Prochnik's own years in the Holy Land in the 1990s brings him to question the stereotypical intellectual and theological constructs of Jerusalem and to rediscover the city as a physical place rife with the unruliness and fecundity of nature. Prochnik ultimately suggests that a new form of ecological pluralism must now inherit the historically energizing role once played by Kabbalah and Zionism in Jewish thought.

**Spiritual Nutrition** Gabriel Cousens, M.D., 2009-03-03 When we eat can we feed the soul as well as the body Can a diet have an impact on spirituality Spiritual Nutrition empowers readers to develop personal diets that are appropriate to their lifestyles and spiritual practices Drawing on 14 years of clinical experience and research Dr Gabriel Cousens discusses nutritional issues that can help answer these questions including raw vs cooked food high vs low protein the concepts of assimilation and fasting alkaline acid balance attitudes about food nutrients energy and structure building In addition Cousens shares his new dietary system of spiritual nutrition that is based on the relationship that the color of the food has to corresponding colors of the human chakra system hence the rainbow diet For true nourishment he strongly promotes the connection of diet to meditation fellowship wisdom and love [Handbook of Religion and the Authority of Science](#) Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world

**The Cult of We** Eliot Brown, Maureen Farrell, 2021-07-20 WALL STREET JOURNAL BESTSELLER A FINANCIAL TIMES FORTUNE AND NPR BEST BOOK OF THE YEAR The riveting definitive account of WeWork one of the wildest business stories of our time Matt Levine Money Stuff columnist Bloomberg Opinion The definitive story of the rise and fall of WeWork also depicted in the upcoming Apple TV series WeCrashed starring Jared Leto and Anne Hathaway by the real life journalists whose Wall Street Journal reporting rocked the company and exposed a financial system drunk on the elixir of Silicon Valley innovation LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD WeWork would be worth 10 trillion more than any other company in the world It wasn't just an office space provider It was a tech company an AI startup even Its WeGrow schools and WeLive residences would revolutionize education and housing One day mused founder Adam Neumann a Middle East peace accord would be signed in a WeWork The company might help colonize Mars And Neumann would become the world's first trillionaire This was the vision of Neumann and his primary cheerleader SoftBank's Masayoshi Son In hindsight their

ambition for the company whose primary business was subletting desks in slickly designed offices seems like madness Why did so many intelligent people from venture capitalists to Wall Street elite fall for the hype And how did WeWork go so wrong In little more than a decade Neumann transformed himself from a struggling baby clothes salesman into the charismatic hard partying CEO of a company worth 47 billion on paper With his long hair and feel good mantras the six foot five Israeli transplant looked the part of a messianic truth teller Investors swooned and billions poured in Neumann dined with the CEOs of JPMorgan and Goldman Sachs entertaining a parade of power brokers desperate to get a slice of what he was selling the country's most valuable startup a once in a lifetime opportunity and a generation defining moment Soon however WeWork was burning through cash faster than Neumann could bring it in From his private jet sometimes clouded with marijuana smoke he scoured the globe for more capital Then as WeWork readied a Hail Mary IPO it all fell apart Nearly 40 billion of value vaporized in one of corporate America's most spectacular meltdowns Peppered with eye popping never before reported details The Cult of We is the gripping story of careless and often absurd people and the financial system they have made

**The Eschatology of the Restoration of All Things** Mike Parsons, 2023-05-17 Eschatology is often thought of as describing the end of the world or end times Yet many have begun to conclude that the restoration of all things is an inevitable consequence of who God really is as Love encouraging them to look to the future with optimistic anticipation and expectation Isaiah prophesied no end to the increase of God's government and peace so why are believers still looking for an end Mike Parsons examines the reasons for this confusion exposing the Great Deception that lies behind it and proposing instead a happy eschatology in which all of God's children can recognise and fulfil their eternal destiny

**The Sleeper Must Awaken** Jean Erasmus, 2007-09 The human condition is a strange one at best Finding ourselves in a world nearly void of any profound natural predators with the ability to unconditionally love and solve the most complex problems in the most creative ways we choose to make the world an ever increasingly dangerous place in stead of creating Utopia In our relentless pursuit of happiness and perfection we create the very opposite The Sleeper Must Awaken dives deep into the human psyche exploring from the archetypal dreamscapes of our subconscious minds to the remarkable similarities between Super String Theory and ancient mysticism It opens the door to a journey within ourselves searching for the root of this phenomenon and presenting possible solutions to a world on the edge Author Bio Dr Jean Erasmus is a South African born medical practitioner Before moving to the United Kingdom he has worked mostly with less fortunate souls managing a wide variety of illnesses ranging from Tuberculosis to HIV AIDS He has also been involved in medical legal work as well as lecturing in Primary Health Care The world of medicine where cold evidence based science intermingles with the warm complex emotional and spiritual human being has sparked an interest in Jean leading him to pursue the connection between these two diverse poles of the human condition This pursuit offset by the dramatically changing physical social and spiritual landscape of the world led him into writing this book in an attempt to finding the missing piece of the current human led world puzzle and to present

possible solutions      Living Kabbalah ,2016-12
