

The background of the slide is a photograph of a vast landscape. In the foreground, there is a lush green field. In the middle ground, there are rolling hills with patches of green and brown. In the background, more hills are visible under a bright, slightly hazy sky. The overall tone is peaceful and natural.

## **Kashmir Roots Of Conflict Paths To Peace:**

**Kashmir** Sumantra Bose, 2009-07-01 In 2002 nuclear armed adversaries India and Pakistan mobilized for war over the long disputed territory of Kashmir sparking panic around the world Drawing on extensive firsthand experience in the contested region Sumantra Bose reveals how the conflict became a grave threat to South Asia and the world and suggests feasible steps toward peace Though the roots of conflict lie in the end of empire and the partition of the subcontinent in 1947 the contemporary problem owes more to subsequent developments particularly the severe authoritarianism of Indian rule Deadly dimensions have been added since 1990 with the rise of a Kashmiri independence movement and guerrilla war waged by Islamist groups Bose explains the intricate mix of regional ethnic linguistic religious and caste communities that populate Kashmir and emphasizes that a viable framework for peace must take into account the sovereignty concerns of India and Pakistan and popular aspirations to self rule as well as conflicting loyalties within Kashmir He calls for the establishment of inclusive representative political structures in Indian Kashmir and cross border links between Indian and Pakistani Kashmir Bose also invokes compelling comparisons to other cases particularly the peace building framework in Northern Ireland which offers important lessons for a settlement in Kashmir The Western world has not fully appreciated the desperate tragedy of Kashmir between 1989 and 2003 violence claimed up to 80 000 lives Informative balanced and accessible Kashmir is vital reading for anyone wishing to understand one of the world's most dangerous conflicts **Kashmir** Sumantra

Bose, 2003 This book constitutes not just a history of the development of television in India nor is it solely an exploration of its impact Melissa Butcher also examines the mechanisms of change measured out in the continuity and disjunction of cultural boundaries Focusing on young people who are often considered to be the most vulnerable to change or cultural degeneration the book demonstrates that the resilience of youth is at times underestimated as is the impact of other changes in India brought about by economic liberalisation and state policies in areas such as education The book is based on extensive fieldwork in various parts of India in both rural and urban settings The author conducted focus groups with young people and in depth interviews with older generations and with more than 40 leading players in India's television industry The book additionally provides a historical context to contemporary media debates by examining the literature stretching back to the 1940s

**Kashmir** Aashish Joshi, 2017 Patterns of Conventional Warfighting under the Nuclear Umbrella Igor Davidzon, 2020-05-04 This book explores how nuclear weapons influence conventional warfighting through three case studies of countries not party to the Non Proliferation Treaty Pakistan India and Israel The author examines how decision makers choose a preferred pattern of war management as well as how these choices affect conflicts suggesting that nuclear weaponization constitutes a clear change in the relative power of countries This distribution of power within the international system expands or reduces the selection of strategies or war management patterns available to members of the international community However historic traumatic events like military defeats countries self images and images of enemies form the

perceptions of decision makers regarding material power and change thereof suggesting that choices of decision makers are not affected directly by changes in relative power relations but rather through an intermediate level of strategic culture parameter

**Flashpoints in the War on Terrorism** Derek S. Reveron, Jeffrey Stevenson Murer, 2013-05-13 This volume offers a comprehensive overview of international political violence by bringing together foreign policy experts on several regions who examine conflicts in the Fertile Crescent the Balkans the Post Soviet Region the Himalayas Southeast Asia and sub Saharan Africa With cogent assessments of civil conflicts that threaten to be part of a global jihad each chapter both dissects the historical roots and socio economic causes that catalyze terrorism in those areas as well as posits ways for the United States to meet the myriad of foreign policy challenges posed by the growing threat of contemporary international terrorism

**Kashmir in the Aftermath of Partition** Shahla Hussain, 2021-06-10 Kashmir remains one of the world's most militarized areas of dispute having been in the grips of an armed insurgency against India since the late 1980s In existing scholarship ideas of territoriality state sovereignty and national security have dominated the discourses on the Kashmir conflict This book in contrast places Kashmir and Kashmiris at the center of historical debate and investigates a broad range of sources to illuminate a century of political players and social structures on both sides of divided Kashmir and in the wider Kashmiri diaspora In the process it broadens the contours of Kashmir's postcolonial and resistance history complicates the meaning of Kashmiri identity and reveals Kashmiris' myriad imaginings of freedom It asserts that Kashmir has emerged as a political imaginary in postcolonial era a vision that grounds Kashmiris in their negotiations for rights not only in India and Pakistan but also in global political spaces

Storming the World Stage Stephen Tankel, 2014-01-16 Lashkar e Taiba is among the most powerful militants groups in South Asia and increasingly viewed as a global terrorist threat on par with al Qaeda Considered Pakistan's most powerful proxy against India the group gained public prominence after its deadly ten person suicide assault on Mumbai in November 2008 By the time the last Lashkar terrorist was dead after nearly 60 hours it appeared the world was facing a new menace Boasting transnational networks stretching across several continents there has been serious debate since 9/11 of whether Lashkar is an al Qaeda affiliate The deliberate targeting of Westerners and Jews during the Mumbai attacks raised questions about whether Lashkar was moving deeper into al Qaeda's orbit and perhaps on a trajectory to displace Osama bin Laden's network as the next major global jihadi threat Lashkar's expansion has serious security implications for India Pakistan Europe and the United States and its activities threaten to damage US Pakistan relations Despite growing calls for action Pakistan is yet to take any serious steps toward dismantling Lashkar for fear of drawing it further into the insurgency raging there and because of its continued utility against India More than a militant outfit Lashkar also controls a vast infrastructure that delivers necessary social services to the Pakistani populace making it all the more difficult to dismantle Storming the World Stage traces the evolution of Lashkar e Taiba over more than two decades to illustrate how the group grew so powerful and to assess the threat it poses to India the West and to Pakistan itself

The first English language book ever written about Lashkar it draws on in depth field research including interviews with senior Lashkar leaders rank and file members and officials of the Pakistani security services some of who have helped nurture the group over the years

**Kashmir and the Future of South Asia** Sugata Bose,Ayesha Jalal,2020-12-30 This book uses an innovative people centered approach to the Kashmir problem to shed new light on why postcolonial partitions remain unfinished and why the wounds of postcolonial nation state formation in South Asia continue to fester Kashmir is viewed as a metaphor for the permanent internal wars of partition that mark the South Asian experience Chapters sensitively bring Kashmiri voices to the fore to examine Kashmir in the national discourses of India and Pakistan resistance in the Kashmiri imagination and the Kashmir conflict in a global context The book foregrounds how the space of Kashmir as a cultural historical and political sphere persists and continues to haunt the postcolonial national present as the people of Kashmir and their cultural literary and artistic productions cannot be contained within the regnant paradigms of the nations across which the region is partitioned Additionally the book explores how long term resolution would demand engagement with historical forces political actors and social formations that exceed the nation state An important contribution to the study of this troubled region this book will be of interest to academics and researchers of modern South Asian history and politics as well as comparative politics and international relations

**Emerging Voices** Huping Ling, 2008-12-30 While a growing number of popular and scholarly works focus on Asian Americans most are devoted to the experiences of larger groups such as Chinese Japanese Korean Filipino and Indian Americans As the field grows there is a pressing need to understand the smaller and more recent immigrant communities Emerging Voices fills this gap with its unique and compelling discussion of underrepresented groups including Burmese Indonesian Mong Hmong Nepalese Romani Tibetan and Thai Americans Unlike the earlier and larger groups of Asian immigrants to America many of whom made the choice to emigrate to seek better economic opportunities many of the groups discussed in this volume fled war or political persecution in their homeland Forced to make drastic transitions in America with little physical or psychological preparation questions of why am I here who am I and why am I discriminated against remain at the heart of their post emigration experiences Bringing together eminent scholars from a variety of disciplines this collection considers a wide range of themes including assimilation and adaptation immigration patterns community education ethnicity economics family gender marriage religion sexuality and work

Uzun, Cenkay Uyan, Deepika Dahiya, Eldar Hasanoğlu, Fahrettin Altun, Feyza Nur Canalp, Fikriye Karaman, Guo Changgang, Hacı Mehmet Boyraz, Hamit Emrah Beriş, Hatice Karahan, Majlinda Belegu, Mustafa İlter, Nurettin Akçay, Oğuzhan Çağlıyan, Öznur Gülen Ertosun, Ravza Altuntaş Çakır, Resul Yalçın, Serdal Temel, Sırma Feyza Şağban, Şafak Oğuz, Umair Gul, Yenel Göksun, 2023-03-01 On May 14 2023 Turkey will hold both the presidential and the parliamentary elections in which the Turkish people will choose the president and all 600 members of the Turkish Parliament This will be the second elections since the transition to the presidential system in 2017 After the first elections held in June 2018 Recep Tayyip Erdoğan

an was elected as the first president of the new governmental system and AK Party received more than 42 percent of the total votes winning almost half of the seats in parliament As in the first elections two major political blocs will compete namely the People s Alliance Cumhuriyet Halk Partisi and the Nation Alliance Millet Ittifakı The People s Alliance bloc consists of the Justice and Development Party Adalet ve Kalkınma Partisi AK Party led by Recep Tayyip Erdoğan and the Nationalist Movement Party Milliyetçi Hareket Partisi MHP led by Devlet Bahçeli the Great Unity Party Büyük Birlik Partisi BBP led by Mustafa Destici the New Welfare Party Yeniden Refah Partisi YRP led by Fatih Erbakan and the Free Cause Party Hür Dava Partisi HDP led by Zekeriya Taşoğlu The second political bloc the Nation Alliance also known as the Table of Six Altı Masa is made up of six plus one political parties The alliance which was initially formed in May 2018 by four political parties now consists of six parties while one party supports the bloc from outside The Republican People s Party Cumhuriyet Halk Partisi CHP led by Kemal Kılıçdaroğlu and the Good Party İyi Parti led by Meral Akınır are the two main allies They were are officially supported by four smaller political parties The Democrat Party Demokrat Parti DP led by Gökçe Uysal represents the center right while the Felicity Party Saadet Partisi SP led by Temel Karamollaoğlu is the continuation of Necmettin Erbakan s Islamic political tradition The two additional political parties the Future Party Gelecek Partisi GP led by Ahmet Davutoğlu and the Democracy and Progress Party Demokrasi ve Atılım Partisi DEVA Party led by Ali Babacan are breakaway groups from the ruling AK Party They have recently joined the Nation Alliance in an attempt to overthrow the ruling party which has been in power for the last two decades In addition to these six political parties the Peoples Democratic Party Halkların Demokratik Partisi HDP led by Pervin Buldan and Mithat Sancar also supports the Nation Alliance However it did not become an official partner of the Nation Alliance since some partners of the alliance most notably the P generally representing the secular Turkish nationalists oppose the alliance with HDP due to its close connections with PKK Therefore although HDP has declared its support for the candidacy of Kemal Kılıçdaroğlu it has not joined the alliance It has become obvious that two political alliances will dominate the election process therefore there are effectively only two main presidential candidates While the People s Alliance has nominated Recep Tayyip Erdoğan the Nation Alliance has nominated Kemal Kılıçdaroğlu for the presidential post Concurrently there are two additional candidates Muharrem Nce and Sinan Oğan supported by other small political parties that will no doubt influence the election results however they are not expected to get more than a small percentage of the vote The two opposing and conflicting political blocs represent an almost absolute mutual exclusive perspective about the future of Türkiye and the politics of the country reflecting the increasing polarization of Turkish politics These two alliances have two opposite and conflictual perspectives of Türkiye The People s Alliance emerged as a consequence of a domestic stance against the attacks Türkiye faced after the bloody coup attempt by FETÖ on July 15 2016 which led to many major changes in the country The alliance aims to maintain the current government to consolidate the current presidential system to continue the country s transformation program to protect the country against

both internal and external threats to increase its deterrent military power to strengthen its economic development and to globalize its diplomatic power The Nation Alliance on the other hand was formed as a reaction to the People s Alliance since no one political party was able to challenge the power of AK Party and its leader Recep Tayyip Erdoğan The alliance is determined to reverse the course of politics in the country and to reverse many of the changes made by the AK Party governments It claims that if it wins the elections it will initiate a process of restoration revive the old political system change the regime revive the old and turn to the status quo ante However the Nation Alliance is quite a vulnerable and fractured opposition bloc It seems that while the Nation Alliance agrees on what it does not want specifically the rule of the AK Party the bloc does not know what it wants instead There is no real consensus among the fragmented opposition parties about the future of the country Not only do different political parties expect different developments even different wings within certain political parties make different suggestions For example some officials of the biggest partner of the Nation Alliance the main opposition Republican People s Party CHP has declared that they will apologize helalle mek to certain mistreated groups such as the women who were excluded from education and work because they chose to wear Islamic clothing On the other hand some other representatives and supporters emphasize that they will take revenge hesapla mak against other groups close to AK Party Another important event that reflects the division within and the brittleness of the Nation Alliance is related to the announcement of their presidential candidate Not only did it take more than ten meetings and several months for them to decide but at the end of the process the leader of P Ak Ener left the block as she and her party did not approve the candidacy of Kılıçdaroğlu Nevertheless she came back to the table just one day later accepting Kılıçdaroğlu s candidacy but adding two new names Ekrem İmamoğlu and Mansur Yavaş CHP mayors of İstanbul and Ankara respectively to the existing five vice presidents Indeed for a long time Ak Ener had been campaigning that one of these two men be selected for the presidential candidacy The upcoming elections which are held on the centennial anniversary of the Turkish Republic put Türkiye at an important crossroads It seems that two conflictual perspectives the bloc that supports the consolidation of the presidential system and the bloc that supports a regime change will collide While the People s Alliance emphasize autonomy in foreign policy and seeks to achieve regional leadership the Nation Alliance promote an inward looking political system and withdrawal from regional issues Whatever the position of the bloc one thing is for sure The Turkish people want a strong leadership in foreign policy during this crucial global transition period The turnout in Turkish elections is relatively high generally over 80 percent which is one of the highest in the world Considering the politicization in the people s daily lives political polarization and the harsh political dialogue it seems that the turnout in the upcoming elections will be even higher Furthermore the earthquake disaster of February 6 has further exacerbated and aroused the political fault lines However at the end of this high level of democratic competition and turnout in elections Turkish democracy will be the winner and it will be consolidated Taking into consideration these developments and the importance of the elections not only for Türkiye but for

the regional and global affairs as well this issue of Insight Turkey tackles some of the most important and determinative topics influencing the results Disinformation has been one of the most noticeable ramifications we are experiencing of the digital revolution At the same time Türkiye situated in a geopolitical hotspot is one of the countries that is both a target and a hub of disinformation campaigns in the region Within this context Fahrettin Altun the Presidency Communications Director has penned a commentary addressing misinformation and disinformation with a special focus on Türkiye and the initiatives undertaken by Communication Directorate Within the same line of thought Yenal Gökşun provides an overview of Türkiye's strategic communication policy and evolution of the Turkish communication model and the current strategic communication initiatives undertaken by the Directorate of Communications According to Gökşun Türkiye's evolving development and foreign policy agenda which has developed rapidly in the last 20 years has pushed it to undertake more ambitious efforts in the field of communication and public diplomacy and as a result innovations have been made in strategic communication policies Turning to one of the most discussed issues in recent years in Türkiye's politics Cem Duran Uzun focuses on the country's presidential system and the different government systems proposed by various parties before the 2023 elections He specifically focuses on the differences between the U.S. presidential system and Türkiye's administrative system which overhauled its political system in 2017 and replaced the parliamentary system with a Turkish style presidential system Following up Hamit Emrah Beri evaluates the key issues in Turkish politics before the 2023 elections Beri argues that the 2023 elections are one of the most important in Türkiye's history and four main topics determined the fate of the elections refugees the economy rising nationalism and the Kurdish question The author focuses on serious differences of opinion between the ruling and opposition blocs on the solution to these problems According to Beri the 2023 elections will show whether the approaches of the ruling or opposition wing are in line with the expectations of Turkish society In our next research article Ravza Altuntaş aims to investigate the relationship between ethnic Muslim minority identity and transnational Muslim solidarity with emphasis on HDP the most organized political Islamic organization and the second largest political party in Southeast Türkiye In her paper Akar examines how the concept of ummah motivates the party's domestic ideological national and transnational political discourses and initiatives and also deals with the uncertainties that a mostly abstract and idealist ummahist approach to modern politics brings in the face of Kurdish nationalism regional realpolitik and democratic pluralism As mentioned previously refugees are another important issue for the forthcoming elections In that respect the article by Hatice Karahan and Zeynep Gülen Ertosun examines the various dynamics that Syrian women under temporary protection face in the labor market in Türkiye Technology has become a driving force in the global affairs and Türkiye has been taking all the necessary steps to take advantage of new developments Within this line of thought Serdal Temel in his commentary argues that Türkiye an emerging economy has been attempting to improve its socioeconomic strength through the promotion of research and development R D innovation and technological development activities The

**Secular States, Religious Politics** Sumantra Bose,2018-05-03 Presents a comparative study of two major attempts to build secular states India and Turkey in the non Western world **Whose Peace? Critical Perspectives on the Political Economy of Peacebuilding** M. Pugh,N. Cooper,M. Turner,2016-01-04 The book provides critical perspectives that reach beyond the technical approaches of international financial institutions and proponents of the liberal peace formula It investigates political economies characterized by the legacies of disruption to production and exchange by population displacement poverty and by criminality **The Unraveling** John R. Schmidt,2011-09-13 How did a nation founded as a

homeland for South Asian Muslims most of whom follow a tolerant nonthreatening form of Islam become a haven for Al Qaeda and a rogue s gallery of domestic jihadist and sectarian groups In this groundbreaking history of Pakistan s involvement with radical Islam John R Schmidt the senior U S political analyst in Pakistan in the years before 9 11 places the blame squarely on the rulers of the country who thought they could use Islamic radicals to advance their foreign policy goals without having to pay a steep price This strategy worked well at first in Afghanistan during the anti Soviet jihad in Kashmir in support of a local uprising against Indian rule and again in Afghanistan in backing the Taliban in the Afghan civil war But the government s plans would begin to unravel in the wake of 9 11 when the rulers support for the U S war on terror caused many of their jihadist allies to turn against them Today the army generals and feudal politicians who run Pakistan are by turns fearful of the consequences of going after these groups and hopeful that they can still be used to advance the state s interests The Unraveling is the clearest account yet of the complex dangerous relationship between the leaders of Pakistan and jihadist groups and how the rulers decisions have led their nation to the brink of disaster and put other nations at great risk Can they save their country or will we one day find ourselves confronting the first nuclear armed jihadist state

*Democracy and Counterterrorism* Robert J. Art, Louise Richardson, 2007 A comparative study of the policies strategies and instruments employed by various democratic governments in the fight against terrorism     Cascades of Violence John Braithwaite, Bina D'Costa, 2018-02-01 As in the cascading of water violence and nonviolence can cascade down from commanding heights of power as in waterfalls up from powerless peripheries and can undulate to spread horizontally flowing from one space to another As with containing water conflict cannot be contained without asking crucial questions about which variables might cause it to cascade from the top down bottom up and from the middle out The book shows how violence cascades from state to state Empirical research has shown that nations with a neighbor at war are more likely to have a civil war themselves Sambanis 2001 More importantly in the analysis of this book war cascades from hot spot to hot spot within and between states Autesserre 2010 2014 The key to understanding cascades of hot spots is in the interaction between local and macro cleavages and alliances Kalyvas 2006 The analysis exposes the folly of asking single level policy questions like do the benefits and costs of a regime change in Iraq justify an invasion We must also ask what other violence might cascade from an invasion of Iraq The cascades concept is widespread in the physical and biological sciences with cascades in geology particle physics and the globalization of contagion The past two decades has seen prominent and powerful applications of the cascades idea to the social sciences Sunstein 1997 Gladwell 2000 Sikkink 2011 In his discussion of ethnic violence James Rosenau 1990 stressed that the image of turbulence developed by mathematicians and physicists could provide an important basis for understanding the idea of bifurcation and related ideas of complexity chaos and turbulence in complex systems He classified the bifurcated systems in contemporary world politics as the multicentric system and the statecentric system Each of these affects the others in multiple ways at multiple levels and in ways that make events

enormously hard to predict Rosenau 1990 2006 He replaced the idea of events with cascades to describe the event structures that gather momentum stall reverse course and resume anew as their repercussions spread among whole systems and subsystems 1990 299 Through a detailed analysis of case studies in South Asia that built on John Braithwaite s twenty five year project Peacebuilding Compared and coding of conflicts in different parts of the globe we expand Rosenau s concept of global turbulence and images of cascades In the cascades of violence in South Asia we demonstrate how micro events such as localized riots land grabbing pervasive militarization and attempts to assassinate political leaders are linked to large scale macro events of global politics We argue in order to prevent future conflicts there is a need to understand the relationships between history structures and agency interest values and politics global and local factors and alliances
