar Gregorios and the Kottayam School Frost explores the impact of Hindu thought on Indian Christianity and considers the potential for confluence With a breadth of interest that spans Hindu bhakti Orthodox devotional theology Vedanta and theosis as well as meditational Yoga and hesychastic prayer Frost offers a fresh perspective on how the devotees of both faiths approach the ideal of divinisation and presents a thoughtful modern methodology for a dialogue of life

Encyclopedia of Hinduism Denise Cush, Catherine Robinson, Michael York, 2012-08-21 Covering all aspects of Hinduism this encyclopedia includes more ethnographic and contemporary material in contrast to the exclusively textual and historical approach of earlier works

Encyclopedia of Ethics Lawrence C. Becker, Charlotte B. Becker, 2013-10-18 The editors working with a team of 325 renowned authorities in the field of ethics have revised expanded and updated this classic encyclopedia Along with the addition of 150 new entries all of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features New entries include Cheating Dirty hands Gay ethics Holocaust Journalism Political correctness and many more

Asian Religious Responses to Darwinism C. Mackenzie Brown, 2020-12-17 This volume brings together diverse Asian religious perspectives to address critical issues in the encounter between tradition and modern western evolutionary thought Such thought encompasses the biological theories of Charles Darwin Jean Baptiste Lamarck Earnest Haeckel Thomas Huxley and later neo Darwinians as well as the more sociological evolutionary theories of thinkers such as Herbert Spencer Pyotr Kropotkin and Henri Bergson The essays in this volume cover responses from Hindu Jain Buddhist Chinese Japanese and Indo Tibetan Confucian Daoist and Muslim traditions These responses come from the decades immediately after publication of The Origin of Species up to the present with attention being paid to earlier perspectives and teachings within a tradition that have affected responses to Darwinism and western evolutionary thought in general The book focuses on three critical issues the struggle for survival and the moral implications read into it genetic variation and its seeming randomness as related to the problems of meaning and purpose and the nature of humankind and human exceptionalism Each essay deals with one or more of the three issues within the context of a specific tradition

Purifying the Earthly Body of God Lance E. Nelson, 1998-01-01 An interdisciplinary exploration of the relationship between religion and environment in Hinduism

A Bibliographic Guide to the Comparative Study of Ethics John Braisted Carman, Mark Juergensmeyer, William Darrow, 1991-04-26 This bibliography is the culmination of four years work by a team of noted scholars its annotated entries are organised by religious tradition and cover each tradition s central concepts offering a judicious selection of primary and secondary works as well as recommendations of cross cultural topics to be explored Specialists in the history and literature of religions and comparative religion will find this bibliography a valuable research tool

Religion, Medicine and the Human Embryo in Tibet Frances Garrett, 2008-04-24 This book explores the cultural history of embryology in Tibet in culture religion art and literature Filling a significant gap this is the first in depth exploration of Tibetan medical history in the English language It examines embryological narratives in relation to turning points in Tibetan medical history and its relationship with religious doctrine and practice

Signs of Reincarnation James G. Matlock, 2019-06-15 Signs of Reincarnation provides the first comprehensive look at the belief in reincarnation and the evidence for past lives from historical records anthropological studies and contemporary research Matlock discusses various ways the evidence may be interpreted and shows that although reincarnation entails a rejection of the materialist notion that consciousness is generated by the brain it does not require the acceptance of any radically new concepts or the abandonment of well established findings in mainstream psychology or biology This book offers students scholars and anyone interested in the possibility of reincarnation an essential grounding in beliefs cases and theory while opening doors for future research into the extension of consciousness beyond our present lives

Dāna Ellison Banks Findly, 2003-01-01 This book argues that donation is one of the central practices in early Buddhism for without it Buddhism would not have survived and flourished in the many centuries of its development and expansion Buddhist relationship between donors and renunciants developed quickly into a complex web that involves material life and the views about how to attend to it Buddhist dana s great success is due to the early and continuing use of accomodation with other faiths as a foundational value thus allowing the tradition to adapt to changing circumstances

Tradition and Reflection Wilhelm Halbfass, 1991-01-01 This book examines above all the relationship between reason and Vedic revelation and the philosophical responses to the idea of the Veda It deals with such topics as dharma karma and rebirth the role of man in the universe the motivation and justification of human actions the relationship between ritual norms and universal ethics and reflections on the goals and sources of human knowledge Halbfass presents previously unknown materials concerning the history of sectarian movements including the notorious Thags thaka and relations between Indian and Iranian thought The approach is partly philosophical and partly historical and philological to a certain extent it is also comparative The author explores indigenous Indian reflections on the sources the structure and the meaning of the Hindu tradition and traditional philosophical responses to social and historical realities He does not deal with social and historical realities per se rather basing his work on the premise that to understand

these realities the reflections and constructions of traditional Indian theorists are no less significant than the observations and paradigms of modern Western historians and social scientists he explores the self understanding of such leading thinkers as Sankara Kumarila Bhartrhari and Udayana Historical Dictionary of Hinduism Bruce M. Sullivan,1997 Presents the Hindu religious tradition s major events individuals texts sects and concepts in the context of its historical development through various periods Introducing Hinduism Hillary P. Rodrigues,2023-01-06 Introducing Hinduism 2nd Edition is the ideal sourcebook for those seeking a comprehensive overview of the Hindu tradition This second edition includes substantial treatments of Tantra South India and women as well as expanded discussions of yoga Vedanta and contemporary configurations of Hinduism in the West Its lively presentation features case studies photographs and scenarios that invite the reader into the lived world of Hinduism introductory summaries key points discussion questions and recommended reading lists at the end of each chapter narrative summaries of the great epics and other renowned Hindu myths and lucid explanations of complex Indian philosophical teachings including Sankhya and Kashmir Saivism and a glossary timeline and pronunciation guide for an enhanced learning experience This volume is an invaluable resource for students in need of an introduction to the key tenets and diverse practice of Hinduism past and present **Words of Destiny** Caterina Guenzi,2021-03-01 Astrologers play an important role in Indian society but there are very few studies on their social identity and professional practices Based on extensive fieldwork carried out in the city of Banaras Words of Destiny shows how the Brahmanical scholarly tradition of astral sciences jyoti sha described in Sanskrit literature and taught at universities has been adapted and reformulated to meet the needs and questions of educated middle and upper classes in urban India How to get a career promotion How to choose the most suitable field of study for children When is the best moment to move into a new house The study of astrology challenges ready made assumptions about the boundaries between science and superstition rationality and magic Rather than judging the validity of astrology as a knowledge system Caterina Guenzi explores astrological counseling as a social practice and how it works from within for both astrologers and their clients She examines the points of view of those who use astrology either as a way of earning their living or as a means through which to solve problems and make decisions concluding that because astrology combines mathematical calculations and astronomical observations with ritual practices it provides educated urban families with an idiom through which modern science and devotional Hinduism can be subsumed **A Concise Encyclopedia of Hinduism** Klaus K. Klostermaier,2014-10-01 From the classical to the contemporary this is a comprehensive systematic and accessible encyclopedia of the phenomenon known as Hinduism Drawing on his extensive knowledge of the religion and its texts Klostermaier presents the theoretical and practical aspects of Hinduism that render this most ancient of religions a living faith The encyclopedia features the major systems of Hindu thought covers figures from Manu to Gandhi and includes locations from Ramesvaram on the southernmost tip of India to the Himalayas in the north Written with assurance learning sympathy and insight this is an invaluable

reference for students adherents of the religion and those unfamiliar with this diverse world faith **A Survey of Hinduism**

Klaus K. Klostermaier, 1994-01-01 This revision reflects recent developments and events in India In particular a new Part has been added entitled The Meeting of East and West in India which contains a new chapter on Mahatma Gandhi There is also a new chapter on the position of women in Hinduism In addition to the added chapters the entire book has been rewritten with many new illustrations and maps This book provides a comprehensive survey of the Hindu tradition dealing with the history of Hinduism the sacred writings of the Hindus the Hindu worldview and the specifics of the major branches of Hinduism Vaisnavism S aivism and S aktism It also focuses on the geographical ties of Hinduism with the land of India the social order created by Hinduism and the various systems of Hindu thought Klostermaier describes the new development of Hinduism in the 19th and 20th centuries including present day political Hinduism and the efforts to turn Hinduism into a modern world religion A unique feature of this book is its treatment of Hinduism in a topical fashion rather than by chronological description of the development of Hinduism or by summary of the literature The complexities of Hindu life and thought are thus made real to the reader Hindus will recognize it as their own tradition Karma Johannes Bronkhorst, 2011-08-24

Karma has become a household word in the modern world where it is associated with the belief in rebirth determined by one's deeds in earlier lives This belief was and is widespread in the Indian subcontinent as is the word karma itself In lucid and accessible prose this book presents karma in its historical cultural and religious context Initially karma manifested itself in a number of religious movements most notably Jainism and Buddhism and was subsequently absorbed into Brahmanism in spite of opposition until the end of the first millennium C E Philosophers of all three traditions were confronted with the challenge of explaining by what process rebirth and karmic retribution take place Some took the drastic step of accepting the participation of a supreme god who acted as a cosmic accountant others of opting for radical idealism The doctrine of karma was confronted with alternative explanations of human destiny among them the belief in the transfer of merit It also had to accommodate itself to devotional movements that exerted a major influence on Indian religions The book concludes with some general reflections on the significance of rebirth and karmic retribution drawing attention to similarities between early Christian and Indian ascetical practices and philosophical notions that in India draw their inspiration from the doctrine of karma
