Fishwheels of the Columbia Ivan J. Donaldson, Frederick K. Cramer, 1971 *Report on Salmon Wheel Studies, Columbia River Basin* John Treadwell Nichols, 1908 Carbon copy typescript Report on Salmon Wheel Studies Columbia River Basin 141 pp 1908 regarding the history of the use of fish wheels on the Columbia River with statistics Journal of Northwest Anthropology Darby C. Stapp, A History of Underwater Archaeological Research in Oregon Dennis Griffin Great Basin Obsidian at The Dalles Implications for the Emergence of Elites in the Southwestern Plateau Rick Minor Traditional Ecological Knowledge Reconstructing Historical Run Timing and Spawning Distribution of Eulachon through Tribal Oral History Nathaniel D Reynolds and Marc D Romano A Multidisciplinary Perspective on the 2011 Ethnography The Spokane Indians with a Response from the Author John Alan Ross Darby C Stapp Jack Nisbet Tina Wynecoop Dennis D Dauble Jay Miller Deward E Walker Jr and John Alan Ross The 64th Annual Northwest Anthropological Conference Moscow Idaho 21 23 April 2011 Journal of Northwest Anthropology Publication Style Guide **Workers and the Wild** Lawrence M. Lipin, 2007 In an innovative blend of environmental and labor history *Workers and the Wild* examines the changing terms on which battles over the proper use of nature were fought in the early twentieth century Focusing on Oregon in the 1910s and 1920s Lawrence M Lipin traces labor s shift in thinking about natural resources They began with the producerist idea that resources and land both rural and urban should be put to productive use and that those who do are most entitled to access to them They later shifted to a consumerist view under which resources should be available for public and recreational use While labor was initially resistant to the elitism of protected nature preserves working class views changed as automobiles became more affordable and gained increased access to national parks forests and beaches They subsequently accepted the preservation of nature for recreation and even began to pressure state agencies to provide more outdoor opportunities While fish and game commissioners responded with ever more intensive hatchery operations wildlife advocates began a push for designated wilderness areas In these and other ways the labor movement s shifting relationship to nature reveals the complicated development of wildlife policy and its own battles with consumerism **Northwest Lands, Northwest Peoples** Dale D. Goble, Paul W. Hirt, 2012-03-15 It can be said that all of human history is environmental history for all human action happens in an environment in a place This collection of essays explores the environmental history of the Pacific Northwest of North America addressing questions of how humans have adapted to the northwestern landscape and modified it over time and how the changing landscape in turn affected human society economy laws and values Northwest Lands and Peoples includes essays by historians anthropologists ecologists a botanist geographers biologists law professors and a journalist It addresses a wide variety of topics indicative of current scholarship in the rapidly growing field of environmental history *Sustainable Fisheries Management* E. Eric Knudsen, Donald McDonald, 2020-02-10 What has happened to the salmon resource in the Pacific Northwest Who is responsible and what can be done to reverse the decline in salmon

Schwantes,1996-01-01 Carlos Arnaldo Schwantes has revised and expanded the entire work which is still the most comprehensive and balanced history of the region This edition contains significant additional material on early mining in the Pacific Northwest sea routes to Oregon in the early discovery and contact period the environment of the region the impact of the Klondike gold rush and politics since 1945 Recent environmental controversies such as endangered salmon runs and the spotted owl dispute have been addressed as has the effect of the Cold War on the region s economy The author has also expanded discussion of the roles of women and minorities and updated statistical information **Yakima River Basin and Canyon Ferry** United States. Pitcher,P. Hart,D. Pauly,2012-12-06 Judged by a dismaying track record and a consequent downturn in the reputation of fisheries scientists fisheries management is certainly a candidate for calls for reinvention with many of the world leaders in this area holding the view that no fishery has ever been properly understood or managed With fisheries science in a state of flux this extremely important book seeks a new paradigm that will place this flux of ideas in perspective and help us to choose those that will make fisheries management work The book was planned at a symposium of over 100 fishery researchers at the Fisheries Centre University of British Columbia Vancouver Canada and is organized into five parts Why does Fisheries Science Need Reinventing New Policies The Role of the Social Sciences Ecology Modelling Carefully integrated and edited by three of the world s leading fishery scientists this stimulating book should find a place on the shelves of all fishery scientists throughout the world It will be an invaluable reference source to those studying fish biology fisheries and oceanography and all those involved in fisheries policy decisions in government and university research establishments *NOAA Week* ,1972
