Katastrophe A Novel:

Private Lives and Collective Destinies Benedict Schofield, 2012 Nineteenth century Germany witnessed many debates on the nature of the nation both before and after unification in 1871 Bourgeois authors engaged closely with questions of class and national identity and resourcefully sought to influence the collective destiny of the German people through works of popular fiction and cultural history Typical of this trend was the realist writer Gustav Freytag 1816 1895 the most widely read novelist of his era Innovatively exploring all of Freytag's works poetry drama novels history journalism biography and literary theory Schofield examines how his popular writing systematically reimagined the social structures of German society embedding political agendas within contemporary stories of private lives Connecting the aesthetics of Realism with the political aims of the bourgeoisie the study both reassesses Freytag's position within the German literary canon and re-evaluates received opinion on the socio-political function of Realism in German culture Benedict Schofield is Lecturer in German at King's College London Angels of Catastrophe Peter Plate, 2011-01-04 A cop is gunned down and unless Ricky Durrutti a petty criminal with a short biography and a long rap sheet can figure out who the real shooter is he's a dead man From Hunt's Donuts opposite where the killing took place to his room in the El Capitan Hotel from the blue grass and steel Federal Building off Golden Gate Avenue to the Ritmo Latino record store and from the Roxie Cinema on 16th Street to the Ramshackle Victorian homes of Treat Street where Lonely Boy lives the chase is on Salvadoreño gangs and Mexicans cops and Jewish gangsters drag queens and heroin addicts speed freaks and low rent hookers low lives rising rising to the challenge of making sense of a murder Out of the twentieth century of Nelson Algren and Charles Bukowski here is the twenty-first century world of Peter Plate *Family Secrets and the Contemporary German Novel* Elizabeth Snyder Hook, 2001 Central to the discussions of each novel are questions of guilt cultural identity and atonement and of the relocation of these ultimately unresolvable issues from the larger national and political arena to the realm of intimate relationships between parents and children BOOK JACKET The Novel in German since 1990 Stuart Taberner, 2011-09-01 Diversity is one of the defining characteristics of contemporary German language literature not just in terms of the variety of authors writing in German today but also in relation to theme form technique and style However common themes emerge the Nazi past transnationalism globalisation migration religion and ethnicity gender and sexuality and identity This book presents the novel in German since 1990 through a set of close readings both of international bestsellers including Daniel Kehlmann's *Measuring the World* and W G Sebald's *Austerlitz* and of less familiar but important texts such as *Yad Kara* s *Selam Berlin* Each novel discussed in the volume has been chosen on account of its aesthetic quality its impact and its representativeness the authors featured among them Nobel Prize winners Günter Grass Elfriede Jelinek and Herta and Paul Amirian demonstrate the energy and quality of contemporary writing in German *Catastrophe Practice* Nicholas Mosley, 2013-04-02 *Catastrophe Practice* in the form of three plays with prefaces and a novella follows six characters trying

to find their way through some catastrophe that is less in the world outside than in their minds Drawing upon catastrophe theory to examine the discontinuities in human personality and our tendency to progress suddenly rather than smoothly the six characters struggle to disrupt traditional ways of being These characters feel that conventional ways of interpreting the world have become destructive conventional language conventional feelings conventional situations and try to find a way to realise genuine experience The Novels of Erich Maria Remarque Brian Murdoch, 2006 New view of Remarque's novels as a chronicle of the century yet more than a mere reflection of historical events **Catastrophes** Nitzan Lebovic, Andreas Killen, 2014-07-28 Catastrophic scenarios dominate our contemporary mindset Catastrophic events and predictions have spurred new interest in re-examining the history of earlier disasters and the social and conceptual resources they have mobilized The essays gathered in this volume reconsider the history and theory of different catastrophes and their aftermath The emphasis is on the need to distance this process of reconsideration from previous teleological representations of catastrophes as an endpoint and to begin considering their operative aspects which unmask the nature of social and political structures Among the essays in this volume are analyses by leading scholars in their respective fields concerning the role of catastrophes in theology in the history of industrial accidents in theory of history in the history of law in catastrophe films in the history of cybernetics in post-Holocaust discussions of reparations and in climate change **Iconoclastic Departures** Mary Wollstonecraft Shelley, 1997 Iconoclastic Departures contributes to the ongoing reevaluation of Mary Shelley as a professional author in her own right with a lifelong commitment to the development of her craft Many of its essays acknowledge the importance of her family to her work the steady theme of much earlier scholarship but for them the family has become an imperative socio-psychological context within which to better understand her innovations in the many literary forms she worked with during her career journals letters travelogues biographies poems dramas tales and novels The book's essays also convey the conviction that even if Mary Shelley after Percy Shelley's death gradually retired from public life as his relatives wished she retained a resiliently resistant attitude toward many of the established orders of her day easily recovered by a careful look beyond her feelings to the productions of her literary imagination The Mary Shelley who inhabits this three-part collection of portraits is a radical even if a quiet radical Part 1 focuses on various moments in her construction of her authorial identity parts 2 and 3 anatomize the nature of her resistance and her innovation She is presented as a writer who reappropriates authority for herself who redesigns genres who redefines gender who rewrites history and biography who revises her readers' aesthetic expectations and who protests cultural imperialism at home and abroad It seems significant to the contributors to this volume that this new radical Mary Shelley was not invented by a pointed call for papers but emerged spontaneously from an open invitation to scholars working in various corners of the English-speaking world

Mediating Culture in the Seventeenth-Century German Novel Gerhild Scholz Williams, 2014-04-10 Eberhard Happel German Baroque author of an extensive body of work of fiction and nonfiction has for many years been categorized as a courtly gallant novelist In *Mediating Culture in the Seventeenth Century German Novel* author Gerhild Scholz Williams argues that categorizing him thus is to seriously misread him and to miss out on a fascinating perspective on this dynamic period in German history Happel primarily lived and worked in the vigorous port city of Hamburg which was a media center in terms of the access it offered to a wide library of books in public and private collections Hamburg's port status meant it buzzed with news and information and Happel drew on this flow of data in his novels His books deal with many topics of current interest national identity formation gender and sexualities Western

European encounters with neighbors to the East confrontations with non European and non Western powers and cultures and they feature multiple media including news reports news collections and travel writings As a result Happel s use of contemporary source material in his novels feeds our current interest in the impact of the production of knowledge on seventeenth century narrative Mediating Culture in the Seventeenth Century German Novel explores the narrative wealth and multiversity of Happel s work examines Happel s novels as illustrative of seventeenth century novel writing in Germany and investigates the synergistic relationship in Happel s writings between the booming print media industry and the evolution of the German novel

Arnold Schoenberg's A Survivor from Warsaw in Postwar Europe Joy H. Calico, 2014-03-15 Joy H Calico examines the cultural history of postwar Europe through the lens of the performance and reception of Arnold Schoenberg s *A Survivor from Warsaw* a short but powerful work she argues capable of irritating every exposed nerve in postwar Europe Schoenberg a Jewish composer whose oeuvre had been one of the Nazis prime exemplars of entartete degenerate music immigrated to the United States and became an American citizen Both admired and reviled as a pioneer of dodecaphony he wrote this twelve tone piece about the Holocaust in three languages for an American audience This book investigates the meanings attached to the work as it circulated through Europe during the early Cold War in a kind of symbolic musical remigration focusing on six case studies West Germany Austria Norway East Germany Poland and Czechoslovakia Each case is unique informed by individual geopolitical concerns but this analysis also reveals common themes in anxieties about musical modernism Holocaust memory and culpability the coexistence of Jews and former Nazis anti-Semitism dislocation and the presence of occupying forces on both sides of the Cold War divide

In the Shadow of Empire Malcolm Spencer, 2008 Spencer then considers Roth s more negative reaction showing the post imperial novel *Radetzkymarsch* to be a nostalgic response to the collapse of Habsburg Austria and the rise of fascism The final chapter looks again at the end of empire not in the work of writers who lived through

it but through that of one who experienced it as a historical and cultural legacy Ingeborg Bachmann BOOK JACKET The Modern German Historical Novel David Roberts, Philip Thomson, 1991-06-25 This is the first collection to examine the theory and practice of the historical novel in twentieth century German and Austrian literature One of the main aims of the volume is to work against the conventional view of the historical novel as an antiquated and escapist genre remote from contemporary problems and tied to nineteenth century models of realism These essays show that the historical novel is in fact always a response to contemporary history
